Bicycles. The Supreme Court of Indiana was re cently called upon to review a non-suit in an action brought to recover damages for being struck down on sidewalk by a bicy-cle rider. The trial court had held that bieveling was a form of pedestring that the bicyclers had as much right on the sidewalk as any pedestrian. peal from the non-suit was argued in th forenoon. When the court adjourned to dinner, Judges Coffey and Berkshire start ed to walk to their hotel, and as they were passing out of the capitol grounds a clum sy bicycle rider ran into them, knocking oth down, and badly bruising th This practical argument had such a con-vincing effect on the minds or the learned judge-mat they immediately overruled the unrendered decision and filed an opinion etting forth that a person who "radely and recklessly" rides a bicycle against man standing on a sidewalk is responsible

After quoting an Indiana law fort walks, the court says: "If sidewalks are exclusively for the use of footmen, then bi idden along them, since to affirm the idewalks are exclusively for the use not be traveled by bicycles. It would be a palpable contradiction to anim that footmen have the exclusive right to use the sidewalks and yet concede that persons not traveling as pedestrians may also rightfully use them. We think, however, that a bicycle must be regarded as a vehicle within the meaning of the law."-N. Y.

The Pet Louse of Ceres The speculators for a rise in the bread

market are making the most of the new wheat parasite that has made its appear ince in the West, and of the large ments of gold to Europe since the begin ning of the year. This wheat louse, they say, is destroying the Western crops, while the drain of gold will seriously interfere with the movement of the crop when har ested. As for the wheat lo nquiry generally finds that its ravages pro tted in "the next county." The eremiad over the drain of gold is an old song which the prophets of evil repeat whenever a few millions are sent abroad. Like any other product, gold obeys the law of supply and demand. As this coantry is one of the largest producers of gold in the world its surplus goes where it is most needed, as is the case with the surplus silver of Mexico and the surplus wool of Australia. Russia and some other govern ents have at present need of much gold in their refunding operations, and they are nands in the money centres of the United tates. There is, besides, just now an ex traordinary demand for the precious metal of American visitors to the Expe When the Exposition shall have clo shall have ended the gold will flow back provided, of course, there should be and provided further that the people of Europe may have nothing better to send in Europe may have nothing better to a exchange for their supplies of new wheat and other products of the United States. -Philadelphia Record.
