—Just received at Chas. R. Grieb's a complete line of Celluloid Collars and Cuffs.
—There is a young lady living near this town who has a white feather growing among the eyelashes of one of her upper eyelids. This seems almost incredible but it is nevertheless true.
—Summer Underwear for Gents. Cheap at PATTERSON'S, Duffy Block.
—How many know that a horse gets up before and a cow gets up behind, and the cow eats grass from her and the horse eats to him?
—How many know that a surveyor's mark on a tree never gets any higher from the ground or that trees bear fruit without bloom?
—Hats, caps and gents' furnishing goods, big line, at J. F. T. STEIN'S.
—Chrolithian Water-proof Collars and Cuffs nearly as cheap as L. STEIN & SON'S.
—The most satisfactory remedy for the encephalo was tried at the New York experiment station last year consisted of a mixture of half a pound each of hard soap and kerosene oil in three gallons of water. The dose should be frequently repeated.
FITS: All fits stopped free by Dr. Kline's Great Kidney and Bladder Remedy. No fits after first day's use. Marvellous cures. Treatise and \$2.00 trial bottle free to all cases. Send to Dr. Kline, 301 Arch St., Phila., Pa.
—Western freight agents have been for some time considering the question whether the tomato is a vegetable or a fruit. If a fruit, the freight charges will be about four times as heavy as they would be if it were a vegetable. They finally decided it to be a fruit. If they had looked into Webster's Dictionary, they could have seen this definition: "Tomato, a plant and its fruit."

