### Hash.

On one of the northern trains recent ly was an old lady, who evidently had never before made a railway journey. After looking about her for some time in curiosity, her eyes alighted on the bell line, and she asked the water boy, who happened to be passing at that time, what it was for. "That, marm," said the boy with a twinkle in his eyes, "is to ring the bell when you want anything to eat," and passed on. Shortly after the old lady got down the family umbrella and, reaching up to the bell line, gave a vigorous pull. Of course the breaks were applied, the windows were thrown up, questions asked, etc., the old lady sitting calmly through the confusion. Presently the conductor came rushing into the car, exclaiming, "Who pulled that bell?" "I did," replied the old lady meekly.
"Well, what do you want?" snapped the official, impatiently. "Well," said the old party, meditatively, "you can bring me some hash."

"Fear brings disgrace, bravery brings honor, cowardice saves no man from his fate," says the Caliph Omar; but Dr. Bull's Cough Syrup has saved millions from an awful fate.

-There were nine men and six women in the car which was making so much noise as it rolled along that those talking had to shout to make themselves heard. Suddenly the car stopped, and a tall angular female was heard to exclaim, "Now I propose." Remembering it was leap year, the six unmarried men rushed for the door, while the three married ones simultaneously remarked, "It's useless to propose to us, madam; we're already mar-ried."

"I have used Parker's Hair Balsam and like it better than any similar preparation I know of," writes Mrs. en Perry, wife of Rev. P. Perry, of Coldbrook Springs, Mass. "My hair was almost entirely gray, but a dollar bottle of the Balsam has restored the softness, and the brown color it had when I was young—not a single gray hair left. Since I began to apply the Balsam my hair has stopped falling out, and I find it is a pefectly harmless and agreeable dressing,

## An Avaricious Age.

A great many people call the present age an avaricious one. The American, as a rule, thinks of the almighty dollar in all of his transactions, whether in the pursuit of wealth, helth or pleasure. The general tendency of our race is toward excess, and this should be carefully guarded against. The love of money is generally credited with being the root of all evil, but all people seem to be after plenty of the root.
It cannot be told from the phraseology of the following whether the writer. tended a wholesale cure or whether he wished to go into a little speculation:

JAMESTOWN, PA. DR. S. B. HARTMAN & Co.-At what price will you furnish Peruna by the gallon? I am afflicted FRAMES, with neuralgia and catarrh. I have taken three bottles of Peruna and it is helping me.

## Don't You Do It.

Don't Suffer any longer with the pains and aches of Rheumatism, which make life a burden to you. Relief, speedy and permanent can be procured at the nearest drug store, in the form of Kidney-Wort. Elbridge Molcolm says "I was completely prostrated with Rheumatism and Kidney troubles and was not expected to recover. The first dose of Kidney-wort helped me Six doses put me on my feet, it has entirely cured me and I have had no trouble since."

—It may be good sense to differ from your friend, but it is bad manners to tell him so too sharply.

-Mrs. T. M. Wheeler, of New York, received the \$1,000 offered prize for handsomest design in wall paper. It is known as the "bee patern," and represents golden-winged bees in a wreath of clover blossoms. The second prize was won by Miss Clark. Her design is a gold fishing net on a light ground with a dado of seaweeds and a frieze of seashells. This is quite a triumph of the ladies, as quite a number of men artists were in competition.

-Director Sturtevant, of New York Agricultural Experiment Station, thinks the most desirable uses for coal ashes is to place them around the stems of currant bushes, quince trees and the mountain ash, in order to chech the ravages of the borer. Currant bushes so treated have for many years proved extraordinarily thrifty, and have also been protected from the attack of the current worm. Quince and mountain ash tree similarly treated have also been greatly benefited. The ashes for this purpose are heaped up about the stem to a hight of perhaps six or eight inches, and extending about two feet from the trunk.

-A clergyman was devoutly reading the Holy scriptures to his congregation, when he came to certain words in the lower right hand corner, to which he desired to give great emphasig. So he read, with a loud voice: "I am"-turned over two leaves and continued-"an ass, the foal of an ass," -then, seeing his mistake, found the eight place and added-"that I am," which of course nobody would deny.

-Dr. McCosh, of Princton, in a recent address to the students said: "Our College is not in a good state." This is precisely what the little Maine girl thought, who thus finished her prayer one night: "And now, God, good-bye; for I'm going to New Jersy or two weeks."

-A specimen of logic. What relation s a loaf of bread to a steam engine? Bread is a necessity. A steam engine is an invention. Necessity is the mother of invention; therefore a loaf of bread is the mother of a steam engine.

-The curiosity of a child of five had been aroused by seeing a magnifying glass. "How many times does it magnify?" asked a gentleman thinking to puzzle him. "As many times as you look through it" was the ready eply.

-A man very much intoxicated was taken to the station. "Why did you not bail him out?" inquired a bystander of a friend. "Bail him out?" exclaimed the other. "Why you couldn't pump him out?"
