Opinion of Dr. Mott, Late Government Chemist, on Allcock's Porous Plaster.
My investigation of ALLOCOCK'S POROUS PLASTER shows it to contain valuable and essential ingredients not found in any other plaster. These ingredients are so perfectly proportioned that the Allocock's Porous Plaster will not cause blisters or excessive irritation, and I find it superior to and more efficient than any other plaster.

—A punny fellow pasted on the door of the Warren Second National bank the other morning: "It occurs that when there is a defaulting cashier there is no cash here."

—Every retail grocer is authorized to recommend and guarantee Day's Soap as doing all that we claim for it. A handsome set or extensive French chromo among the buyers of it is an inducement to have them try it.
—See the advertisement of Dr. Chase's New Recipe Book in this paper. It is the book for the million, for it contains information on every subject. Its recipes are reliable. No family can afford to be without it, as it can be had for the low price of two dollars.
—Lawyers and others will be interested to know that the Postmaster General has decided that all written or printed matter produced by type-writing machines, or any manifold process, belongs to the first-class and must pay letter postage.
—You may say what you please, but there is luck in horshoes. A man nailed one up on the fence not long since, and a week afterward his wife, who used to quarrel with the furniture no him, eloped with a friend to whom he was owing \$40.
—A Mercer county woman threw a small quantity of rough-on-rats into the kitchen stove and came near paying the penalty with her life. The fumes so completely filled the house that for some considerable time it was deemed unsafe to stay indoors.
—Do not despise the American hen. She is industrious. She lays every year 9,000,000,000 eggs. She earns the right to cackle. Some of her best friends are the hen's best friends. She does the best she can. Out of the 9,000,000,000 eggs that men do, more or less than these are bad. A hen's egg is good when fresh. Men's deeds are not apt to be so.
—Fallen apples should be gathered up and fed to the pig, hogs or cows, for which they are good in moderation. All these apples contain larvae of the codling moth, which, soon after they fall to the ground with the apple, lay their eggs in a short time into mud and these lay eggs on the remaining sound apples, which become infested with the worm.
—We direct attention to Mr. B. C. Huselton's advertisement in his Fall and Winter stock of Boots and Shoes. He has one of the handsomest and best stocked shoe stores in the State. Everything that a first-class boot and shoe store should contain will be found among his stock, most of which is manufactured in his order.
—A son of Mr. George Noullet, of this place, named George and aged about 12 years, fell from a wild-cherry tree on the Mantz lot, west side of town, on Sunday last and had one of his legs very badly broken. Dr. Pilow was called in and dressed the wounds, which are severe as some of the bones protruded through the flesh and skin of the leg.
—We would request all our people who take an interest in good music to the attend instrumental and vocal concert to be given under the auspices of Presbyterian church choir at the Court House on Friday evening, August 31, as it promises to be the finest local concert given; will be assisted by visiting friends. See programmes for particulars. Admission 50 cents, children 25 cents.
—The S. & A. R. R. is ran on Columbus, O., time, which is 12 minutes slower than our local time and 31 minutes slower than Philadelphia time, consequently the train on this road will arrive here at 2:27 P. M. local time, and go out at 3:12 P. M. local time. The run from Butler to Harrisville station will occupy one hour and twenty-eight minutes; to Mercer, two hours and fifteen minutes; to Greenville, three hours and ten minutes.
—A machine for hooping barrels has been invented. The barrel making for petroleum alone is enough to cause a revolution in the cooperage business and to invite the invention statement once a month, under a penalty of \$300 for each refusal. The demand can be made every day, or offered until accepted to, and a false statement is, of course, perjury. The purpose is to enable beer drinkers to choose that "brand" which, according to the statement, will prolong life to the greatest extent, or otherwise, as may be desired.