—There will be preaching in the Baptist Church on next Sabbath morning and evening. All are invited.
—Cal. Christie, Esq., has gone on a visit to Renova, and his office will be closed for the next few days.
—Our country friends are cordially invited to call at our office whenever in town, and report any item of news coming under their observation.
—Two men named James Carson and James B. Rowe were killed by an explosion at the Isabella limestone quarry, in Lawrence county, on Monday last week.
—A water spout between Parker and Foxburg last Friday evening washed the R. R. bridge over Tom's run and interfered with travel and the carrying of mails.
—Dear reader, Day's Soap is just elegant for purifying and taking white all lines, laces, etc., without the slightest degree of injury. Try it on your skin, and try it on everything needing soap, at our risk.
—The survivors of the Tenth Regiment, Pennsylvania Reserve Corps, have arranged to hold a reunion in Franklin, on Friday, September 14th, the anniversary of the battle of South Mountain.
—Messrs. R. M. Sipes and James B. Mates were admitted to practice at the bar of the several courts of this county last Monday. Mr. Alf. Bowser has also applied for admission but has not yet been examined.
—The Minister of Spain to the United States, Don Juan de Salazar, has been in New York last Saturday night. Fashionable life at Washington had financially stricken him and his troubles were more than he could stand up to.
—A sudden rise in the Allegheny river last Sunday morning flooded Her's Island, and the banks of the river down to the point, and carried off about \$200,000 worth of lumber. An unknown man was drowned at the first pier on the Pittsburgh side of the Suspension bridge.
—The post office at Gomersal, this county, Cherry township, was opened for business on Monday last week. Mrs. M. E. Wolford is the postmistress. John Gillespie was appointed for Flick, the new office on the line of Clinton and Middlesex townships.
—A medical journal says that sneezing can be stopped by plugging the nostrils with cotton batting. Is a man expected to take a roll of cotton-batting to church with him? An easier way than this is to press the finger upon the upper lip. That will stop sneezing immediately.
—Two new wells were completed in the Bald Ridge district last Saturday—one on the Smith and one on the Reiber, Hoffman and Piersol farm. Both have water in them which has not yet been exhausted, and therefore their production is not yet known.
—The two years at the Normal School, Edinboro, I regard of more value than four years at college. Allen Maxwell, Jackson, Mich. Now ready, a special circular, showing why one year at school in Edinboro is better than two years elsewhere. Address J. A. Cooper, Edinboro, Pa.
—We have received from the publishers—Clarke Bros., of New York—a copy of their new magazine entitled "The People's Monthly." This magazine is edited by the famous doctor, and author whose name it bears, and will be devoted to sanitary and Social Science. It can be had at Heinemann's.
—A man named Shrum, a section man on the Branch R. R., met with a serious accident near Savers Station last Friday evening. He and another man were riding down grade on a hand car, when he by some means, thrown backward off the car. He fell heavily upon his back and injured his spine. It was thought, at first, that his injuries would prove fatal, but we hear that he is recovering.
—The first female physician who has ever practiced in this county registered at the Prothonotary's office a few days ago, and produced a diploma from the Starting Medical College of Columbus, O., endorsed by the State's Medical College of this State. She claims to be a native of Sheboygan, Wis., and with her husband has located at Bald Ridge.
—In the stated case in ejectment, of C. S. Passavant and others versus the School District of the borough of Zelazko, Judge Bredin filed an opinion on Monday, giving judgment for the School District. The appeal of the overseers of Muddybrook township from an order removing Adam Beighley, a pauper, to said poor district from Connoquessing was dismissed at costs of appellant, and Adam remains a charge on Muddybrook.
—For a home-made disinfectant dissolve a bushel of salt in a barrel of water, and with the salt wash a barrel of lime, which should be wet enough to form a kind of paste. For a home-made disinfectant this chloride of lime is nearly as good as that purchased at the shops. Use it freely about the sinks, cellars, gutters and out-houses, and in this way prevent sickness, suffering and expense.
—The match tax, now abolished, small as it was, was apparently, being only one cent on a box, constituted nearly two-thirds of the price of matches which were sold. The tax amounted to \$1.44 a gross, while the matches were sold for \$2. This instance of nearly all tax and but little property has had no match in our Internal-Revenue system since whisky fourteen cents a gallon paid a tax of \$2. Matches now sold at eighty-five cents a gross, showing that the manufacturers have not thrown off all the tax which they do not pay.
—It is always the unexpected that happens. An excursion under the auspices of the Mount Royal Benedictine Society of the Catholic church of Corpus Christi sailed on Monday last week, from Baltimore to North Point Tivoli, a distance of ten miles. In the evening when the picnic party was about to return, the wharf which the crowd stood waiting for the boat suddenly gave way and many persons were thrown into the water. The work of rescuing the drowning persons was greatly impeded by darkness, and many persons were knocked insensible in the water by chairs and other objects thrown to them. A coroner's inquest was held and several of the witnesses testified that the beams in the pier were rotten. Seventy-five people were drowned.
—Quite a number of our citizens "look in" the dedication of the new Orphan's Home near Hannanstown last Sunday, and report having had a pleasant time. Some years ago Mr. Christian G. Oertel left a farm near the town to the Missouri Synod of the German Lutheran Church, and on this the synod built a large three story frame building suitable for an orphan's home. Last Sunday was dedication day, and about 3000 people came up in three special trains from the cities, to take part in the services. A regular programme, which included three sermons, was gone through with and there was a good singing by the three city choruses. Will Heintzman tripped and fell, and was struck on the head by one of the wheels and knocked insensible. Our horse companies deserve great credit for their extraordinary expedition in getting to the scene of a fire.

