REPUBLICAN TICKET.

COUNTY. For District Attorney JAMES N. MOORE. For County Surveyor,

C. F. L. MCQUISTION. **Republican Party Prospects.**

In the Forum for July Senator Morrill of Vermont has an interesting article o "Republican Party Prospects." In open ing, the Vermont Senator truly says that the past fidelity and statesmanship of the Republican party need no vindication. It is the future, therefore, together with some

of the many vexed questions which must be considered, with which it deals.

First comes what he calls the "negro problem," which is well illustrated in these rief sentences: "New Hampshire has New Hampshire in 1888 was 90,819 and that of South Carolina was 79,750. Why should South Carolina, with 11,069 less rotes at the polls, have seven electoral

votes and New Hampshire only two?" This is the most important question which the Republican party has to face in the South to-day, and unless the present nistration gives the country decided neasures to prevent the continuance of equality there is likely to be considerable irritation in all the northern states. where the right to vote is regarded as the

undamental principle of government. The evil that Senator Morrill refers to is e driving the negroes from the polls in the South, while at the same time securing ntation for them, and the abuse can nd should be remedied. Section 2 of the ion says:

Constitution says: SEC. II. "Representatives shall be apportioned among the several States according to their respective number, counting the whole number of persons in each State, excluding Indians not taxed; but whenever the right to vote at any election for electors of President and Vice President, or for United States. Representatives in Congress, executive and judicial offices, or the members of the Legislature thereof, is demied to any of the male inhabitants of such State, being twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in rebellion or other crime, the basis of representation which the number of such male citizens shall bear to the whole number of male citizens shall bear to the whole number of male citizens then you have a set of the set of the whole number of male citizens then you have a set of the set of the whole number of male citizens then you have a set of the set of the set of the set of the whole number of male citizens the set of the s
