THE HARVEST OF DEATH. FOUR THOUSAND PEOPLE PERISH BY AN EARTHQUAKE.

Terrible Calamity at an Italian Resort.

NAPLES, July 30.—Professor Palmieri, Director of the Meteorological Observatory on Mount Vesuvius, states that the disaster on Saturday night, was not due to an earthquake, but to a subsidence of the ground.

The panic spread through the whole island. Steamers were sent from Naples with physicians, nurses and medical supplies. A detachment of military also was ordered to the spot and did admirable service.

The population fled in terror to the surrounding country and along the sea coast. The bodies of the victims were recovered from the ruins. Ten houses remain standing at Casamicciola.

Many women and children were among the victims. Fifty wooden huts were built immediately for the accommodation of the survivors.

All the members of the police force at Casamicciola were killed. A boat had arrived at Naples containing the bodies of twenty-four infants.

Survivors say thirty-seven persons were entombed in a room in Hotel Piccolo Santarella. Count Sergardi, after three hours' exhausting labor, rescued eleven persons, but failed to accomplish the principal object of his efforts.

It is stated that four thousand persons perished on the Island of Ischia on Saturday night. The stench from the dead bodies of human beings and animals is almost unbearable.

BIBBLE FACTS.

The learned Prince of Granada, heir to the Spanish throne, was imprisoned in the Palace of Skulls, Madrid. After 33 years in this living tomb he wrote in his bible the following: In the bible the word Lord is found 1,853 times.

The word "revere" but once, and that in the 9th verse of the CXVth Psalm. The 8th verse of the CXVth Psalm is the middle verse of the bible. The 9th verse of the VIIth chapter of Esther is the longest verse; 35th verse, XIth chapter of St. John is the shortest.

In the CVIth Psalm four verses are alike, the 8th, 15th, 21st and 31st. Each verse of the CXXXVIIth Psalm ends alike. No names or words with more than six syllables are found in the bible.

The XXXVIIth chapter of Isaiah and XIXth chapter of 2d Kings are alike. The word "girl" occurs but once in the bible, and that in the 3d verse and IIIth chapter of Joel. There are found in both books of the bible 3,586,483 letters, 773,693 words, 31,373 verses, 1,189 chapters and 66 books.

The XXVIIth chapter of the Acts of the Apostles is the finest chapter to read. The most beautiful chapter in the bible is the XXIIIth Psalm. The four most inspiring promises are John XIVth chapter and 2d verse, John Vth chapter and 37th verse, St. Matthew XIth chapter and 38th verse, and XXXVIIth Psalm, 4th verse.

The 1st verse of LXth chapter of Isaiah is a good turner, and another son was trained in a book-binding; and the present Emperor William keeps samples of their work in his cabinet, and shows them proudly.

Learn a Trade. Do you know that the Jews used to make parents teach every boy some trade, and begin when he was only five years old? They said, "He who does not teach his son a trade is much the same as if he taught him to be a thief."

The Crown Prince of Germany is a good turner, and another son was trained in a book-binding; and the present Emperor William keeps samples of their work in his cabinet, and shows them proudly.

A friend of ours, whose wife is out of town, says he thinks he can now appreciate what it is to be an orphan. —The general sentiment over the alleged murder of the infant Carey seems to be of the "Don't-Carey" order.

"I had Salt Rheum for 19 years. Four packages of Dr. Benson's Skin Cure entirely cured me."—F. P. Lavelle, Merced, Cal. \$1. at drugists.

—Mr. George P. James, Newville, Pa., says: "Brown's Iron Bitters completely regulated my bowels and is a good appetizer."

—The Irishmen of Pittsburgh make no attempt to conceal their gratification over O'Donnell's assassination of Carey, the informer.

For one dime get a package of Diamond Dyes at the drugists'. They color anything the simplest and most desirable colors.

—There seems to be an affinity between a drunken man and a railroad track" observes an exchange. Something like the undying affection between a servant-girl and a coal-oil can.

—A large soul is a piece of personal property which every industrious man can acquire; but some men have souls so small that a whole regiment of them could stand "on the tip end of a pine stick whitened down to nothing."

DELEVAN, Wis., Sept. 24, 1878. GENTS—I have taken not quite one bottle of the Hop Bitters. I was a feeble old man of 73 when I got it. To-day I am as active and feel as well as I ever did. I use a great many that need such a medicine.

D. BOYCE. —If the proposed tunnel should be made for the relief of about 180 mines in Gilpin county, Colorado, it would be one of the largest works of the kind in the world. These mines produce about two million dollars a year, chiefly gold, of which the total output since its discovery in 1859 has been over thirty-seven millions, besides three and a half millions in silver.

I Know Whereof I Speak. For I have used it extensively. I regard Parker's Ginger Tonic a most excellent for kidney, lung and stomach disorders. It invigorates and restores the system. J. Frazer, Religio Philas. Journal, Chicago.

—Within a short time of each other the two most famous kings in Africa have come to their death—King Cetewayo of Zuzaland, in the southern part of the African continent, and King Mtesa, "the Lord of the Lakes, the Kabaka of Uganda, the foremost man of Equatorial Africa." The first was in his late years to civilize himself. It is doubtful if King Cetewayo's death will bring peace to Zuzaland, and it is believed that King Mtesa's death will bring civil war to Uganda.

