It is a very simple operation to bend down a limb and keep it covered with moist earth till it is rooted, and them cut it from the parent tree. If the bent branch is partly cut off or slit up under a bud, or twisted like a withe at the lowest point, it will help both the bending and rooting.

A wire twisted around the layer just below the bottom bud in the ground, and holes punched through above and below the wire, may be made through the layer in the buried portion to stimulate its rooting from the callus of the wounds. The bark sometimes cut nearly around the layer ust below a bud, and bits of wood removed below this cut to induce the formation of a callus, from which roots are emitted. It s sometimes necessary to fasten down stiff branches with a forked peg or a weight.

FASHION EMPORIUM.

We must confess ourselves completely surprised at the way our goods have been selling. On the 6th we opened the largest stock we had ever brought to Butler. On the 20th our shelves were as bare as Mother Hubbard's celebrated cupboard, and necessitated an entire re-stocking at once. To-morrow we open the fresh lot, and there is nothing of the showman's talk about in our warning you to come at once; it is the truth, from the way our goods are selling. Whether we sell because of cheapness, or quality of goods; whether because of the quantity to select from or the knowing how-to-suit customers; whether from any or all of them, is for your eyes and udgment to decide-that we do the business is not doubted.

Just a moment for a word or two on our latest novelties. The newest thing in dress trimmings is the Surah Sash, very wide, and very handsome. We have a fine stock, at moderate prices. They are beautiful. Directoire Hats are being worn a great deal, and they are very becom-

ing to almost any face and figure. Our stock is unsurpassed and would certainly suit the tastes of the most fastidious.

Our Gimp and Laces for dress trimmings are quite in keeping with the extent of our stock in other lines. We have everything worth showing. The price, too, is what tells. While never for a moment sacrificing quality to cheapness, (for our reputation is built on this very thing) we endeavor to supply the best in the market at the most reasonable price. Remember that.
