Storm Proverbs.

When oxen or sheep collect together as if they were seeking shelter, a storm may be expected.

Domestic animals stand with their heads from the coming storm. Foxes barking at night indicate

Peafowls utter loud cries before storm and select a low perch. Wild geese flying over in great numbers indicate approaching storm. When a heavy cloud comes up from the southwest and seems to settle back again, look out for a storm. Red clouds at sunrise indicate

dicates a storm.

Coals becoming alternately bight and dim indicate approaching storm.

Fire always burns brighter and throws more heat just before a storm, and is hotter during a storm.

It is said that blacksmiths select a

stormy day in which to perform work that requires evtra heat. Scot burning on back of chimney indicates storm.

Distant sounds heard with distinct-

ness during the day, indicates rain. Scund traveling far and wide

Brazilian Anacondas.

Two large anacondas were discovered in the hold of the barkentine Emma R. Smith, which is now discharging a cargo of phosphate rock at South Camden, N. J. Be Honest.

In almost every paper we pick up we find an item explaining how "one of our honest farmers" has been swindled by two or three three-card morte sharps, It might be a good lesson Hood's Satsaparilla. 100 Doses One to the rest of the community in which the honest farmer, who plays threecard monte, lives, to arrest him for gambling and allow the courts to determine whether the gambler who takes his chances and omes out the loser is any less a gam. bler than the winner. The man who bets on a horse race, three aces or ern during working hours. three card monte takes his chances, and when he puts up his money expects to be the winner, and only comes the innocent granger when he gets left. Be honest if you can, if not, don't advertise it.—Conneautville Courier.

A Woman 140 Years Old.

Probably in no country are examples of longevity so numerous and so striking as Russia. Almost every day the newspapers contain well au thenticated accounts of women and men who took part in, and have a vivid recollection of, the most notewor- bet. thy events of the last quarter of the eighteenth century. The latest of these instances is that of a woman these instances is that of a woman these instances is that of a woman these instances is the control of the c who is only forty years younger than the Patriarch Isaac when he died. This human relic of the past, who celebrated her 140th birthday some weeks ago, lived exclusively on pota-toes and milk. She was at all times a strict tectotaleer. She is still lively, brisk and cheerful, and can read without spectacles.

Don't give up, my poor, siek friend; While there's life there's hope, 'tis said; Sieker persons often mend; Time to give up when you're dead. Purer, richer blood you need;

Strength and tone your system give; This advice be wise and hecd— Take the G, M. D. and live. Those letters stand for "Golden Medical Discovery" (Dr. Pierce's), the great building-up, purifying, and disease-expelling remedy of the age. Don't hawk, hawk, blow, spit and disgust everybody with your offensive breath, but use Dr. Sage's Catarrh Remedy and end it.

To Be Taken When Cool.

The following story was thrown at us yesterday: A farmer while working near the creek at the poor farm saw a weasel catch a rat. The weasel attempted to swim across the creek, when a pickerel grabbed the weasel, and the rat escaped. Spring this on the children in the cool of day.—Ex. The Homeliest Man in Butler

Labor's Interest is the Country's.

The wealthy importers who are argely Free Traders because it would inevitably increase their impor-tations and profits for a time at least. would do well to reflect upon the patriotic sentiments uttered by Mr. H. K. Thurber, of the great importing firm of Thurber, Whyland & Co., in his recent letter to the wage earners of the United States, Mr. Thurber

"Free Trade is a very pretty theory, but it is mainly professional men who advocate it, and it is gratifying to some to preach that all the world are brothers' and that consequently we should not protect the labor of own neighbors, our own citizens, who build our towns into villages, our villages into cities, who consume our own raw products. Free Trade
