and do it with one-third less power. Besides this it can be worked on any hill that a team of horses can be worked on. You cannot upset it. It weighs from 400 to 600 pounds less than the elevator binders. This is an impor-tant feature on soft ground as well as hilly ground. There are one-third less parts to be run than on elevator binders, consequently the expense of nture wear and tear is one-third less. Call and see sample binder.

BINDER TWINE.
