THE FATHER OF FISH-CULTURE.

Seth Green's Ideas About the Tribe and Some of His Varied Experience.

(Turf, Field and Farm.)

"How did you ever come to devise this scheme?"

"I have been working at it ever since I was large enough to bend a pin."

The above remark was addressed to Mr. Seth Green, the veteran fish culturist, who is known to the entire world, and his reply indicates the extent of his labors.

"When I was quite young," he continued, "I would be on the limbs of trees that reached out over the water entire afternoons watching the movements of the fish and studying their habits. In this way I discovered many characteristics which were before unknown. I saw, as every observer must see, the destructive elements that are warring against fish, and I realized that unless something were done, the life in the streams of this country would become extinct. To counteract this disastrous end became my life work, and I am happy to say I have seen its accomplishment."

"Were you successful on the start?"

"No, indeed. Up to that time all artificial attempts to hatch and raise fish from the spawn had failed, and I was compelled to experiment in an entirely new manner. The work was a careful and tedious one, but I finally succeeded, and to-day I am able to hatch and raise fully seventy-five per cent. of all spawn."

"Enormous! Why, this is a larger percentage than either the vegetable or animal kingdoms produce in a natural condition."

"I know it, but we exercise the greatest care in the start, and guard the little fellows until they become able to care for themselves."

The foregoing conversation ocurred at Caledonia where the representative of this paper was paying a visit to the state fish hatcheries. It has been his privilege to report very many interesting sights within the past twenty-five years, but the view presented here exceeds in interest anything ever before attempted.

"How many fish are there in those ponds, Mr. Green?"

"As we have never attempted to count them it will be impossible to say. They extend way up into the millions though. We shipped over three millions out of the ponds this year and there seemed to be as many afterward as before. We have nearly every variety of the trout family and many hybrids."

"You speak of hybrids, Mr. Green. What do you mean by that?"

"I have experimented for years in crossing the breed of the various fish and am still working upon it. We cross the female salmon trout with the male brook trout, and thus produce a hybrid. Then we cross the hybrid with the brook trout which gives us three quarters and one-quarter salmon trout. This makes one of the finest fishes in the world. He has all the habits of the brook trout, lives in both streams and lakes, develops vermillion spots on his sides, rises readily to a fly, is far more vigorous and fully one-third larger than ordinary brook trout of the same age The possibilities of development in the fish world are great and we are rapidly ascertaining what they are."

As the man of news watched the countenance of Mr. Green while he was giving the above account, he could not but feel that he was in the presence of one of the few investigators who, from a rich and life-long experience, bring great benefit to the world. Let the reader imagine a strong and stalwart frame, surmounted by a head strongly resembling that of Socrates, and covered with a white silky beard and luxuriant gray hair. Seth Green, the father of fish culture, is a picture of health, and the reporter could not help remarking so.

"If you had seen me the last winter and spring, young man, you might have thought differently," said the veteran.

"How is that?" One would think to look at you, that sickness was something of which you knew nothing.

"And so it was until last winter. I went down into Florida in the fall to see what kind of fish they had in State and study their habits, and was attacked with malaria in its severest form, and when I came home I realized for the first time in my life, that I was sick. My symptoms were terrible. I had dull, aching pains in my head, limbs and around my back My appetite was wholly gone, and I felt a lack of energy such as I had often heard described but had never experienced. Any one who has ever had a severe attack of malaria can appreciate my condition. I went to bed and remained there all the spring, and if there ever was a sick man I was the one."

"It seems hardly possible. How did you come to recover so completely?"

"My brother, who had been afflicted by a severe kidney trouble and threatened with Bright's disease was completely cured by a remedy in which I had great confidence. I therefore tried the same remedy for my malaria and am happy to say I am a well man today and through the instrumentality of Warner's Safe Cure, which I believe to be one of the most valuable of medicines. Indeed, I see it is endorsed by the United States Medical College of New York, and that Dr. Gunn, dean of that institution, has written a long article concerning its value.'

"And are you now as well as formerly?"

"Apparently so. I keep the remedy on hand all the while though and do no hesitate to recommend it to others."

"One question more. How many ponnds of fish have you here and how are they divided?"

