—The green 3-cent postage stamp will in a few months be the most common of the faithful series. It will be followed by a 2-cent, with the face of Washington.
—It has been discovered that one cause of the popularity of the telephone consists of the fact that by means of it a man can talk with a friend five minutes without asking him to take a drink.
—The death of Peter Cooper, which occurred on the 4th inst., deserves particular mention. Mr. Cooper was not only a very notable member of the community in which he lived, but he also filled an important place in the life of his own city, but he made himself by his peculiar characteristics a conspicuous figure of his country and time. Hardly any man could be named who had been at once so successful in the accumulation of wealth and so truly benevolent in its distribution. The man whose heart is seldom vastly rich. Yet Mr. Cooper was both. By very remarkable capacities of mechanical invention and business management, by a combination of the faculties that serve best in the gathering of wealth, his fortune had reached large proportions long before the year of his advanced age; yet he lived by and philanthropic fond congenial company with the accumulative genius that made him rich. His kindness of heart was known to thousands, and his death has brought out an abundance of eulogistic testimony to his continual good works. The conventional expressions of post-mortem praise have not been spared in speaking of his departure, and the heartiness and sincerity of what has been said in reference to him proved encouragingly that after all a good man will not lack just recognition.
Another Gusher at Bald Ridge.
The Phillips Bros., well on the Wallace farm in Penn township, was completed last Monday morning and the well is flowing, with the tools at the rate of 122 barrels per day. The sand in this well is good and no salt water was encountered. The well is a full mile east of Phillips, opens up a new stretch of territory and determines the direction of the belt as being east and west. The farm is owned by the Wallace Bros., of Allegheny City. The Forest Oil Co. is well on the Brannon or Old Albion farm, has also been completed and is dry.

Taxes on Coal Land.
In response to the request of the commissioners of Mercer county their counterpart, S. E. Mason, Esq., has given his opinion on the subject of taxing coal lands. Mr. Mason considers the subject under two heads, first: Whether the owner of the land and the owner of the coal underlying the same, developed, are each taxable according to their respective interests; and second, whether an ownership of the coal held in fee or by leasehold and undeveloped is the subject of taxation to the lessee.
The first of these propositions has been authoritatively settled, Mr. Mason says, in the case of Logan vs. Washington county, in which the Supreme Court held that "where the owner of coal lands has sold the right to take all the coal that is in the land, but has retained the land itself, the owner of this land and the owner of the coal are each taxable according to their several interests. But this principle does not justify a higher valuation on the two interests taken separately, than there would have been if both had continued in the same person."
Of the second proposition, Mr. Mason holds that the lessee of undeveloped coal property should not be taxed for it, because he derives no income or benefit from it, but that the owner of the land should, because of the increased value of the property by reason of the coal underlying it. The owner not only receives a certain sum each year from the lessee, in the nature of advanced payments or a forfeiture, but the value of the land is enhanced, notwithstanding the encumbrance of the lease. He therefore concludes that the several assessors of the county, where they find coal mines opened and in operation, should apportion the valuation between the lessor of the land and the owner of the coal, according to their several interests; so apportioned, however, that the aggregate valuation of interests would not be greater than if all had remained in the same person—and all other lands in proportion to their values, whether those values are made up from improvement to the surface or undeveloped resources in the land, but, however, fixing any speculative values. The assessors' oath of office points out his duty in this respect.

The President's Movements.
A dispatch from Kissimmee, Florida, says: President Arthur and party left yesterday for Fort Gardner, on the Kissimmee river, forty miles south of Kissimmee City, and there met Tom Tigertail, a sub chief of the Seminoles, who had come from Lake Rosalie, six miles distant, to meet the great father. The President shook hands with the Indian, and gave a papoose squawer. Secretary Chandler gave Tom Tigertail his pocket knife. The Secretary Chandler remarked to the President that Tigertail strongly resembled Alexander H. Sheppard. The President handed Tigertail a cigar, which was seized with avidity, and he immediately reached for the President's cigar and obtained a light and returned it. The President has caught many fish, and Secretary Chandler to-day killed an alligator.
The party returned to Kissimmee City about noon to-day. They have gone on a special visit six miles up the shore of the lake, but have ordered a team for the purpose of leaving for Sanford at 6:30 this afternoon. They change their plans frequently. Secretary Chandler is expected to go through Okcechoke lake, and down the Caloosahatchie to Punta Rosa, and there telegraph to the steamer Tallapoosa, but the President would not consent.

Hebrew Indifference.
There is talk now of the return of the Jews to Palestine. In our opinion the matter will end in discussion, at least for the present. Of course some time in the dim and misty future we will expect them to go back. But oil must be struck in the Holy Land first and the business interests of the country enlivened considerably. For a good many years the Israelite has been accustomed to keep his eye on the main chance. The day of miracles has gone by. It has been well said that the neighborhood of Jerusalem is rich in ballowed associations but that is about all it is rich in. To get the Hebrew therefore to suddenly abandon his business and pack his trunk for Syria is perfectly preposterous.—Washington Observer.

All letters upon which one full rate postage has been prepaid and all postal cards shall be forwarded from one office to which they are addressed to any other office at the request of the person addressed, or to the party whose card may be upon the envelope or whose name is upon the postal card, without additional charge of postage. Such forwarding must be continued until the party addressed is reached.
FRANK HATTON, Acting Postmaster General.
Well Stated.
"Putting on the livery of heaven to serve the devil in" has long been a figure of speech expressing honest men's utter contempt for the hypocrites who would avail themselves of the influence of a good cause to accomplish some evil which could not bear the light of honest frankness. It is never more applicable than it is to the political fathers at Harrisburg, who intend to deny the people the privilege of deciding by their ballots whether or not they want to incorporate in the State constitution an amendment prohibiting the manufacture and sale of intoxicating liquors.—Orionista Dispatch.
