PRINCIPLES OF LABOR.

General Secretary Litchman, of the Knights of Labor, Speaks. WASHINGTON, August 30. - Sens tor Quay to-night furnished the fol-lowing letter from General Secretary Litchman, of the Knights of Labor,

PHILADELPHIA, PA., Aug. 27, '88. Hon. Matthew S. Quay. Chairman of the National Republican Com-

tion may refrain from active partici-pation in politics, so much of what organized labor demands must be ob-tained through legislation that the individual member of the labor organization must art politically as, in his judgment, will best aid the aims and objects expressed in the principles of the organization he represents, and whose success he desires.

In the gigantic political struggle

now begun, side issues count as nothing, except to aid or hinder the principal combatants in the political arena. However sincere may be the advocates of the measures to secure which these separate political organizations are formed, and whatever strength in votes may be shown at the polls, the fact remains that the candidate of either the Republican or the Democratic party will be the next President of the United States.

Therefore, to him who has the be same.

It is now nearly twenty years inco we purchased and became the two old party organizations shall be given his aid, either directly or indi-

rectly, by voice or vote.

While it may be that neither party offers all that labor organizations desire, I believe that the Republican party, in adopting and advocating the American system of encourage-ment and protection to the labor and wages of our own land, is nearer the larations and desires of organized labor than its free trade opponent, the

Democratic party.

The conflict is between the Ameri-

epablican members knowing their must be done to regulate more strictive was merely to make political ly this importation of foreign labor ly this importation. tal all turned in and voted for under contract and the immigration ry now is, "on to China," "down certain lines, the labor made idle in those lines must turn to other means tition compel a lower rate of wages

The Democrate now seek to transfer their campaign war from Canada to China. Finding they can not catch andian fish they now make an at-the on Chinese rats.

er to consume, except on charity or thieft, ceases. I prefer that America should be a land of workers rather than a land of thieves and panpers. What is true of the individual is true of the Nation. The primary el-ements of National wealth and National prosperity are production, dis-tribution and consumption. Whatev-

er affects the power of labor to con-some affects the entire interests of the Nation Whatever lowers the wages or labor affects its its power to consume. An 'average reduction of 7 per centum on the gost of goods imported will not compensate Ameri can labor for the loss of 100 per cent-um in wages in the lines affected, and

of from 10 to 50 per centum in wages in the wages in the line of employment by the substitution of the free trade for the protective system. I hold it to be far statesmanship to build up and retain our home market by a system that protects American labor than to command a market in foreign lands secured by the whole cheerfully distribues to all who call sale degradation and pauperization of

our own people.

Every dollar's worth of labor value imported is by such a reduction of home laborer's wages This axiom is not offset by the declaration tha there are more goods in the imported dollar's worth. The position of the protectionist is rather strengthened by such a specious presentation of the matter, because the question is then instantly forced upon every intelligent man, How can American labor earn dollars if the industry in which he is experienced is transcreed to foreign lands.

The theory of protection, advocated by the Republican party, is the underlying principle upon which all labor organizations are founded. A takes the drugs and will open a drug

ing care.

State election for Governor was in Vermont on Tuesday last. That is is is clearly understood by most of the thinking leaders of organized labor, is proved by the American system and a home market by the presiding officers of the organization. This is similar in action and object to the proceedings held or now going on in several of the States, except that the amendment to the National Constitutional will be submitted for adeption to the Legislatures

ation of Iron and Steel Workers.

mittee, N. Y. City:

DEAR SIR—My connection with the labor movement for the past fourteen years has made it necessary for me to be a close student of the causes of labor depression and of the needs of those who toil.

While, as a body, a labor organization may refrain from active participation in politics, so much of what free trade sentiment in the North, would be the most serious blow to good citizens would be entirely willorganized labor it could possibly receive. I cannot remain inactive in such a conflict. Therefore, to you and your associates on the National ARTICLE—. Republican Committee, as the representatives of the Republican party, I offer my services in any position or capacity where they may be desira-ble, or be thought most useful, to aid in securing the success of Harrison and Morton, the representatives in this campaign of the American idea this campaign of the American idea of protection to American labor.

I have the honor to remain, Yours to command, CHARLES H. LITCHMAN, COMMUNICATIONS.

LELIA PITH.

THERE has been a wonder-ful change in the past few years in the matter of powder and face washes. Powders and other agents which were temporary and immediate in effect were almost entirely used, and could be detected at a glance. Now almost every lady uses LELIA PITH, and has a clear, healthy skin, which is white. as nature intended, not sallow, "THE MATCHLESS." and yellow, with white powder

harmless in fact, if taken into the stomach it is nutritious, and has been used for centuries by the Armenians and Circassians, whose world wide renown for beauty bears witness to its efficacy. It purifies the skin, neutralizes offensive perspiration, stimulates the capillaries to healthy action, smoothes and banishes wrinkles, rounds the face, removes tan and pimples, and makes pliable and moist the skin. It is nature's own cosmetic. Once using it insures its use always.

LELIA PITH is a natural botanical substance, perfectly
