rangement of Liver, Bowels and Kidneys.

5YMPTOMS OF A DISEASED LIVER.

Bad Breath; Pain in the Side, sometimes the pain is felt under the Shoulder-blade, mistaken for Rheumatism; general loss of appetite; Bowels generally costive, sometimes alternating with lax; with e head is troubled with pain, is dull and heavy with considerable loss of memory, accompanied with a painful sensation of leaving undone something which ought to have been done; a slight, dry cough and flushed face is sometimes an attendant, often mistaken for consumption; the patient complains of weariness and deblirly; nervous, easily startled; leet cold or burning, sometimes a prickly sensation of the skin exists; spirits are low and despondent, and, although satisfied that exercise would be been foial, yet one can hardly summon up fortitude to try it—in fact, distrusts every remedy. Severa of the above symptoms attend the disease, but caucs have occurred when but few of them existed, yet examination after death has shown the Liver to have been extensively deranged.

It should be used by all persons, old and young, whenever any of the above symptoms appear.

Persons Traveling or Living in Unhealthy Localities, by taking a dose occasionally to keep the Liver in healthy action, will avoid all Malaria, Billous attacks, Dizziness, Nausea, Drowsiness, Depression of Spirits, etc. It will invigorate like a glass of wine, but is no intoxicating beverage.

If You have eaten anything hard of digestion, or feel heavy after meals, or sleep-less at night, take a dose and you will be relieved.

Time and Doctors' Bills will be saved by always keeping the Regulator in the House! For, whatever the aliment may be, a thoroughly safe purgative, alterative and tonic can never be out of place. The remedy is harmless and does not interfere with business or pleasure.

IT IS PURELY VEGETABLE,
And has all the power and efficacy of Calomel or
Quinine, without any of the injurious after effects.

Two years later Westmoreland was formed out of the province west of the mountains. The law directed that the court should ford was the first Presiding Judge. He served for nine years, and died horrible death at the hands of the Indians, in the fatal expedition against the Sandusky villages. The Justices of the Peace in the county formed the

court, both civil and criminal. Three of them formed a quorum with one acting as president judge. Later in 1777 they were appointed and commissioned. Edward Cooke, Esq., was the first appointee. In 1785, John Moon, a Justice of the Peace, was commissioned as the first resident president judge west of the mountains. The Pittsburgh courts, up till 1788, were held at Hannastown. The jail, a log pen, was not for imprisonment as a part of the sentence, but a place where prisoners were kept pending trial. The penalties were usually fines, whipping, standing in the pillory stocks, and clipping of ears. The whipping post was a stout sapling with a cross to which the prisoners were tied. The pillory allowed the prisoner's head to be exposed, at which, at common law, each passing citizen was allowed to

Pittsburgh was in Yohogania county, comprised of the present terri-tory in Allegheny and part of Washington counties. The courts were held regularly until 1780, sometimes at Pittsburgh, sometimes near the present site of Washington, but oftener on Monongahela River, near the line be-tween Allegheny and Washington counties. A ducking stool was built at this point to punish scolding wives. It was a large see-saw arrangement with a chair near the end next the water, in which the victim was lashed, and her virulent temper cooled by repeated tilts into the cold water.
