The Trouble an Old Rubber Made.

During the latter part of January or first few days of February last, Mr. Jerome Downing, an English boot maker, was waiting for Phila Burchfield on a well on the John Gallagher place...

On Monday night of last week, the 22nd inst., the store of A. & A. Krause was entered by burglars, who opened the money drawers and carried away a considerable amount of money.

The robbery was discovered early next morning, and a careful examination discovered no clue or anything left behind by the burglars excepting an old rubber shoe lying alongside the safe, and in the toe of the rubber shoe were two papers, one a small circular and the other an insurance assessment notice, No. 1395, of a Pittsburg Company.

Mr. Krause took the papers to Pittsburg and finding that the policy was owned by Mr. Downing, made arrangements to get the same and a detective got to Washington county and arrested him.

The case was heard before Eog. Keck last Tuesday afternoon, and Mr. Downing, who is a very respectable looking man, and who is now of the name of Downing, of Mercer county, had the man he is boarding with, and the man who is out with him to prove that he has worked steadily at the well in Washington county since the 20th of February last, and that he was at the well until after midnight of March 12th.

Every thing was explained excepting the appearance of the shoe at that particular place and time and Mr. Downing was discharged.

The rubber was probably left there by the burglars by accident or design—a circumstance that has caused Mr. Downing the humiliation of being arrested and a considerable sum of money—and is a warning to everybody to be careful of their old papers.

There are probably not a dozen men in this town who have not at some time in their lives fastened a rubber with an old letter or other papers.

An Indignant Protest: Adulteration with lime is quite as much to be dreaded as with alum, which has heretofore received the most emphatic condemnation from food analysts, physicians and chemists.

NEIGHBORHOOD NOTES.

Another effort is being made to discover who murdered Mrs. Everhart and her mother at Lickingville, Clarion county, two years ago. The reward offered has been increased to \$1,500.

Spiritualism has taken such a hold upon the people of New Castle, that the clergy are alarmed and are preaching against it as "the danger of the hour." A few nights of Kellar, the magician, over there, might prove a relief.

The Philadelphia Record thus sums up the life of the late Peter Herdic: The death of Peter Herdic, a native of a remarkable character in business affairs within the range of his operations here was a turbulent element. He brought Wall street sharpness and Wall street ethics to the public of the real estate of the city.

A three-year old boy living near Beaver Falls, this State, before going to bed one evening filled his ears full of potato spuds. During the night his ears began to pain him, and his parents who were awakened, thought the spuds were worms of some kind, and they were accordingly summoned. A physician was summoned, however, and the mystery explained.

We notice an item of news in the Parke Phoenix which is rather out of the usual order of human affairs, and we state it briefly: A short time since a young man was arrested in connection with the shooting of a man in the meantime attended several meetings and was converted, and announced his intention to lead an exemplary life.

The official justice recently been active in the pursuit of these dishonest articles. The bakers powder of several States have been carefully and critically examined. The officials are surprised at the large amount of lime and alum goods found in a suggestive list of articles.

Organizing the Miners.

Wm. M. Bailey, a member of the Executive Board of the Knights of Labor is now in the north-eastern part of this county organizing the miners. Mr. Bailey says there is a large number of miners in that district without organization.
