Back Ache

POSITIVELY CURED BY

Benson's Capcine Porous Plasters.

Reasons Why they are Preferred to All Other Porous Plasters or External Remedies:

First.
Because they possess all the merit of the strengthening porous plaster, and contain in addition thereto the newly discovered powerful and active vegetable combination which acts with increased rubefacient, stimulating, sedative and counter irritant effects.

Second.
Because they are a genuine pharmaceutical preparation, and so recognized by the profession.

Third.
Because they are the only plasters that relieve pain at once.

Fourth.
Because they will positively cure diseases which other remedies will not even relieve.

Fifth.
Because over 5000 physicians and druggists have voluntarily testified that they are superior to all other plasters or medicines for external use,

Sixth.
Because the manufacturers have received the only medals ever given for porous plasters.

Old Boreas on the Rampage.

The high winds whistled around the chimney tops and steeples, and blew bricks down into the street, scaring the people who walked below. Snow, sleet and hail drove into the faces of those who dared expose themselves, and made them button their coats tight around their throats. Of course there were sore throats and colds and coughs and rheumatisms the next day. But what were these to men and women who could step out into any drug store and buy a bottle of Perry Davis's Pain Killer?

—Professor Young, of Princeton College, says: "Take a railroad from the earth to the sun, with a train running forty miles an hour without stops, and it would take about 265 years and a little over to make the journey." He estimates the fare at one cent per mile to be $930,000. The fare is low enough, but we can't spare the time for the trip just now.

Most Wonderful.

Very seldom do we read of an actual case of recovery, where hope had altogether been lost, to equal that which on Monday was investigated by a *Dispatch* reporter who had heard, in various quarters, persons talking to their friends of a cure, seemingly little short of miraculous, that had been performed. Wm. Lincoln Curts is the name of the young man in question. He is now employed at H. K. Porter & Co.'s Locomotive Works, Pittsburgh. His disease was chronic rheumatism. The enormous swelling and pain in the joints of his arm soon produced paralysis of his left arm. He gradually grew worse, his ankles and knees were soon even worse than his arms, his cheek bones began to enlarge, spreading his face out of all resemblance to his former self. Two physicians pronounced him hopeless. Peruna cured him. Page 26 Dr. Hartman's "Ills of Life,"

They will start from Philadelphia Febuary 15, in a car exclusive to themselves and several lady members of their families, to be gone about six weeks. Mr. Dana's somewhat famous cook a darkey named Daniel Webster, will go along as caterer and Mr. Cameron will also draw upon his household staff for servitors. The two distinguished travelers will use the car instead of a hotel, and it will be elaborately provisioned and furnished. They will ride up and down the Pacific coast and to and from in it, besides stopping at several points this side of the Rocky mountains.

Always Effectual.

Dr. Rodger's Syrup of Liverwort, Tar and Canchaagua, or Liverwort and Tar, as it is most commonly called, is a splendid medicine. The effect of tar, as medicated in this preparation, is soothing and grateful to the diseased lungs as well as healing, and the other ingredients, which are powerful expectorants, assist in effecting cures when all other medicines fail. For coughs, colds and all diseases of the lungs and chest it has no equal.

CAUSE FOR APPREHENSION.

Why Mysterious Physical Troubles Arouse Special Dread—A Professional Experience.

Few things give more pain than dread or apprehension. Most people are able to face apparent danger heroically, but the sudden and unexpected coming of some indefinite calamity very naturally strikes terror to even the bravest. For this reason lightning and tornadoes are considered terrible; their coming and going are so sudden, unannounced and unknown. For this same reason an unknown disease, some poison in the blood, some malady that is gradually undermining the life, is specially dreaded by all thinking people. And, indeed, there are good reasons for such dread, for modern science has discovered that some virulent disorders show the least signs in their beginnings, while they have the worst possible symptoms. We know of many persons who have dull and uncertain pains in various portions of the body; who are unnaturally tired one day and apparently well the next; who have an enormous appetite at times and a loathing of food soon thereafter. Such persons are really in a dangerous condition, even though they do not realize it. The following statement of a most prominent physician, who has had unusual opportunities for investigation is of so striking and important a nature that it will be read with interest by all:

OFFICE: No. 27½ WEST EIGHTH ST.)
O. ANDERSON, M. D., SUPERINTENDENT.
CINCINNATI, O., DEC. 2, 1882.