"Well, we have 43 ponds which are divided up as follows: 22 ponds of brook trout, 2 ponds of salmon trout, 4 of McCloud river or rainbow trout, 2 ponds of German trout, 3 of California mountain trout, 2 ponds of hybrids, 4 of one-quarter salmon and three-quarters brook trout, 2 ponds of gold fish, and 1 pond of carp. Then we have what we call the centennial pond or "happy family," consisting of crosses of different fish, including Kennebec salmon, Land Locked salmon, California salmon, brook trout, salmon trout and hybrids. These fish range in size from minnows to 18-pounders, and in age from one-and-one-half months to eleven years. I forgot to say, also, that we have a 'hospital' pond, which is entirely empty, which speaks pretty well for a community of many millions. Indeed the whole secret of fish culture can be summoned up in four things. Impregnation—using no water. Plenty of food. Plenty of pore water and cleanliness.

The numerous fish exhibitions which are taking place in all parts of Europe and the unusual interest which is being manifested in this subject throughout the world all owe their origin to the process above described as originated and conducted by Seth Green. It is certainly cause for congratulation to every American that this country produces so many men whose genius brings value to the world, and it is proof positive of the greatest merit that a remedy even with such high standing as Warner's Safe Cure is known to have should be so strongly endorsed and recommended by one so reputable and reliable as Seth Green.

A Literary Man Went West.

The lime-stone water of Ohio disordered his bowels and laid him on a bed of sickness with horrible cramps. For three days and nights he was wretched. Then he said "why didn't I think of Perry Davis's Pain Killer?" He sent for it and experienced such prompt and thorough relief that he was a fool for not getting it at first.

Rheumatic Syrup Co., BUTLER, N Y., Feb. 25, '82.

GENTS—I wish to express my appreciation of your wonderful remedy for the cure of rheumatism, dyspepsia and general debility. I have been a great sufferer from that terrible disease —rheumatism—for more than a year, and could get no rest or relief day nor night for the whole time. Like most everybody else similarly afflicted, I tried many different remedies, and consulted a number of physicians. But getting only temporary relief from any of these sources, I almost despaired of ever again being restored to my normal condition, and once more free from pain. At this time, hearing so many recommend your Rheumatic Syrup as an infallible cure for rheumatism, and knowing that they had been troubled the same as myself and were now permanently cured by the use of your remedy, I was inspired by their unbounded faith in its healing powers, and resolved to test its efficacy in my own case; and the result of it all is, that after taking four bottles, my rheumatism had all disappeared, and now, thanks to your Rheumatic Syrup. I feel like a new man, and cheerfully recommend the Rheumatic Syrup to all who are suffering with rheumatism.

How to Secure Health.

It seems strange that any one will from the many derangements brought on by an impure condition of the blood when Scoville's Sarsaparilla and Stillingia, or Blood and Liver Syrup will restore perfect health to the physical organization. It is, indeed, a strengthening syrup, pleasant to take, and has often proven itself to be the best blood purifier ever discovered, effectually curing scrofula, syphilitic disorders, weakness of the kidneys, erysipelas, malaria, all nervous disorders and debility, bilious complaints, and all diseases indicating an impure condition of the blood, liver, kidneys, stomach, etc. It corrects indigestion. A single bottle will prove to you its merits as a health renewer, for it acts like a charm, especially when the complaint is of an exhaustive nature, having a tendency to lessen the natural vigor of the brain and nervous system.

Strength for Mind and Body.

There is more strength restoring power in a bottle of Parker's Ginger Tonic than in a bushel of malt or a gallon of milk. This explains why invalids find it such a wonderful invigorant for mind and body.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested their wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. BOOT and SHOE MAN

OF BUTLER

Has been East, the only Shoe Merchant in Butler that went East this Fall. His goods are now arriving daily, and as usual, his Fall trade has opened with a

——GRAND RUSH.——

The people of Butler county have been imposed on long enough with high prices, and with few exceptions they are going to the

CHEAP BOOT and SHOE HOUSE

to buy their Fall goods, but this is not enough I want them all to come, I have the goods and

THEY MUST BE SOLD.