—It is a mistake to presume too much on the curiosity that is popularly supposed to possess a woman. This fact was happily and pointedly developed a few days ago by the Postoffice Department of our beloved land. In accordance with a requirement of the absurd law now existing, they sent a notice to a woman in Ohio, informing her that a letter addressed to her was held on account of insufficient postage. She didn't send the required stamp, however. Instead of that, she sent a note, and this is what it said: "When pumps and rips will send you one that has more brains than ever had the man who made this ruling on postage."
—Two butchers named Young and Humes, doing business at Grove City, Mercer county, were arrested lately for false pretense. They gained the confidence of the Mercer diocese and were doing a big business, and within the last month had purchased over three thousand dollars worth of cattle, for which they gave their checks on a bank in Grove City. Upon presenting the checks it was learned that Young and Humes had no cash in the bank, and that they themselves had skipped. They were followed to Franklin, arrested and taken to Mercer for a hearing. Twelve head of cattle, which they were pasturing in Cranberry township, Venango county, were attached and taken to Grove City.
—It is now but a short time until the Annual Agricultural exhibition will be held on the grounds of the company at Butler, their dates being Sept. 18, 19, and 20. It ought to be the aim of every citizen to make this exhibition a success. This they can do by a very slight effort, viz: by selecting some article in their possession to place on exhibition. Persons who complain of the lack of exhibits are not apt to reflect on the management for the scanty show offered. Now it is the farmers themselves that these societies look for exhibits, and every farmer in the county ought to feel that he has a special interest in the fair, and manifest it by adding something to the exhibits all he can do if they only determine it. Railroads now reach our county seat from all quarters; people can come more easily and more comfortably than ever, and certainly will avail themselves of the opportunity. The growing of friends and acquaintances is also a pleasure on the large and commodious grounds of the Fair Company at Butler will be worth double its cost. Don't fail to be there.
—The old McQuiston homestead which overlooks Butler from the south is for sale. But eighteen acres is held with the buildings, but some sixty more acres adjoining are also for sale. The house is an eight room brick, the barn is a large barn-lark in excellent repair, and manifestly in need of some other place.
Do Not Fail to examine the large stock of Fall and Winter Styles of Carpets, at Ritter & Ralston's, all marked in plain figures, at lower prices than ever. The double weight ingrain at 45 cents are going off lively.
Fall and Winter Dress Goods, Trimmings, Millinery, &c., at RITTER & RALSTON'S.
Accident on the West Penn.
A wreck occurred on the Butler branch of the West Penn road, near Monroe Station, on Tuesday morning, last week. As the market train was coming down at a rapid pace and the engine had just started, the engine and car, scattering milk cans, marketing of all kinds, killing some calves that were in the car, and tearing up the track for some distance. A man had his leg slightly hurt, but no one was seriously injured. The engine had two coaches, being in front of the wreck, were cut loose and came in front of the wreck. The train wreck car was on the ground with a full load of milk cans, and the road was cleared that evening.

Cresson Mountain House Open till October 1st.
The growing disposition to visit the mountains in September is evidenced by the many inquiries as to the date of closing of the Mountain House at Cresson, on the Pennsylvania Railroad. To accommodate those desiring to spend a portion of September in the most beautiful month of the year in the Alleghenies, the Mountain House will remain open until the first of October, and after September 10th the hotel will make a reduction in rates.

DEATHS.
BARTLEY.—On Aug. 23, 1883, at Brownsville, Penn. this county, James T. Bartley, in the 28th year of his age.
Death has again entered our happy circle and has claimed as its own one that was beloved by all. The departed one was a native of our county. Taken away in the vigor of life may it be a warning to us, saying: "Ye also may die." The darkest night has its dawn, and although this providence looks dark there is a bright spot somewhere (although invisible to us.) The darkest night has its dawn, and although this providence looks dark there is a bright spot somewhere (although invisible to us.)

