Gendemen:—Having been made acquainted with the ingredients of which your celebrated Day's Soar is composed, and having fully tried the Soap, I take pleasure in giving this as my testimong: 1st. The Soap is perfectly harmless, and may be used with impunity even in washing the most delicate infant, or the most fastidious beauty. 2d. It is purifying, refreshing, detergent and disinfecting. 3d. No lady, no gentleman, no housekeeper, no hotel, no asylum, no hospital should be without it. The above may seem strong language, but I have only embodied my convictions after thorough experience and trial.

Very truly yours.

Yours,

Steward, Elizabeth Gen. Hospital and Dispensary. Messrs. Day & Frick.

Sirs:—I am using Day's Soap, and could not be induced to use any other for any amount of money. I have been suffering with saft rheum for a number of years, and could use no Soap until I met yours, and to my great surprise it healed my hands, and now I can do a day's wash without any suffering. It has not only cured me, but saves me many hours of hard work. I therefore willingly recommend it to every woman as the best Soap made.

Respectfully,

MRS, PETER BOER, GROCER, Respectfully, 253 Ninth Ave., New York.

Save your time, · Save your patience, By using this Soap Ho unpleasant odo No sickness as he result of a hard day's wash.

Save your health,

No hot water, No wash boile but clothes nice an white and as tra grant as new mown

Wash-day has no terrors for the household where DAY'S SOAP is used, no unpleasant and sickening odors to fill your houses, no laborious rubbing on the wash-board, while the washing can be done in one-half the time necessary by following the old worn-out method.

MADAM—for it is to the ladies we desire to speak more especially—you are the interested person in this matter; you it is that suffers the ills arising from the wash tub and its heavy cares; you it is to whom the perplexities and responsibilities of the household rightfully belong, and you it is that should interest yourself in a trial of the qualities of this soap, that has always proven itself to be a boon of salvation

-to suffering humanity.

We do not come to you with a plausible story calculated to have you try it, simply for the amount of money such a sale would bring us; we do not come to you as irresponsible parties, who have no reputa-tion to suffer calumny, but we do present to you this brand of soap upon an absolute guarantee and recommendation of a well-known industrial establishment of Philadelphia, of sixteen years' existence. Do you suppose for a moment it would compensate us to make false statements to you and ruin our well-earned reputation? No, dear reader; what we say about DAY'S SOAP is the truth, and it is sustained by the evidences of thousands of housewives from all over the country; besides which we stand ready to endorse it all with ready cash. FT DAY'S SOAP is the Original and Only Patented.

Will clean the Miners' Skin and Clothes.

Will clean the Machinists' Skin and Clothes.

Is there not economy in the use of Soap that will elsen the ckin as well as the clother? this Day's Soap will surely do. It will in no way injure the finest fabrics or the mort delicate complexions.

No soda, no washing crystals, no lyes are to be used, but simply supply yourself for the next wash-day with a bar of DAY'S SOAP, then carefully read the directions and follow them to the exact letter, and if you don't say pitch out that old wash-boiler, for I am a wiser woman, you will be the first person we have yet heard of that has been disappointed.

Now remember-If you don't intend to follow the directions do not try the soap at all, for unless you do this you will be disappointed, and then you will scold us and yourself as well. The cost of one cake will convince you that it is the best and cheapest soap ever offered you

while the smiles that will encircle your brow will do justice to a golden sunset.

Continued from last week.) How Watch Cases are Made.

In buying a silver watch case great care should be taken to secure one that is solid silver throughout. The cap of most cheap silver cases is made of a composition known as albata, which is a very poor substitute for silver, as it turns black in a short time. The backs of such cases are made much thinner than those of an all silver case, being robbed in order to make the cap thicker and get in as much as possible of the cheap metal. Another important point in a silver case is the joints or hinges, which should be made of gold. Those of most cheap cases are made of silver, which is not a suitable metal for that purpose. In a brief period it warps, bends and spreads apart, allowing the backs to become loose upon the case and admitting the dust and lirt that accummulate in the pocket. The Keystone SilverWatch Cases are only made with silver caps and gold joints.

In our long and varied experience in handling watches, we cannot but acknowledge and give our testimony that the Keystone Solid Silver Watch Cases are the best made to our knowledge. Having no soldering they remain homogeneous, harder and stiffer than they would be were they heated for soldering, and have more resisting power against pressure than any other cases in the market. Fredonia, N. Y., Mar. 8, 1883.

Dr. M. M. Fenner—Dear Sic—For years I had been suffering from a combination of kidney disease. Health disease and female weakness. I had a heavy aching pain over my kidneys with eramping of my limbs. I had backache and a scanty and tubbid flow of urine; eloating of limbs and a general dropsical condition; also party, paltatation and disease of the healt.

My condition was a distressing one, and all treatment and kidney remidels.

reatment and RIDSEY REMINIES gave intile or relief.

I have been taking your "RIDNEY AND BACK-sens count" with the most happy result. It has relieved all the unpleasant symptoms that have followed me so persistently and so long. I sever lad a medicine help me so quickly and care as completely. I am doing my own work, Yours truly, MRS JAMES FULLER.
