(Rochester Democrat and Chronicle) the remainder." We published on our third page vesterday morning a significant letter from a gentleman known personally or by reputation to nearly every person in the land. We have received a number of letters protesting against the use of our columns for such "palpable frauds that and a physical ailment combine, and misrepresentations;" therefore, to it is simply terrible. Such was the confirm beyond a doubt the authentic-

the following result. Among the trustees are Bishop A. C. Coxe, Protestant Episcopal, Buffalo; Bishop Mathew Simpson, Philadelphia, ter; Rev. Dr. Clark, Secretary of the A. B. C. F. M., Boston. The benevolent purpose of the institution is the care; 1st-of evangelical missionaries and their families whose health has been broken in their work. 2nd-of ministers, of any denomination, in good standing. 3rd—of members of any church; who otherwise would be unable to secure such care and treatment. The current expenses of the institution are met by the receipt from the hundreds of distinguished and wealthy people who every year crowd its utmost capacity. Here come men women who were once in perfect health, but neglected the first symptoms of disease. The uncertain pains which they felt at first were overlooked until their health became impaired. They little realized the danger before them, nor how alarming even trifling aiments might prove. They constitute all classes, including ministers and hisbops, lawyers, judges, statesmen, millionaires, journalists, college profes-sors and officials from all parts of the

Drawing the morning Democrat and Chronicle from his pocket, the reporter remarked, "Docter, that letter of yours has created a good deal of talk, and many of our readers have questionary and Liver Syrup, and have gained four-and-a-half pounds in about sixty days.

the doctor.

"Have you not seen the paper?"
"Yes, but I have not had time to

read it yet." The reporter thereupon showed him the letter, which was as follows:

CLIFTON SPRINGS SANITARIUM Co.,) CLIFTON SPRINGS, N. Y., Oct. 11, '83. DEAR SIR: I am using Warner's Safe Cure, and I regard it as the best remedy for some forms of kidney disease that we have. I am watching with great care some cases I am now treating with it, and I hope for favorable results.

I wish you might come down yourself, as I would like very much to talk with you about your sterling remedy and show you over our institution. Yours truly,

[Signed] HENRY FOSTER, M. D. "I do not see why anybody should be skeptical concerning that letter," remarked the doctor.

"Isn't it unusual for a physician of your standing and influence to commend a proprietary preparation?"
"I don't know how it may be with others, but in this institution we allow

no person to dictate to us what we shall use. Our purpose is to cure the sick, and for that work we use anything we know to be valuable. Because I know Warner's Safe cure is a very valuable preparation, I commend As its power is manifested under my use, so shall I add to the completeness of my commendation."

'Have you ever analyzed it, doctor?" "We always analyze before we try any preparation of which we do not know the constituents. But analysis. you know, only gives the elements; it does not give the all important proportions. The remarkable power of Warner's Safe Cure undoubtedly consists in the proportions according to which its elements are mixed." While there may be a thousand remedies made of the same elements, unless they are put together in proper proportions, they are worthless as kidney and liver preparations.

"I hope some day to meet Mr. Warner personally, and extend fuller congratulations to him on the excellence of his preparations. I have heard much of him as the founder of the Warner Observatory, and as a man of large benevolence. The reputed high character of the man himself gave assurance to me in the first place that he would not put a remedy upon the market that was not trustworthy; and it was a source of a good deal of gratification to me to find out by actual experiment that the remedy itself sustained my impressions.'

The conclusion reached by Dr. Foster is precisely the same found by Dr. Dio Lewis, Dr. Robert A. Gunn, Ex-Surgeon-General Gallagher and others. and proves beyond a doubt the great efficacy of the remedy which awakened so much attention in the land and rescued so many men, women and children from diseases and death.

-A great many people have a very peculiar kind of religion. It resembles the portrait which the young girl wanted to have painted, which was to be a perfect likeness to her lover, but not recognizable by any one else.

-Mr. H. R. Miller, Reading, Pa., says: "I used Brown's Iron Bitters as a tonic and appetizer and found it truly beneficial."

-There are two classes of people who are to be studiously avoided-viz.. the men who wear long hair and the women who wear short hair.

-We walk in the midst of secrets, we are encompassed with mysteries, but it is an open secret that, there is no remedy in the world so wonderful as Dr. Bull's Cough Syrup for coughs

-The true American patriot is a man after Sir Boyle Roche's own heart, who once said at a popular gathering, "I would give up the half, nay, the whole, of the constitution to preserve

the necessary thickness for engraving and polishing, a large proportion of metal is needed only to stiffen and hold the engraved portions in place, and supply strength. The surplus gold is actually needless. In James Boss' Patent Gold Watch Cases this WASTE is saved, and SOLIDITY and STRENGTH increased by a simple process, at one-half the cost. A plate of solin GOLD is soldered on each side of a plate of hard nickel composition metal, and the three are then passed between polished steel rollers. From this the cases, backs, centers, bezels, etc., are cut and shaped by dies and formers. The gold is thick enough to admit of all kinds of chasing, engraving and engine turning. These use without removing the gold. This is the only case made under this process. Each case is accompanied with a ralid guarantee signed by the manufacturers warranting it to wear 20 years. 150,000 of these Cases now carried in the United States and Canada. HAPPY HOMES!

THE NUMBER OF HOMES MADE HAPPY

Wash-day has no terrors for the household where DAY'S SOAP is used, no unpleasant and sickening odors to fill your houses, no laborious rubbing on the wash-board, while the washing can be done in one-half the time necessary by following the old

MADAM-for it is to the ladies we desire to speak more especially -you are the interested person in this matter; you it is that suffers the ills arising from the wasn-tub and its heavy cares; you it is to whom the perplexities and responsibilities of the household rightfully belong, and you it is that should interest yourself in a trial of the qualities of this soap, that has always proven itself to be a boon of salvation

TO SUFFERING HUMANITY.

We do not come to you with a plausible story calculated to have you try it, simply for the amount of money such a sale would bring us; we do not come to you as irresponsible parties, who have no reputation to suffer calumny, but we do present to you this brand of soap upon an absolute guarantee and recommendation of a well-known industrial establishment of Philadelphia, of sixteen years' existence. Do you suppose for a moment it would compensate us to make false statements to you and ruin our well-earned reputation? No, dear reader; what we say about DAY'S SOAP is the truth, and it is sustained by the evidences of thousands of housewives from all over the country, besides which we stand ready to endorse it all with ready cash.

DAY'S SOAP is the ORIGINAL and only PATENTED

DAY'S SOAP WILL CLEAN The Blackmith's 'Skin and Clothes. The Blackmith's 'Skin and Clothes. The Blackmith's 'Skin and Clothes. The Machinists' Skin and Clothes. Everylodge's 'Skin and Clothes.

Is there not economy in the use of Soap that will clean the skin as well as the clothes? This DAY'S SOAP will surely do. It will in no way injure the finest fabrics or the most delicate complexions. No soda, no washing crystals, no lyes are to be used, but

simply supply yourself for the next wash day with a bar of DAY's SOAP, then carefully read the directions and follow them to the exact letter, and if you don't say pitch out that old wash-boiler, for I am a wiser woman, you will be the first person we have heard of that has been disappointed.

Now remember-If you don't intend to follow the directions do not try the soap at all, for unless you do this you will be disappointed, and then you will scold us and yourself as well. The cost of one cake will convince you that it is the best and cheapest soap offered you, while the smiles that will encircle your brow

will do justice to a golden sunset. Ask your grocer for it, and do not allow him to put you off with anything else for a substitute, for every dealer can obtain it, and should he refuse you send direct to