My goods were all bought direct from the manufacturer for cash by an experienced buyer and I intend to sell them at such

ASTONISHING LOW PRICES

That will make my customers all happy and my competitors go mad with rage. They want me to maintain high prices so we can all make

BIG MONEY,

But I tell them, NO, I can afford to sell goods on a **VERY SMALL MARGIN** because I am selling more goods than any other Shoe House in Butler county. So I am going to

CUT THE PRICES

And favor the people and do the trade. My Stock of Boots, Shoes and Rubbers is by far the largest that was ever brought to Butler in one season, and I want to impress on the minds of the people that I will not be

UNDERSOLD

But to the contrary will guarantee to save them from 15 to 25 per cent. on their Boots and Shoes and give them goods that will prove just as recommended. All I ask is to give me a call and it will be no trouble for me to convince you that it is

Day's Soap DAY'S SOAP Day's Soap

is beyond power of computation. Our facilities for the production of it are taxed to the utmost to supply the orders that pour in upon us from this great wide and progressive country. Right here in your section it is being used extensively and many can testify to its wonderful properties

The wrappers are waxed and can be used for smoothing the surface of your hand-irons, giving them a polish and smoothness, that will greatly assist in giving your clothes a finished look. Remember this Soap is cheaper than any other in the market, and yet does all we claim for it.

READ THE EVIDENCE BELOW.

PHILADELPHIA, PA.

MESSRS. DAY & FRICK.

Gentlemen:—Having been made acquainted with the ingredients of which your celebrated DAY'S SOAP is composed, and having fully tried the Soap, I take pleasure in giving this as my testimony: 1st. The Soap is perfectly harmless, and may be used with impunity even in washing the most delicate infant, or the most fastidious beauty. 2d. It is purifying, refreshing, detergent and disinfecting. 3d. No lady, no gentleman, no housekeeper, no hotel, no asylum, no hospital should be without it. The above may seem strong language, but I have only embodied my convictions after thorough experience and trial.

Very truly yours,
B. PRICE, M. D., 307 North Ninth Street.

PHILADELPHIA, May 5th, 1881.

MESSRS. DAY & FRICK.

Dear Sirs:—Your DAY'S SOAP has been used in my family. My wife has had some experience for thirty-five years as a housekeeper. She pronounces it the best of all ever used in our family.

Yours respectfully,
W. L. GRAY, D. D., Pastor Central M. E. Church, Frankford.

ELIZABETH, N. J.

MESSRS. DAY & FRICK.

Dear Sirs:—Having used your Soap, we can say it gives satisfaction, being much superior to others hitherto used for laundry purposes.

Yours,
A. J. MARTIN,
Steward, Elizabeth Gen. Hospital and Dispensary.

MESSRS. DAY & FRICK.

Sirs:—I am using DAY'S SOAP, and could not be induced to use any other for any amount of money. I have been suffering with salt rheum for a number of years, and could use no Soap until I met yours, and to my great surprise it healed my hands, and now I can do a day's wash without any suffering. It has not only cured me, but saves me many hours of hard work. I therefore willingly recommend it to every woman as the best Soap made.

Respectfully,
MRS. PETER BOER, GROCER,
253 Ninth Ave., New York.

Save your health, Save your time, Save your patience, By using this Soap. No unpleasant oder No sickness as the result of a hard day's wash. No hot water, No wash boiler but clothes nice and white and as fragrant as new mown hay. TRY IT.

☞**Wash-day has no terrors for the household where DAY'S SOAP is used, no unpleasant and sickening odors to fill your houses, no laborious rubbing on the wash-board, while the washing can be done in one-half the time necessary by following the old worn-out method.**

MADAM—for it is to the ladies we desire to speak more especially—you are the interested person in this matter; you it is that suffers the ills arising from the wash tub and its heavy cares; you it is to whom the perplexities and responsibilities of the household rightfully belong, and you it is that should interest yourself in a trial of the qualities of this soap, that has always proven itself to be a boon of salvation

——TO SUFFERING HUMANITY.——

We do not come to you with a plausible story calculated to have you try it, simply for the amount of money such a sale would bring us; we do not come to you as irresponsible parties, who have no reputation to suffer calumny, but we do present to you this brand of soap upon an **absolute guarantee and recommendation** of a well-known industrial establishment of Philadelphia, of sixteen years' existence. Do you suppose for a moment it would compensate us to make false statements to you and ruin our well-earned reputation? No, dear reader; what we say about **DAY'S SOAP** is the truth, and it is sustained by the evidences of thousands of housewives from all over the country, besides which we stand ready to endorse it all with ready cash. ☞*DAY'S SOAP is the Original and Only Patented.*☜

DAY'S SOAP { Will clean the Miners' Skin and Clothes. Will clean the Blacksmiths' Skin and Clothes. Will clean the Machinists' Skin and Clothes. Will clean Everybody's Skin and Clothes.

