LOCAL AND GENERAL

Philosophy sometimes can fortitude bring
And keep one's complaining in check,
The boil can be reckoned a very slight thing
That blooms on another chap's neck.

—Did your stove pipe fit?

—Harlansburg has burglars.

—Butler is threatened with two new dentists.

—"No coward ever attained eminence or achieved success."

—The public sales all come in the spring when people intend moving.

—April showers are due. What a novelty (?) they will be this year!

—A patent medicine to cure loss of memory has been invented.

—The pension of Philip A. Drane of Sarversville has been increased.

—The real estate agents are the most self important men in Butler at present.

—The barbers of Butler have organized, for uniform prices and early closing.

—Quite a number of country teams were in town, Tuesday, helping people to move.

—Did you ever count the number of dangerous places on the sidewalks of Main St.

—It is said to be fashionable now to move at night, so that your neighbors can not see your household goods.

—Rubber paving is the latest. It consists of 85 per cent. of ground stone mixed with 15 percent of rubber.

—A new counterfeit 10 cent piece, dated 1887 is in circulation; also a new ten dollar gold piece.

—It's Friday. April 11 and Friday, May 2, that Gov. Beaver has selected as tree-planting days.

—As spring approaches the question arises among villagers, "Shall we make a garden or keep chickens?"

—Saxonburg has now two mails each way daily, arriving at 11 a.m. and 6 p. m. and leaving at 8 a.m. and 2 p.m.

—Most people will heartily agree with a certain health journal—that the wholesomest part of a doughnut is the hole.

—All gold coins which were struck prior to 1834 bring more than face value, including the 1838 eagle, or $10 gold pieces.

—Don't give up all idea of farming this spring. There ain't many candidates and those that are out are all good fellows.

—The Nixon hotel has been almost doubled in capacity and Mr. Nixon is doing a good business.

—Three-thousand tons of coal were taken from the mine at Mt. Pleasant, Pa., Monday.

—The Germania and Grand Army bands which consolidated sometime ago have dissolved partnership.

—Have you seen "Gray Tip." If you are looking for No. 1 Hambletonian stock you should see him.

—The Eureka B. & L. will start a new series to-morrow, Saturday. Books at the office of the Secretary, J. C. Graham.

—Several car loads of Lew Wick's "milk cows" arrived in Butler on All Fools Day.

—A large number of properties changed hands in Butler last week, as see property transfers, in Legal News column.

—Down by Glade Run, last week, a lone fisherman caught an alligator, thirty inches long. He thought he had caught on to McGinty.

—The plowshare game is the latest. You sign your name to an agreement for a patent plowshare and your name turns up at the end of a note.

—Teamsters consider the road to the hundred-foot territory impassable, but with the bottom dropping out of the oil market, the operators are not fretting.

—Put on your specs and look at Heck's little adv. in this paper—it's so small that you won't see it with the naked eye—and after you have found it, read it carefully. He presents facts that are worthy of your consideration. He now has over 4000 feet of floor room in his two store rooms and he has it covered with a stock of clothing that cost him $20,000.

"'Tis evident Winter's still here; tra la,
For sometimes it gives us a sting;
'Tis a little too early we fear, tra la,
For the flowers that bloom in the spring.
Ho! ho! there's no Winter at all, tra la,
We laughed in the gayest of moods.
Perhaps we had better sing small, tra la,
Until we are out of the woods."

DEARER WHEN PAST.

The past and not the present holds
Our hearts and will alway;
The songs that loving minds enfold
Is that of yesterday;
To-day may have its song and dream;
Enjoy them though we try,
They both will somehow dearer seem
When they have vanished by.

—Some new names appear in the announcement column this week.

—Clerks find that gray blotting pads excel all others.

—The County Commissioners fixed the bond of Collector McAboy for this year at $80,000.

—Barney Mulholland fell from a scaffolding at the Plate Glass Works, Wednesday morning and was seriously injured.

—A doctor who discourages nostrums tells his patients to take plenty of buttermilk and get plenty of sleep instead of a spring medicine.

—The second trial of Father Boyle, charged with criminal assault, resulted in a verdict of acquittal at Raleigh, N. C., on Saturday. He had been in jail about 10 months.

—It is said that old Mr. Miller, who owns sixty feet front on Main St., between the Berg & Cypher building and the Reiber property on the corner, was lately offered $20,000 cash for it.

—Some years ago one had to go to Pittsburg for a good baby carriage, but now the best of them can be had in Butler. Johnny Stehle has as good carriages as one need desire.

