A NOTABLE EVENT.

A dispatch from between Garrison and Gold Creek, on the Northern railroad to our Pacific coast, possession, citizens.'

The Governors of Wisconsin, Min-Pacific R. R., dated on the 8th inst., gave the following account of the completion of the road on that day:

was made to this point, where the ceremony of driving the last spike in first and the first last. the Northern Pacific Railroad has just been concluded. The contrast between the rugged heights of the east side and from this point to Helena is fifty-five miles. In making the descent of the Mullen Pass the British Minister's car became disabled and the occupants had to be transferred to another car. Nohind time, but in good shape. From Portland there came somewhat earlier a splendid train bearing prominent citizens of that section to participate in the ceremonies. There were hearty greetings between the American guests of the East and West, and the occasion as presaging a prosperous future. All were surprised at what they beheld. Instead of the wilderness of the Rocky Mountains there appeared before them a magnificent pavilion capable of seating more than one thousand people, over which floated the national colors of the American, German and British nations. In front and reaching to the road-bed was an extensive promenade skirted by a platform with comfortable seats. To the right was a band stand, and on it were seated the Fifth United States Infantry band, who were to entertain the spectators and who had

He said he was reminded by the speeches to which he had listened of the fact that he had something to do with the great Northern Pacific enterprise. When Governor Stephens, thirty years ago, organized his survey ing expedition he was a lieutenant, acting as quartermaster and commis sary on the Columbia, and he issued the supplies for the expedition. Was he not, then, entitled, he asked, to some of the credit which Mr. Billings had apportioned out to others? He men who after the war had sought the Territories as fields of enterprise. During the progress of the work, which was witnessed by the foreigners with amazement, the band played and the people cheered. When nearly completed a cannon salute was fired by the detachment of the Fifth infantry present. The last spike was finally driven home by H. C. Davis, assistant general passenger agent of the road, who drove the first spike on the opening of the road, who drove the first spike on the opening of the road, this spike being the same one first driven. The end was reached as the sun was setting behind the mountains. The enthusiasm of the audience, variously estimated at from three to five thousand, was indescribable. Great Injury to the Crops of the

Grain-Growing States.

From Philadelphia Press, Sept. 10.]

The importance of accurate information from points in the great corn belt of the West is shown by the sensitiveness of the stock and grain markets on Saturday and yesterday. Under the effect of dispatches announcing that a large area of territory had been covered with frost on Saturday night stocks de clined rapidly, losing nearly the whole advance of the week, and corn shot upward in price. Yesterday with more favorable reports the market advanced the wheat crop being almost certainly the old man intently regarded known, the fact whether corn will be a few moments and then asked:

In Southern Minnesota corn was advanced so far that it was

not hurt so badly as further south. MICHIGAN'S HEAVY LOSS.

DETROIT, Mich., Sept. 10 .- Reports from all over the State show that the frost of yesterday and Saturday has damaged the crops incalculably. The corn crop has suffered the most, and fears of its total destruction are entertained. The mercury stood at 39° here yesterday, but the weather has moderated some to-day. The greatest damage seems to have been done along the Michigan Central and Lake Shore

and Michigan Southern Railroad lines. The entire growing tomato and cugreatly pleased the audience, which was largely made up of veterans, who and within twenty-four hours the price became perfectly wild when he said of tomatoes has gone up from fifty cents that these intercolonial railroads would to \$1.50 per bushel. On many farms vegetation is beyond revival. Cattle suffer for pasturage.

GARDEN VEGETABLES DESTROYED IN PENNSYLVANIA.

ERIE, Pa., Sept. 10 .- A heavy frost visited Erie and adjoining counties last night, and South of the Lake Shore Ridge there was three-quarters of an inch of ice. The corn and buckwheat crops left by previous frosts were en-tirely destroyed. The late peaches in some localities were frozen. Garden vegetables were destroyed. The region of country fringing along the Lake shore, including the vineyards, was protected by the Lake breezes.