Is there not economy in the use of Soap that will clean the skin as well as the clothes? this Day's Soap will surely do. It will in no way injure the finest fabrics or the most delicate complexions.

No soda, no washing crystals, no lyes are to be used, but simply supply yourself for the next wash-day with a bar of DAY'S SOAP, then carefully read the directions and follow them to the exact letter, and if you don't say pitch out that old wash-boiler, for I am a wiser woman, *you* will be the first person we have yet heard of that has been disappointed.

☞**Now remember**—If you don't intend to follow the directions do not try the soap at all, for unless you do this you will be disappointed, and then you will scold us and yourself as well.

The cost of one cake will convince you that it is the best and cheapest soap ever offered you, while the smiles that will encircle your brow will do justice to a golden sunset.

Have you confidence in this newspaper? If so, do you suppose the owner would allow us to swindle his readers by offering them tempting inducements? He uses it in his own home, and can certify to its merits. Now you get a cake from your grocer in time for the next wash-day, and become acquainted with its intrinsic worth.

Ask your grocer for it, and do not allow him to put you off with anything else for a substitute, for every dealer can obtain it, and should he refuse you, send direct to

QUEEN VICTORIA.

Court circles in England are anxious about the queen's health. Her disease is thought to be of the kidneys. While this is difficult to reach by ordinary treatment, which accounts for her lingering illness, there is a sure and certain remedy for it all and kindred affections, which she ought to know of and use, in DR. FENNER'S KIDNEY AND BACK-ACHE CURE. The following illustrates how readily it cures infinitely worse cases than hers:

Fredonia, N. Y., Mar. 8, 1883.

Dr. M. M. Fenner—Dear Sir—For years I had been suffering from a combination of KIDNEY DISEASE, HEART DISEASE and FEMALE WEAKNESS. I had a heavy aching pain over my kidneys with cramping of my limbs. I had BACKACHE and a SCANTY and TURBID flow of urine; BLOATING OF LIMBS and a GENERAL DROPSICAL CONDITION; also PAIN, PALPATATION and DROPSY of the HEART.

My condition was a distressing one, and all treatment and KIDNEY REMEDIES gave little or no relief.

I have been taking your "KIDNEY AND BACK-ACHE CURE" with the most happy result. It has relieved all the unpleasant symptoms that have followed me so persistently and so long. I never had a medicine help me so quickly and cure so completely. I am doing my own work.

How Watch Cases are Made.

The many great improvements introduced in the manufacture of the Jas. Boss' Gold Watch Case, have led to similar improvements in the making of silver cases.

Under the old methods, each part of a silver case was made of several pieces of metal soldered together, requiring a great amount of cutting and soldering, which softened the metal and gave it the pliability of lead rather than the elasticity of silver.

Under the improved methods, each part of the Keystone Silver Watch Case is made of one solid piece of metal hammered into shape. The advantages are readily apparent, for every one knows that hammering hardens the metal while soldering softens it.

To test the superiority of the Keystone Silver Watch Case, take one of 3 oz. weight, press it squarely in the center when closed, and it will not give, while a case of same weight of any other make will give enough to break the crystal. The Keystone Silver Watch Case is made only with silver cap and gold joints.

MANHOOD

How Lost, How Restored

Just published, a new edition of DR. CULVERWELL'S CELEBRATED ESSAY on the RADICAL CURE of SPERMATORHŒA or Seminal Weakness, Involuntary Seminal Losses, IMPOTENCY, Mental and Physical Incapacity, Impediments to Marriage, etc; also, CONSUMPTION, EPILEPSY and FITS, induced by self-indulgence, or sexual extravagance, &c.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

☞This Lecture should be in the hands of every youth and every man in the land.