Messrs. Editors:

I have, during my professional career of many year's practice, treated a large number of various disorders, of which perhaps none have given me more trouble than the mysterious disease known as acute nephritis; and while it seems strange, it is, nevertheless, true, that the physician is generally greatly annoyed by this mysterious trouble, especially when the case is of hereditary origin. It is, doubtless, the first stage of the well-known, but terrible Bright's disease, as the kidneys contain large quantities of albumen; and while children and young people are especially liable to its attacks, it is prevalent with all classes, and usually continues until late in life.

One obstinate case which came under my observation, was that of a fireman of this city who applied to me for treatment. The case was diagnosed parenchymatous nephritis. The man was twenty-four years of age; plethoric and light complected. He stated that he had suffered from urinary troubles from childhood, and that he had "doctored" a hundred times, each time improving some: after which, in a short while, he would relapse into his former state of misery. I prescribed the usual therapeutics known to the profession with the same results that my colleagues had obtained. He got better for a while and then worse again; in fact, so bad that he had to lay off for some time. He suffered intense pain; so much so that I confess I had to resort to hypodermic injections of morphia. My druggist who knew how disgusted I was with the case, although not willing to desert the man, advised me to try a remedy from which he (the druggist) himself, had derived great benefit. As a drowning man catches a straw, I prescribed this remedy, not letting my patient, however, know what I was giving him; and, although, not a believer in nor a patron of "patent medicines," I must confess that after my fireman had taken one bottle he grew much better. I made him continue its use for a period of two months, with the most gratifying results; it really worked wonders and he owes his cure and present perfect health solely to the remarkable power of Warner's Safe Kidney and Liver Cure, and the remedy which I prescribed, and he used.

Since the recovery of the man above mentioned, I have given considerable thought to the subject of acute nephritis, or kidney difficulty, and I find that its manifestations are most remarkable. It often appears without any special symptoms of its own, or possibly as a sequel to some other disease It may be a sequel to scarlatina, diptheria, and other illnesses, and even arise from pregnancy. The first symptoms frequently show themselves in the form of high, fierce and intense pains in the lumbar region, "the small of the back," troublesome micturitions and frequent changes in the color of the urine which at times diminishes perceptibly. If the urine is entirely suppressed, the case, probably, will terminate fatally in a very few days. Dropsy is a consequence of the suppression of urine, and the severeness of it is governed by the proportion of retention. The nervous system becomes prostrated with subsequent convulsions and irregular circulation of the blood, which, in my estimation, might eventually cause a diseased heart to give out. As I have remarked, in many kidney diseases—yes, even in Bright's disease itself—there is no perceptible pain in the back, and these troubles often assert themselves in various symptoms—for instance, in troublesome diarrhœa, blood poison, impaired eye sight, nausea, loss of appetite, disordered digestion, loss of consciousness, husky voice and many other complaints too numerous to mention. Indeed thousands of people are suffering from the first stages of Bright's disease to-day and *they do know it.*

In conclusion, I would like to state that I have, since my success with the fireman, repeatedly prescribed Warner's Safe Kidney and Liver Cure, and if my professional brethern could only be brought so far as to overcome their prejudice against proprietary medicines they would, undoubtedly, find themselves recompensed for their supposed sacrifice of liberty, as well as by the great benefits that would accrue to the world.

Most sincerely,
O. ANDERSON, M. D.,
Superintendent.

—A Oregon boy, who had no string to fly his kite, went into a drug store and bought a penny's worth of licorice, While the druggist was serving him he tied an end of the string from the druggist's ball of string to his dog's tail, and then kicking the dog, drove him out of the shop. After the dog had unreeled all that the boy thought that he needed, he cut the string, took his licorice and walked out of the apothecary's shop without that person even suspecting the trick.

A Lecture to Young Men
ON THE LOSS OF
MANHOOD
A Lecture on the Nature, Treatment and Radical cure of Seminal Weakness, or Spermatorrhœa induced by Self-Abuse, Involuntary Emissions, Impotency, Nervous Debility, and Impediments to Marriage generally; Consumption, Epilepsy and Fits; Mental and Physical Incapacity, &c.—By ROBERT J. CULVERWELL, M. D., author of the "Green Book," &c.
The world-renowned author, in this admirable Lecture, clearly proves from his own experience that the awful consequences of Self-Abuse may be effectually removed without dangerous surgical operations, bougies, instruments, rings or cordials; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.
This Lecture will prove a Boon to Thousands and Thousands.
Sent under seal in a plain envelope to any address, on receipt of six cents or two postage stamps. Address,
THE CULVERWELL MEDICAL CO.,
