# OIL NOTES.

 In the resume of the second sec per day, and as the sales were made on a basis of over \$500 per barrel the total for the 26 wells would be about \$70,000. It is said the terms were one-third cash and balance in oil to be

 A contract of the state of the Taylor & Co. at one time owned 300 producing wells in this county, several of which became famous. The "Boss" well, on the Parker farm, near Criswell, was struck in July, '74, and gushed forth 2,000 barrels per diem. It yielded over one hundred thousand barrels. Then there was the old Divener, which created great excitement in 1873, and populated Millerstown It is, perhaps, one of the most remarkable wells ever found. Begiuning with a daily production of 1,400 barrels it declined steadily to 700 barrels, which amount it yielded daily, month after month. gradually declining as the years old, "she is still pumping nine barrels per day." Oil was then \$2.50,

A 250 barrel tank was filled in a few hours, and several hundred barrels ran on the ground before more tankage mystery, and I want now to give them could be procured The well was still my side. Pete Dressler, the detective flowing yesterday at the rate of 250 swore my life away in perjury. On the Friday night Louis Guttfreund was

ten o'clock, and would have been too late for me to get lodging at a decent place. Country people are always sus-picious of peddlers."

The European Floods. The floods which for several months

have been drowning various parts of Europe have been unprecedented in volume and destructiveness. The devastation began in Lombardy, where the plains are overflowed nearly every year since the southern slopes of th Alps have been stripped of protecting forests. The streams which head in the Apennines also swell into torrents every season, and Government engi-neers find occasion to use all their skill in building dikes and opening artificial channels. But the problem grows more difficult every year as the mounyears went by, and though almost 10 tain slopes are gullied out and the rive er beds filled up. The Po has gradual-ly been lifted up above the plains, and and for five years thereafter averaged nearly \$2, showing that a man owna broken dike, even when the water is to be delivered on Wednesday, Thurslow, will turn miles of cultivated fields day and Friday, January 24th, 25th ing a well like the old Divener should into one vast lake. During the autumn, rains were unusally abundant, and the

Card of Thanks.

PITTSBURGH, Jan. 8. - There is shortly to be held here a convention to effect a general organization of the bituminous coal miners of the United States. The call has not yet been issued, but will be in a few days. The idea is to get the 170,000 miners of the United States under one head for mutual protection and the prevention of strikes. Each State will have its separate organization.