THE NUMBER OF HOMES MADE HAPPY
by the use of the Celebrated Labor and Health-Saving
Day's Soap DAY'S SOAP Day's Soap
It is beyond power of computation. Our facilities for the production of it are taxed to the utmost to supply the orders that pour in upon us from this great wide and progressive country. Right here in your section it is being used extensively and many cases testify to its worth.
THESE ARE SUBSTANTIAL TRUTHS.
PHILADELPHIA, PA.
Messrs. DAY & FRICK. Having used Day's Soap for some months past as a disinfectant in small-pox, with the best results, not having a second case in any house where it was used, I will cheerfully endorse and recommend it to all who are afflicted with this pest.
CONSTANTINE HERING, M. D., 114 North Tenth Street, Philadelphia, Pa.
Messrs. DAY & FRICK. Having used Day's Soap with results that delighted not only myself, but some of my neighbors who called to see it. I suffer much from eczema, which is aggravated by the heat and steam of the steam from boiling soda. One cake of your Soap does the washing for eight in my family for two weeks' washes, and the clothes are whiter, sweeter and better than by any other process. I have obtained the wash boiler, and shall use it no more. I find your Soap to be, by far, the cheapest and best, and would feel its hardship to be obliged to use any other. Yours respectfully,
MRS. MARY C. ST. CLAIR, Philadelphia, May 10th, 1882.
Messrs. DAY & FRICK. Having for several months used in my family "Day's Soap," and having as we believed, tested it thoroughly, we do not hesitate to pronounce it superior to any soap we have ever used. We therefore most heartily recommend it to all who have any labor and time in performing the arduous duties of the household. We find this Soap especially adapted for all domestic purposes, and fully entitled to the high praise which it has so long and so justly earned. It is a fair trial, according to the directions, will confirm our opinion. Very truly yours,
THAS. H. THOMAS, Pastor of Frankford Avenue Baptist Church, Phila., Pa.
Wash-day has no terrors for the household where DAY'S SOAP is used, no unpleasant and sickening odors to fill your houses, no laborious rubbing on the wash-board, while the washing can be done in one-half the time necessary by following the old worn-out method.
MADAM—for it is to the ladies we desire to speak more especially—you are the interested person in this matter; you it is that suffers the ills arising from the wash tub and its heavy cares; you it is to whom the perplexities and responsibilities of the household rightfully belong, and you it is that interest yourself in a trial of the qualities of this soap, that has always proven itself to be a boon of salvation
TO SUFFERING HUMANITY.
We do not come to you with a plausible story calculated to have you try it, simply for the amount of money such a sale would bring us; we do not come to you as irresponsible parties, who have no reputation to suffer, alumnus, but we do present to you this brand of soap upon an absolute guarantee and recommendation of a well-known industrial establishment of Philadelphia, of sixteen years' existence. Do you suppose for a moment it would compensate us to make false statements to you and ruin our well-earned reputation? No, dear reader; what we say about DAY'S SOAP is the truth, and it is sustained by the evidences of thousands of housewives from all over the country, besides which we stand ready to endorse it all with ready cash. **DAY'S SOAP is the Original and Only Patented.**
It will clean the "Miserable" Skin and Clothes. It will clean the "Blackheads" Skin and Clothes. It will clean Every Body's Skin and Clothes.
Is there not economy in the use of Soap that will clean the skin as well as the clothes? This Day's Soap will surely do it. It will in no way injure the finest fabrics or the most delicate complexion.
No soda, no washing crystals, no lyes are to be used, but simply yourself for the next wash-day with a bar of DAY'S SOAP, then carefully read the directions and follow them to the exact letter, and if you don't say pitch out that old wash-boiler, for I am a wiser woman, you will be the first person we have yet heard of that has been disappointed.
Now remember—if you don't intend to follow the directions do not try the soap at all, for unless you do this you will be disappointed, and then you will scold us and yourself as well.
The cost of one cake will convince you that it is the best and cheapest soap ever offered you, while the smiles that will encircle your brow will do justice to a golden sunset.
Have you confidence in this newspaper? If so, do you suppose the owner would allow us to swindle his readers by offering them tempting inducements? He uses it in his own home, and can certify to its merits. Now you get a cake from your grocer in time for the next wash-day, and become acquainted with its intrinsic worth.
Ask your grocer for it, and do not allow him to put you off with anything else for a substitute, for every dealer can obtain it, and should he refuse you, send direct to