—We have often wondered why the frames of passenger cars were not made of metal, and are glad to see that a lot of New York and Philadelphia capitalists propose putting five millions into an immense plant for the manufacture of such cars, after the Post patent, at or near Bradford, this State.

—The great storm of last week first struck the northern part of Indian Territory, then traveled eastward through the southern part of Missouri and northern part of Arkansas, then northeast through the northwest corner of Tennessee, nearly the entire length of Kentucky, and scattered over Ohio, West Virginia and Western Pennsylvania.

—The Knights of Pythias had a great time at Evans City last Thursday night. The installation officers began work about 3 o'clock in the afternoon, but as the new lodge started off with forty members, and their goat or mule, or whatever it was, could carry but one at a time, they did not finish the business till nearly six o'clock next morning.

—Charles McCandless of Karns City, a brakeman on the P. & W. R. R. was killed on the track near the depot here last Sunday afternoon. He was helping to switch the cars at the time, and in attempting to jump from one moving car to another fell upon the track, was ran over, and killed almost instantly. He was married, his mother lives on North street, Butler, and his body was taken to Sunbury for burial.

—A unique oratorial contest is to come off in Pittsburg in a few months. Arrangements are being made by all the colleges in Western Pennsylvania to engage in such a contest before the end of June. Any institution is permitted to enter and there will be a preliminary contest in each place to select a representative for the contest. It is very probable that Carnegie Hall, Allegheny, will be used as a battle ground for the candidates for oratorical honors. The contest will likely last two days.

—An exchange says the latest swindle is carried on by means of a double fountain pen, one end of which is filled with good, substantial ink, the other with ink that fades away in a day or two. The sharper writes his agreement, contract, or whatever particular lay he may have chosen, with the ink that fades, and has his victim sign with the other end of the pen in the ink that lasts. In a few days he has a slip of paper with nothing on it but a good signature over which he writes any sort of a note that he can easiest turn into cash. Look out for the fountain pen swindler, for he is dangerous.

—The old remark that the Americans are a nation of colonels has lost much of its force, but few realize that we are rapidly becoming a nation of Knights. Even now you couldn't throw a stone with out hitting a Knight of Labor, or a Knight of Pythias, or a Knight of Honor, or a Knight of the Golden Eagle, or a Knight Templar, or a Knight of the Silver Horn, or a dozen or so other varieties of Knights. Now will some plain man arise and tell us why this craze for Knighthood is so prevalent in a country where every man is a sovereign, and therefore vastly higher in rank than a Knight?—*Ex.*

—An exchange says old rubber shoes, blankets, and all such remains of worn out goods are now collected, and sold to chewing gum manufacturers, who have it melted, the fiber, old buttons, etc., strained out, the rubber skimmed off, and with different varieties of flavoring, for various brands of chewing gum. Old rubber shoes from stables, shoe shops, hospitals, drug stores, barn yards and all places where it is thrown, accumulated and found there, goes with all its associations of use and filth into the mouths of those who have fallen into the disgusting habit of chewing gum at all hours, times and places. And yet it is well that this habit makes a market for so much cast off matter, and this gives employment to the many thousands who are paid for manufacturing chewing gum. Pass the gum!

—The vernal freshness of the world at large was well contrasted with the wiles of a bright and deep woman at Pittsburg last week. A lady of good address and presumably, dazzling beauty, by representing herself as a woman of means wishing to establish herself in Butler in the dry goods and millinery business, got $8,000 or $10,000 worth of goods cut and boxed by the big firms there, and disappeared just at the important time, when the payments would be made, and the goods shipped. She called herself Mrs. Mary McGee and said she had $53,000 deposited in the Butler Savings Bank. She secured the services of a leading salesman in a well known city firm, to take charge of her new store, and had a Philadelphia drummer dancing attendance on her for a week. She was a shrewd and close buyer, and fooled them all. What her game was is not known, but it is evident that she became frightened and left without making a cent.

—Census Supervisors find their power very much curtailed in the matter of the appointment of enumerators, as per orders just issued in a circular. It reads that, inasmuch as there is some misconception existing in certain classes of the community, more especially the agricultural class, in regard to the object of the census, many people thinking that the information gleaned will be used for the purpose of taxation, and such persons being appointed would be tempted to send in incorrect returns, therefore it is ordered by Superintendent Porter that no person, either directly or indirectly concerned in the assessment of property for taxation, shall be recommended for the position of enumerator. The circular concludes with the statement that as many will be thus excluded who could otherwise be excellent enumerators, the interest of the census will make its observance absolutely imperative.

First of April Flittings.

