

BUTLER CITIZEN. MISCELLANEOUS. RE-INVESTIGATED.

A Remarkable Statement Fully Confirmed by Three Important Interviews.

An unusual article from the Rochester, N. Y., Democrat and Chronicle was published in this paper recently and has been the subject of much conversation both in professional circles and on the street.

Dr. J. B. Henion, who is well known not only in Rochester, but in nearly every part of America, sent an extended article to this paper, a few days since, which was duly published, detailing his remarkable experience and rescue from what seemed to be certain death.

It would be impossible to enumerate the personal enquiries which have been made at our office as to the validity of the article, but they have been so numerous that further investigation of the subject was deemed an editorial necessity.

With this end in view a representative of this paper called on Dr. Henion at his residence, when the following interview occurred:

"That article of yours, doctor, has created quite a whirlwind. Are the statements about the terrible condition you were in, and the way you were rescued such as you can sustain?"

"Every one of them and many additional ones. How people ever get so near the grave as I did and then return, and I am not surprised that the public think it marvelous. It was marvelous."

"How in the world did you, a physician, come to be brought so low?"

"By neglecting the first and most simple symptoms. I did not think I was sick. It is true I had frequent headaches; felt tired most of the time; was nervous the next day; felt dull, indefinite pains, and my stomach was out of order, but I did not think it meant anything serious."

"But have these common ailments anything to do with the fearful Bright's disease which took so firm a hold on you?"

"Anything? Why, they are the sure indications of the first stages of that dreadful malady. The fact is, few people know or realize what ails them, and I am sorry to say that too few physicians do either."

"That is a strange statement, doctor?"

changed—is color and command both left him, and in a trembling voice he said: 'Gentlemen, I have made a painful discovery; I have Bright's disease of the kidneys, and in less than a year he was dead.'

"You believe, then, that it has no symptoms of its own and is frequently unknown even by the person who is afflicted with it?"

"It has no symptoms of its own and very often none at all. Usually no two people have the same symptoms, and frequently death is the first symptom. The slightest indication of any kidney difficulty should be enough to strike terror to any one. I know what I am talking about, for I have been through all the stages of kidney disease."

"You know of Dr. Henion's case?"

"Yes, I have both read and heard of it. 'It is very wonderful, is it not?' 'A very prominent case but no more so than a great many others that have come to my notice as having been cured by the same means.'

"You believe then that Bright's disease can be cured?"

"I know it can. I know it from the experience of hundreds of prominent persons who were given up to die by both their physicians and friends."

"You speak of your own experience, what was it?"

"A fearful one. I had felt languid and unfit for business for years. But I did not know what ailed me. When, however, I found it was kidney difficulty, I thought there was little hope, and so did the doctors. I have since learned that one of the physicians of this city pointed me out to a gentleman on the street one day, saying, 'there goes a man who will be dead within a year.' I believe his words would have proven true if I had not fortunately secured and used the remedy now known as Warner's Safe Cure."

"And this caused you to manufacture it?"

"No it caused me to investigate. I went to the principal cities, saw physicians prescribing and using it and therefore determined, as a duty I owed humanity and the suffering, to bring it within their reach and now it is known in every part of America, is sold in every drug store and has become a household necessity."

The reporter said Mr. Warner, much impressed with the earnestness and sincerity of his statements and next paid a visit to Dr. S. A. Lattimore at his residence on Prince street. Dr. Lattimore, although busily engaged upon some matters connected with the State Board of Health, of which he is one of the analysts, courteously answered the questions that were propounded.

"Did you make a chemical analysis of the case of Mr. H. H. Warner some three years ago, Doctor?"

Maud Muller and the Apples. Maud Muller stood one summer day, quietly racking the now-mown hay.

In the apple orchard, plain to be seen, Was plenty of fruit, both hard and green. Rashly she ate green apples, till she Was doubled up like the letter Y.

With pain in her stomach and tears in her eyes, Maud Muller thought she would surely die. But soon came an end to her woful grief, For Pain Killer brought her sweet relief.

—Nothing is easier than fast finding. No talent, no self-denial, no brains, no character, are required to set up in the grumbling business. But those who are moved by a genuine desire to do good have little time for murmuring or complaint.

—A specific, and the only one too for all forms and types of skin disease, is known the world over as Dr. Benson's Skin Cure. It is not a patent medicine, but a reliable, certain remedy. Druggists.

—Punctuation is sometimes necessary to the proper rendering of a sentence. To illustrate, we saw in a country paper the other day an advertisement to the effect that "if the gentleman who keeps a shoe store with a red head, will return the umbrella of a young lady with whalebone ribs and a ivory handle, he will hear of something to his advantage."

—There seems to be a degree of compensation in all experiences. "I have no fear of the future," said an afflicted man, "because I really must be where it is warm."

—The secret of the universal success of Brown's Iron Bitters is owing to the fact that it is the very best iron preparation made. By a thorough and rapid assimilation with the blood it reaches every part of the body, giving health, strength and endurance to every portion. Thus beginning at the foundation it builds up and restores lost health. It does not contain whisky or alcohol. It will not blacken the teeth. It does not constipate or cause headache. It will cure dyspepsia, indigestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, etc.

—Knowledge is said to be sorrow. If this be true there are some men in the community who must be supremely happy.

U. S. Surgeon Recommends. Dr. J. M. G. Pheeton, is a U. S. Ex-Surgeon, residing now at Blooming, Ind. The Dr. writes to say: "I recommend Samaritan Nerve because it cures epilepsy." Physicians, generally are its friends.

—It is a curious fact that no man in the world wants to be rich; he only asks for enough, and surely that is a reasonable request.

A Partially Dead Man. The Morning Herald, Baltimore, Md., states: Major B. S. White, of this city, describes his marvellous cure as follows: "I have been a partially dead man for ten years. Doctors attributed my sufferings to the enlargement of certain glands. The quantity of medicine I took without relief would be sufficient to set up a first-class apothecary shop. Finally St. Jacobs which have been made. The standing of Dr. Henion, Mr. Warner and Dr. Lattimore in the community is beyond question and the statements they make cannot for a moment be doubted. They conclusively show that Bright's disease of the kidneys is one of the most deceptive and dangerous of all diseases, that it is exceedingly common, alarmingly increasing and that it can be cured."

"Do you know anything about the remedy which cured him?"
