The lecture of last Wednesday evenin closed the most successful course of lec-tures ever held in Butler, and that it was so complete a success was greatly due to the efforts of Ira McJunkin, Esq. We had Conwell, the heroic; Cook, the profound; Burdette, the funny; a novelty or two and Willetts—the favorite of Butler audi aces and the best lecturer in America to

as a distinguishing title bears the name of International.

The publishers have expended in the last ten years over \$300,000 in the preparation of this new book before issuing the first copy, and the improvements of the various editions since that of 1847 have cost over three-fourths of a million of dollars for editing, illustrating, type-setting and electrotyping alone.

The new Dictionary is the best book of its kind in the English language. It unlocks mysterics, resolves doubts, and decides disputes. The possession of it and the habit of consulting it will tend to promote knowledge, literary taste and social refinement. For every family, the members of which have mastered the art of reading, the purchase of Webster's International Dictionary will prove a profitable investment, and the more they advance in knowledge and cultivation the more they ill appreciate its aid and worth.
