-A sensation was created at Erie on Monday of last week, by the descent of an armed de tachment of State militia from the encampmen of the Second Brigade at Conneaut Lake. Thi and similar armed parties had been dispatched simultaneously by General Beaver, with instructions to swoop down upon all soldiers who had failed to report for service and bring them under guard to camp for trial by court martial. Immediately upon arriving in Erie the detach ment proceeded in search of absentees. Sentinels were placed at the doors of busines houses where absentees were clerking, and the sergeant went in and arrested the luckless ones. The armory of the Erie Guards had been converted into a guardhouse and the prisoner as fast as captured were placed in confinement There are thirty-four absentees in Erie.

-We desire in this issue to call the attention of our readers to the dates of the Fair for the resent year, in our advertising columns. The present year, in our advertising columns. The officers of the Agricultural Society here are present year, in our advertising columns. Incofficers of the Agricultural Society here are using every means in their power to make the coming Fair the best that has ever been held in our county. The grounds have been put in splendid condition, and everything done to add to the very many conveniences for the accommodation of the exhibitors. There is unusual interest manifested in the desire to have good stock of all kinds by our farmers, which is doubtless the result of the successful management of our Fairs. The only way this interest can be kept up, is by a comparison of your stock, and this can only be accomplished by exhibiting it at the Fairs. Let your interest in the Fair be measured by your desire to make your farming successful. Comparing the products of your farm adds to your own success as well as to the exhibition. Farmers must not forget that without their exhibits the Fair will be a failure. We hope that every township in the county will be well represented at the coming Fair, both in attendance and exhibits. Remember that our Fair is the only one in the State where premiums are paid on the scateged where the first in the fair.

HOW WATCHES ARE MADE.

In a SOLID GOLD WATCH, aside from the necessary thickness for engraving and polishing, a large proportion of metal is needed only to stiffen and hold the engraved portlons in place, and supply strength. The surplus gold is actually needless. In James Boss' Patent Gold Watch Cases this WASTE is saved, and SOLIDITY and STRENGTH increased by a simple process, at one-half the cost. A plate of SOLID GOLD is soldered on each side of a plate of hard nickel composition metal, and the three are then passed between polished steel rollers. From this the cases, backs, centers, bezels, etc., are cut and shaped by dies and formers. The gold is thick enough to admit of all kinds of chasing, engraving and engine turning. Thes cases have been worn perfectly smooth by use without removing the gold. This is the only case made under this process. Each case is accompanied with a valid guarantee signed by the manufacturers warranting it to wear 20 years. 150,000 of these Cases now carried in the United States and

Is there not economy in the use of Soap that will clean the skin as well as the clothes? this Day's Soap will surely do. It will in no way injure the finest fabrics or the most delicate complexions. No soda, no washing crystals, no lyes are to be used, but simply supply yourself for the next wash-day with a bar of DAY'S SOAP, then carefully read the directions and follow them to the exact letter, and if you don't say pitch out that old wash-boiler, for I am a wiser woman, you will be the first say that the first say the first say will be the first person we have yet heard of that has been disappointed. Now remember—If you don't intend to follow the directions do not try the soap at all, for unless you do this you will be disappointed, and then you will scold us and yourself as well.

The cost of one cake will convince you that it is the best and cheapest soap ever offered you, while the smiles that will encircle your brow will do justice to a golden sunset.

Have you confidence in this newspaper? If so, do you suppose the owner would allow us to swindle his readers by offering them tempting inducements? He uses it in his own home, and can certify to its merits. Now you get a cake from your grocer in time for the next wash-day, and become acquainted with its intrinsic worth.

i Gentlemen:—Having used DAY'S SOAP for some months past as a disinfectant in small-pox, with the best results, not having a second case in any house where it was used, I will cheerfully endorse and recommend its use as a disinfectant in small-pox.

CONSTANTINE HERING, M. D.,

114 NORTH TWEITH STREEL.

Messrs. Day & Frick.

Dear Sirs:—I have used Day's Soap with results that delighted not only myself, but some of my neighbors who called to see it. I suffer much from catarrh, which is aggravated by the heat and steam of boiling clothes. Now, however, by using Day's Soap, I escape the evil effects of the steam from boiling soda. Wash-day I have no discomfort, and far less work, without any hard rubbing. One cake of your Soap does the washing for eight in my fimily for two weeks washes, and the clothes are whiter, sweeter and better than by any other process. I have abolished the wash boiler, and shall use it no more. I find your Soap to be, by far, the cheapest and best, and would feel it a hardship to be obliged to use any other.

Yours respectfully,

MRS. MARY C. ST. CLAIR.

Messrs. DAY & FRICK.

Gentlemen:—Having for several months used in our family "DAY'S CELEBRATED SOAP," and having, as we believed, tested it thoroughly, we do not hesitate to pronounce it superior to any Soap we have ever used. We therefore most heartly recommend it to all who would save labor and time in performing the arduous duties of the household. We find this Soap especially adapted for all domestic purposes, and fully entitled to the high claim made for it. No family can afford to be without it, and a fair trial, according to the directions, will confirm our opinion.

Very truly yours.

CHAS. H. THOMAS, Pastor of Frankford Avenue Baptist Church, Phila.

Wash-day has no terrors for the household where DAY'S SOAP is used, no unpleasant

and sickening odors to fill your houses, no laborious rubbing on the wash-board, while the

MADAM—for it is to the ladies we desire to speak more especially—you are the interested person in this matter; you it is that suffers the ills arising from the wash tub and its heavy cares; you it is to whom the perplexities and responsibilities of the household rightfully belong, and you it is that should

interest yourself in a trial of the qualities of this soap, that has always proven itself to be a boon of salvation

of money such a sale would bring us; we do not come to you as irresponsible parties, who have no reputa-tion to suffer calumny, but we do present to you this brand of soap upon an absolute guarantee and

recommendation of a well-known industrial establishment of Philadelphia, of sixteen years' existence.

Do you suppose for a moment it would compensate us to make false statements to you and ruin our

well-earned reputation? No, dear reader; what we say about DAY'S SOAP is the truth, and it is sus-

tained by the evidences of thousands of housewives from all over the country; besides which we stand ready to endorse it all with ready cash. DAY'S SOAP is the Original and Only Patented.

We do not come to you with a plausible story calculated to have you try it, simply for the amount

washing can be done in one-half the time necessary by following the old worn-out method.
