ed in our county papers from time to time, this martyred firm continues to "bob up serenely," criticising the action of the Fair Association and the unjust and villainous course I have pursued to obtain diplomas for the past five years. This I say is absurd. I need use no bribe to gain honors for my goods. They alone speak for themselves and will continue to do so, especially as long as there is nothing fresher in the market than a Behr Bro.'s piano.

I see this firm have in a way endeavored to answer the question I asked in regard to the piano they imported and afterwards shipped back to New York, from whence it came. I wish to say to the public that the proprietors of the Behr piano were dry goods merchants until within eight years ago, when they ventured in the piano business. One Mr. Mullen was secured as superintendent of said firm, and he being the only experienced one among them and Came to the premises of the sub-scribed in Mt. Chestnut, on or about the middle of September, 1890, a red the only experienced one among them an finding the Behr piano was not a success began to experiment. He at last, throng latter thinking the amount too great he asked for the same, refused to buy, where upon Mr. Mullen left said firm and began

This piano is not handled in the Unitestates by a first-class firm; is considered hird class by the profession, and is a States by a first-class firm; is considered third class by the profession, and is as shoddy and light as the people who handle it. Now, can the public understand why the Behr Bros. piano was not recognized at our last Fair?

them to be well made and of good mate and with fair usage for any brea resulting from defective material or w and with fair usage for any breakage resulting from defective material or workmanship we agree to make good either by furnishing a new part to replace the defective or allowing a reasonable price for repairs. Come and see us. We are selling good goods at low prices considering the quality; we are here to stay, and we are here to give every purchaser the worth of his money. We want to build up a trade that will stay with us. In order to do so we will give every person value received. As winter is near we have decided to sell the above goods at reduced prices. We will not carry this stock over if we can realize first cost out of them. Now friends, if you want bargains come and see us. We are here to do business and we mean business. It will pay you to buy this fall, you will save money by so doing. Come and see us whether you want to buy or not, it will do you good to see our large stock of goods. We also sell the rehowned Mitchell wagon; every wagon We sell we give a written guarantee. The firm of Mitchell, Lewis & Co. is one of the oldest wagon firms on record, established in 1834. Their works are in Racine, Wis. Wisconsin is noted for good timber. This wagon material is cut in the proper season for cutting lumber and placed in open sheds and air dried for three years before using, making it perfectly dry before put in wagons. One reason why they are so particular in thoroughly drying their lumber is their trade is principally Southern trade, and we all know it requires better seasoned material for the hot southern states than it does for this country.

The Mitchell wagon has the best material and the best seasoned material of any wagon ever introduced in this country. Come and see them. We were fishing on the sly And caught on the fly,

Just above the eve. Catching a sucker is an easy thing. We are not after that kind of game. The fact is we've got no bait for sucker beit is bargains; genui member; real bargains. We don't use tom. About one man in ten does not trade with us. We're after that one. About one in ten does not know that the

ther nine of his fellow mortals have come to the conclusion that it is always safest to trade with Heck. We ere after that man. About one man in ten does not know that his neighbors are saving money, because they, trade with Heck. We are after that man with a big stock, big bargains with low prices, with fair dealing, and we expect to get his trade. Are you the tenth man? We are after you. We have got the strongest line of first-class goods ever offered for sale in this market. It is this fact and our extra ow prices that makes our present bargain offer the great event of the season. We want smart buyers, sensible people to drop in on us and see us, and see the stock we are handling, look at the goods and get our prices. See what we offer and you will be convinced that our truth is stranger than fiction We depend on facts, not fakes, to win us custom and increase our ever growing business. As we said before we have no bait for suckers. A bright penny will please a child, but you would not think of giving a man a penny; the idea then of offering a man or woman a penny bribe to draw their custom. Yet that is just what is offered where a reputed dollar article is marked at 99 cents or a \$10.00 article is marked \$9.99, or still worse, a reputable 15-cent article marked out only 19 cents or a 25-cent article marked only 29 cents, a 35 cent article marked only 49 cents. These are called that and so they are but only analysis and so they are but only analysis. haits and so they are, but only sucker baits, and you will see suckers jump for miles and swallow them whole. We consider such bait too small go fishing for custom with, too small for a large firm and quite too small or us. Our principle is \$1.00 worth for \$1.00, and we live up to it. We give a premium in the quality of our go ds. That is worth more than a cent's worth of chewing gum. It is now 18 years since we shied our castor into the clothing areas, and in that time we have captured the field of cloth-Store at the lowest figures.

Into the clothing areas, and in that time we have captured the field of clothing down. Where are they now! They have gone to join pterodactyl, icthyol saurus, megasauraus and the rest of the family, and we are here now rooting, not like a hog, but like a tree that gives back in the air what it takes from the soil. Yes, here we are with a stock that can't be surpassed, and challenge all competition on the source of goods and prices.
