For their Boots and Shoes. They do it because he has the largest stock to select from; because they can and do rely on what he tells them about the goods. No two or three prices-same to all. No tricky advertising done, such as goods at 48 cts, 69 cts, etc. No auction, or OLD SAMPLE LOTS, put-in as would make believe at 50 cents on the dollar, but fresh new styles made to order by the best manufacturers in the country to-day. You always want to keep an eye open on the fellow that says he is giving his goods away at 50 cts on the dollar. Either he or the goods is considerably off colour.

Our selection is large in Ladies' Shoes of all kinds at \$1.00, \$1.25, \$1.50, \$2 00 and up to \$4.50 We don't say they are worth twice the money we ask for them; or to come quick, never get such a chance again; and, at your own price, and all such nonsense; but do say that nowhere can you find their equals, especially our \$1.25, \$1.50 and \$2,00 Kid Button Boots. They are genuine Kid and Dongola warranted, and very handsome styles in all widths and shapes, and we intend to try to supply all customers that want these goods, if we can get them fast enough from the factory. Have had some trouble lately on account of our rapidly increasing trade on these shoes to get them fast enough to meet the demand.

We intend to extend this opportunity to you of getting these goods at any time, as we intend to keep a full stock at all times. (They are not shop worn sample shoes.) Hence, if it don't suit you to come this week, come next, as we intend to get them in quantities to meet the demand. Some say, "Strike while the iron is hot." You can strike any day or hour at Huselton's and find the iron hot.

The Banana as Food.

According to one authority, one bound of bananas contains more nusimen't than three pounds of meal or prayer meeting. Why He Came Out.

BRADFORD PA , .- The political feasation of this part of the State is the flop of G. B. McCalmont, long a Democratic leader. Last night he addressed a large public meeting of Republican clubs which was attended by many interested Democrats. Mr. McCalmont said:

"I commenced to hedge away back on the day that Cleveland signed his first pension veto message. I thought that when a worthy widow of a wore lhy soldier by special act was grant-ed a pension, and when the Chief Magistrate of this great Nation stooped to veto that bill, because under the old rules of the Pension Department she was not entitled to a pension, it was time for me to hedge. When Cleveland wrote that school boy essay on wool and sent it to Congress, I made a break for the fence. I straddled the fence and looked to the St. Louis convention to rescue the party, but it came not to the rescue, and when the party in convention swallowed free trade, and Cleveland swallowed the party, and it became a Cleveland party instead of a Democratic party, I got down off the ience, and found myself standing where stand now, and where I never stood before -on a Republican platform.

"The Democratic party asks me to yote for free wool, and paralyze the wool growing industry of this country. I won't do it, and that is the reason I am not a Democrat.
I am asked as a Democrat Democrat to vote for a reduction of 27 per cent, on woolen goods and des-troy the woolen manufactories of this country. I won't do it; and that is

A Japanese Volcano Bursts Forth With Awful Effect.

The steamer City of Sydney, Hong Kong and Yokohoma, brings Japan-ese journals with particulars of a volcanie eruption of Bandai San of July: The details of the catastrophe come in a somewhat disjointed form. The Choya Shimbun dispatched a special reporter to the scene. According to his account the villages around Bendai San heard strange rumbling sounds and felt shocks of earthquake from the 13th. These phenom continued intermittedly for two days and nights, but not being attended by any serious result, no greater disquie tude was felt. On the morning of the 15th, at about 8 o'clock, the smaller Bandai San trembled and roared violently. Almost immediately afterward ashes begun to fall, the sky suddenly grew dark and the rumbling sounds continued accompanied by a violent earthquake and flare of dazzling flame. The crust of the smaller Bandai San appeared to be lifted bod-ily upward, and then to fall again with a tremendous noise; then followed showers of red mud, mingled with Judge Albert, at Allentown, he large stones, spreading havoc around. Such, indeed, was the nature of near-lion on which there has heretofore by all the matter erupted—red mud been no decision. The high license | without small stones, but accompani-