How a Woman's Life was Saved. After she had tested the skill of all best doctors in Western Pennsylvania, and New York, and had paid over \$1,000 without receiving any permanent good, the limbs became affected with even tenfold greater violence, not only eating away the flesh, but attacking the bones beneath. It also affected her head and face, making her almost blind and deaf, reduced to a mere skeleton, weighing but 80 pounds, the doctors pronounced her at death's door. Peruna was then given her, as stated, and with the result given on page 24 in Dr. Hartman's "Hills of Life." She took no other medicine and is perfectly well.

BURIAL OF THE DEAD.

Burials of the victims of the earthquake continued throughout the day. Two hundred and eighty bodies were buried at Casamicciola, ninety at Lacco and twenty-nine at Forio.

It was first supposed the disaster was connected with the partial eruption of Vesuvius, which occurred two days before. But Professor Palmieri stated that seismographic instruments gave no indications, whence he was inclined to think that the catastrophe was due to some local phenomenon, possibly to a sudden sinking of the ground through subterranean erosion, caused by continued working of mineral waters.

Shortly before the first shock of the earthquake mineral springs were observed to be in a state of ebullition. Another earthquake occurred at Casamicciola in February, 1828. As the morning broke Vesuvius sent forth smoke, flame and stones, but the springs in the Campagna gave no indications, as they usually do, before an eruption.

Their temperature remained unchanged, although seven hours previously slight quakings occurred at several places in the Kingdom of Naples. Suddenly, at fifteen minutes after 10 A. M., three loud explosions were heard on the coasts of Casamicciola as if they came from beneath upward, or from the interior of the Epomeo volcano outward. In three seconds a fatal undulatory shock came, laying a part of the town in ruins and killing a number of people.

OTHER FAMOUS EARTHQUAKES. Casamicciola is in one of the two great earthquake zones, the other district being the western portion of South America. In no century since the earliest recorded history has Southern Italy and Sicily escaped suffering from frequent and severe earthquakes. In Sicily, in 1693, 60,000 people perished in one earthquake. During the reign of Tiberius, 16 A. D., 120,000 people lost their lives in one day in consequence of an earthquake.

The earthquake attended with the most serious results in the destruction of human life was that of 536, when 250,000 human beings perished, according to Gibbon's figures. An-ich, which had previously been destroyed at least twice, and several other Syrian cities, were completely destroyed, and the shock extended to Italy, where great damage to life and property resulted. In 63 Heracleum and Pompeii were destroyed by an earthquake, this being sixteen years before the eruption of Vesuvius. The city of Judea was destroyed in 31 B. C., when 10,000 people lost their lives.

THE MOST FAMOUS. The most famous earthquake of history was that at Lisbon, Nov. 1, 1755, when 40,000 people were buried alive and 30,000 more were killed. Calabria, Messina, and a number of smaller vil- lages were destroyed February 7, 1783, and some 100,000 lives were lost. In 1825 Murcia, Spain, was destroyed, 1,855 houses being thrown down and a couple of thousand people being killed. Lima and its harbor, Callao, in Peru, were destroyed in 1586, and again in 1746, and thousands perished. Arequipa, Peru, was wiped out of existence in 1826, 50,000 people being left homeless, and several thousands losing their lives. In the same year the cities of Ibarra and Otavalla were destroyed, and not one of their 10,000 inhabitants escaped, or could ever be found afterward. Cataochy was also obliterated from the face of the earth, and a lake now covers the spot where it stood. It is that country the United States war vessel Waterer was carried from the harbor of Callao two miles inland. The famous earthquake which devastated and depopulated Callao in 1782, continued at intervals for four years. It took but three minutes for an earthquake to make the entire city of Port Royal, Jamaica, a complete wreck in 1692, and even less time for the destruction of San Salvador, in the West Indies, March 19, 1873. The city of Mendoza, in the Argentine Republic, was destroyed and 12,000 people killed by a shock of but a moment's duration in March, 1861.

DETAILS OF THE EARTHQUAKE. NAPLES, July 31.—The search of the ruins for the bodies of the victims of the earthquake at Ischia was continued during the night. All the bodies recovered were buried immediately, to prevent miasma.

An eye witness describes the scene at the theater at Casamicciola when the earthquake occurred as an awful one. The curtain had just risen when a tremendous shock was felt. A fearful roar followed, and the ground rocked like a sea in a storm. A great cry of terror arose among the audience who were thrown into a leap and a large number were buried beneath the timbers of the building, which fell upon them. Two more shocks occurred. All who could not reach outside the theater, and hundreds clambered into the trees in the vicinity for safety. Most of the people, however, escaped to the shore, where bonfires were lighted as signals of distress. Hundreds of half-naked men and women, wild with terror and grief, ran to and fro among the ruins, with torches, outside the theater, searching for missing friends.

Among the persons who were on the Island of Ischia Saturday night and are missing since the earthquake occurred was a Mr. Sommer, an English or American gentleman. He resided at the Hotel Manzi.

The only American known to have been injured by the earthquake on the Island of Ischia Saturday night was a Miss Van Allen, and she only slightly hurt. King Humbert, who had been so-

lenned, has gone to Casamicciola.