—Captain Webb has "gone to meet" Sam Patch. His body was found on Saturday.
—Several of the great shoe factories of the country suspended business last Monday, with liabilities amounting to over three millions.
—Mr. Eitemiller's new house at the north end of Main street, is almost completed, and Mr. Philip Schenck's new house on Jefferson street is under roof.
—Now that the American Rapid Telegraph Company, which is one of the large companies of the country, has compromised with the striking operators, the latter bid to win all around.
—Dispatches from Naples dated on Monday, put the number of persons who perished by the earthquake on the island of Ischia, last Saturday night, at 4,000. Three towns, one of which contained 5,000 inhabitants were destroyed. The island was a summer resort for the wealthy people of Rome and Naples, and there were at the time some 2,000 visitors on it many of whom perished. The ground opened in many places and hundreds of houses containing people were engulfed. Two thousand soldiers digging in the ruins saved 1,000 lives up to midday Sunday and exhausted 24 persons alive on Monday. This is the horror of the many horrors of the year.
—Two Allegheny City saloon keepers, named Hummel engaged in an enterprise in this county last Sunday, that came to grief. Knowing that there would be an immense crowd at the dedication of the Orphan's Home, near Hannanstown, on that day, they had a shanty built in the woods, about half a mile from the city last Saturday night. Fashionable life at Washington had financially stricken him and his troubles were more than he could stand up to.
—A sudden rise in the Allegheny river last Sunday morning flooded Her's Island, and the banks of the river down to the point, and carried off about \$200,000 worth of lumber. An unknown man was drowned at the first pier on the Pittsburgh side of the Suspension bridge.

75 LIVES LOST.
BALTIMORE, July 24.—A steamer has just arrived here with 31 more bodies from the Tivoli disaster. This makes about 75 bodies in all. It is thought the deaths will amount to 100. The greatest excitement prevails here. Up to noon 65 bodies have been brought to the city. All, except four, have been identified.
As soon as the bodies had been deposited on the wharf the barge went back to Tivoli, and before 7 o'clock this morning had returned to Henderson's wharf with her second load of dead bodies, number over 30. By this time the news of the calamity had spread throughout the city and thousands gathered at the wharf and in the vicinity. Throughout the night many persons, fathers, mothers, brothers and friends connected with the excursionists had gathered at the Light street wharf, where the barge usually lands, anxiously awaiting her arrival and apprehending a disaster when the boat did not come on her usual time. As the hours wore on past midnight, and there were yet no tidings of their friends, their fears were increased to almost a conviction that a dreadful accident had befallen the party. At a latter hour their fears were realized when the facts became known. As fast as the bodies were identified by relations and friends they were taken to their respective homes.
The unidentified bodies were carried to the Eastern Police Station, to remain until recognized or otherwise disposed of. The coroner will commence an official investigation this evening. Statements in regard to the immediate cause of the accident are conflicting. It is stated by some that the barge was already lying alongside the wharf, and a gang plank being run out, when it gave way and that it fell from the sheer edge of the crowd upon it. Others were of the opinion that the wharf was carried away by contact with the barge.

Lost His Life.
BUFFALO, July 24.—The fool-hardy attempt of Capt. Webb, of England, to swim through the rapids near the old Suspension Bridge this afternoon, resulted as nearly everybody predicted, in the noted swimmer's death. John McClay rowed Webb into the middle of the river near the new bridge and at a few minutes past four o'clock he jumped out and began his swim down the stream. There were few people in attendance and little interest was taken in the affair. Webb had calculated to keep near the Canadian shore as he passed the rapids, but the bend in the river here threw him to the opposite side, upset his calculations and sent him to eternity beneath a forty-foot wave that the next instant dashed against the rocks on the right shore. The last seen of Webb he was throwing up both arms and signaling vainly for aid. He leaves a wife and two children in rather destitute circumstances in England. Frederick Kyle, Webb's manager, has caused a diligent search to be made for the body, but without success.
BUFFALO, N. Y., July 29.—All speculation as to the fate of Captain Matthew Webb, the courageous swimmer who tried to pass through the Niagara whirlpool, is now at rest, the body of the unfortunate man having been found at noon yesterday in the Niagara river, a mile and a half below Lewiston. The body was fully identified. The corpse was much swollen, and was rigid in the position of a man swimming, both arms and legs being extended. There were no fractures or dislocations of the limbs, but on the top of the head was a contusion which was the evident cause of death. The bodies of two Indians who were drowned while bathing near the Devil's Hole on Monday night were also found in the river near where Webb's body was recovered.
The Great Northwest.
The great increase of travel to the Northwest, has forced the "Famous Albert Lea Route" to put upon its line magnificent Dining Cars, in which passengers will be served meals second in quality to no first-class hotel, for the small sum of seventy-five cents each.
The Chicago, Rock Island & Pacific Railway, which controls this route, has always maintained a reputation for giving travelers first-class meals on its Dining Cars, and in putting on this line the same class of cars, it fills a need that the traveling public will appreciate.
The Albert Lea Route is carrying a very large share of the Northwest travel, and although early in the season, has commenced to sell tourists' tickets to the various pleasure resorts in a volume sufficiently large to guarantee an immense summer traffic.

