STATE LEGISLATURE.

THE OPENING WORK OF THE

The Governor's Message. HARRISBURG, Jan. 2 .- After the election of Rayburn as President pro tem. of the Senate yesterday, Thomas B. Cochran was re-elected Chief Clerk, Smiley Journal Clerk, and Pearson Reading Clerk. Mr. Davies presented a list of names for minor offices, but, on motion of Lee, it was decided by a vote of 40 to 10 to postpone action on the names until to-day. The next motion was by Mr. Cooper, to adjourn finally March 22d, and it was agreed

> reassembled to hear the Governor's The House began business by the election of Faunce, Speaker, 111 to 88

so without dissent. The Senate then

adjourned until three o'clock, when it

for Niles. The other nominees of the Democratic caucus were elected. Cooper's resolution to adjourn March 22d, was referred.

Senator Reyburn says he will select members or Committees on the basis that there are 30 Republican and 20 Democratic Senators. Further than this he cannot speak except as to the Committee on Municipal Reform, before which will come the new charters for Philadelphia and Pittsburgh. His present design is to appoint this committee from districts outside of these two cities, giving each, however, a representative in it—probably one Demo-crat and one Republican from Philadelphia, and one Republican from Pittsburgh. The reason he assigns for this is that city Senators would be subjected to too much pressure from interested persons. Speaker Faunce will give the two cities a large representation on the committee, not proving the pressure which President Revbern speaks of.

In his message Governor Hoyt congratulates the citizens of the Commonwealth on the general prosperity they have enjoyed during the year, and points with some pride to the reduction that has been affected in the State debt during his administration. There is to-day in the sinking fund, assets amounting to \$7,992,983.82, and the net State indebtedness on Dec. 1, 1882. after deducting them, was \$12,332,-In regard to the sinking

fund, the Governor says: There is at present in the sinking fund \$2,077,073.90 cash. As none of the State loans are at present reim bursable, the Treasurer has no lawful authority to apply this fund to the reduction of the debt, except by going into the market and buying the bonds of the State at a premium, handsome, indeed, and creditable to the State, but embarrassing to a financial officer charged with accountability. These bonds, at market rates, now bear premium about as follows:

The 31 per cents are selling a The 4 per cents are selling at.... The 5 per cents are selling at....

waiting a legislative command. The Governor gives a table showing the different sources from which the State's revenues are derived, and then discusses at some length our system of taxation. The amount received last vear was \$7,068,529.66, while the expenditures for the same period were \$5.024,766.41. Of the aggregate receipts, he says:

More than \$4,000,000 were derived from taxes on corporations. The only item which in any true sense, is a direct tax on the people, is that of \$437, 779.64, "tax on personal property." This tax is derived from money on interest, watches and carriages. If it is desirable to retain the taxes on National banks, which yield the State nearly \$350,000 annually, this tax on personal property cannot be abolished, as the acts of Congress, creating the National There is no tax for State purposes on real estate.