What with the mud on our streets from six to sixteen inches deep, Monday and Tuesday of this week, were terrible days for moving one's household goods, and yet several hundred people in this town had to do it and did do it, though in one or two cases the arrival of an addition to the family put a peremptory veto on such proposed proceeding.

$30,500.

Up to Monday of this week the sale of the Berg property to Christie, and the former sale of the Lowry House were the largest real estate transactions ever made in Butler, but on that day Col. Lowry again sold his hotel building at corner of Main and Jefferson Sts., 60 by 120, to Howard Thompson and Jno. D. Brown, and this time the price is thirty-thousand five hundred dollars. The sale is not yet entirely completed, but probably will be next week when the license is transferred and the new proprietors are to take immediate possession. Col. Lowry bought the property in 1868 from Benj. Jack for $8,000, he sold in '73 to C. G. Cross for $25,000, and bought it back five years after for $18,000. He has been in the hotel business, or owned hotel property in Butler for fifty-one years.

The Sheffield field collapsed and the production of Butler county decreased. The *Derrick's* monthly oil report credits Butler Co. with 93 wells completed during March, 23 of which were dry, and the daily production of the other 70 is put at 1299 bbls, or less, on an average than 20 bbls a day each. The Old Beatty Hotel.

The tearing down of the old Beatty House, or Hotel, of this place marks another feature of Butler's progress. It was one of the first brick houses built in Butler, said to have been erected in the year 1828, by the late Hon. William Beatty, who had been Sheriff of the County and afterwards was a member of Congress. Standing at the south-west corner of Main and Cunningham streets, it was for many years the leading hotel in Butler. Mr. Beatty lived in it and raised a large family there, the only descendants of whom, now living hereabouts, we believe, are the children and grand-children of two of his daughters, Mrs. Robert McNair and Mrs. John McCarnes. His other sons and daughters went West. Mr. Beatty is said to have been a man of many sterling qualities, and was regarded as honest and upright. For many years he had a controlling influence in the Democratic politics of the county. One of the occurrences mentioned by some of our older citizens was the frequent coming to Butler of the late President James Buchanan, and his stopping with Mr. Beatty, who was his warm admirer and strong supporter in this county. On these visits of Mr. Buchanan, the Beatty House would always be crowded. The first sale of the hotel, we learn, was made to Col. Alex. Lowry, which was the means of bringing that gentleman to Butler from Huntingdon county fifty years ago. Jordan Eyth and others followed Col. Lowry in the hotel business. For some years past it has been occupied by stores and offices and is now being demolished to give place to a large and elegant building, to be erected by our enterprising townsman, Mr. Adam Troutman.

The Town Council

Had a long session Tuesday evening, and did not adjourn till near midnight.

The report of the borough auditors was read and referred to the finance committee. An ordinance taxing hacks and carriages was passed. W. T. McCandless and John Herdman were appointed policemen at $60 per month. The tax levy was fixed at 5 mills, which is the limit the law allows. Some board walks were ordered and some plots approved, and a resolution requesting property owners on all streets to present their petitions for paving and sewering on Tuesday, the 15th inst., passed, this looking forward to an election on the subject.

R. P. Scott, attorney for P. & W. F. R., asked that Council vacate that part of Fullerton St. between the railroad and Centre Ave., and make a new street along railroad.

Heydrick & Son's bill of $250, for marking levels for sewerage purposes, was approved.

The chief engineer was instructed to see that the stove pipe ordinance is enforced.

The petition for sidewalks on the east side of Washington St. was approved, and all parties living along the street are to be notified.

Hereafter owners of male dogs will pay the borough $1 for each dog, and owners of female dogs $2, besides the State tax.

A new peddlers ordinance is to be drafted by a committee.

Great Insurance Companies.

It requires study for one to fully comprehend the magnitude of the insurance business. However, it is not our purpose to write an array of bewildering figures, but to note with pleasure the old and powerful companies that protect the homes, business blocks and other property of our citizens. The Guardian Assurance Co., of London, has assets amounting to $21,839,758.

The London Assurance Corporation, organized one hundred and seventy years ago, has assets of $17,662,613. The Insurance Co. of North America, organized in Philadelphia, almost a century ago, represents assets of $9,071,696. Then there is the Continental, of New York, having $5,217,773; the London and Lancashire, $4,009,846; the Springfield, of Mass, $3,410,983; the Franklin, Phil'a, $3,174,357; the Germania, New York, $2,965,136 and the Orient, of Hartford, $1,836,722.

One of the largest financial institution in the world is the New York Life Insurance Co, having assets of over $105,000,000, being thirty millions more than the Bank of England.