is beyond power of computation. Our facilities for the production of it are taxed to the utmost to supply the orders that pour in upon us from this great wide and progressive country. Right here in your section it is being used extensively and many can testify to its wonderful properties

The wrappers are waxed and can be used for smoothing the surface of your hand-irons, giving them a polish and smoothness, that will greatly assist in giving your clothes a finished look.

Remember this Soap is cheaper than any other in the market, and yet does all we claim for it.

Save your health. Save your time. Save your patience. By using this Soap. No unpleasant odor. No sickness as the result of a hard day's wash. No hot water. No wash boiler but clothes nice and white and as fragrant as new mown hay.

TRY IT.

Wash-day has no terrors for the household where DAY'S SOAP is used, no unpleasant and sickening odors to fill your houses, no laborious rubbing on the wash-board, while the washing can be done in one-half the time necessary by following the old worn-out method.

MADAM—for it is to the ladies we desire to speak more especially—you are the interested person in this matter; you it is that suffers the ills arising from the wash tub and its heavy cares; you it is to whom the perplexities and responsibilities of the household rightfully belong, and you it is that should interest yourself in a trial of the qualities of this soap, that has always proven itself to be a boon of salvation

TO SUFFERING HUMANITY.

We do not come to you with a plausible story calculated to have you try it, simply for the amount of money such a sale would bring us; we do not come to you as irresponsible parties, who have no reputation to suffer calamity, but we do present to you this brand of soap upon an absolute guarantee and recommendation of a well-known industrial establishment of Philadelphia, of sixteen years' existence. Do you suppose for a moment it would compensate us to make false statements to you and ruin our well-earned reputation? No, dear reader; what we say about DAY'S SOAP is the truth, and it is sustained by the evidences of thousands of housewives from all over the country; besides which we stand ready to endorse it all with ready cash. DAY'S SOAP is the Original and Only Patented.

DAY'S SOAP

Will clean the Miners' Skin and Clothes. Will clean the Blacksmith's Skin and Clothes. Will clean the Machinist's Skin and Clothes. Will clean Everybody's Skin and Clothes.

Is there not economy in the use of Soap that will clean the skin as well as the clothes? This Day's Soap will surely do it. It will in no way injure the finest fabrics or the most delicate complexions.

No soda, no washing crystals, no lyes are to be used, but simply supply yourself for the next wash-day with a bar of DAY'S SOAP, then carefully read the directions and follow them to the exact letter, and if you don't say pitch out that old wash-boiler, for I am a wiser woman, you will be the first person we have yet heard of that has been disappointed and do not try the soap at all, for unless you do this you will be disappointed, and then you will be sold us and yourself as well.

The cost of one cake will convince you that it is the best and cheapest soap ever offered you, while the smiles that will encircle your brow will do justice to a golden sunset.

Have you confidence in this newspaper? He uses it in his own home, and can certify to its merits. Now you get a cake from your grocer in time for the next wash-day, and become acquainted with its intrinsic worth.

Ask your grocer for it, and do not allow him to put you off with anything else for a substitute, for every dealer can obtain it, and should he refuse you, send direct to
