Abram Prosser, of Missouri, an old soldier and son of Major Prosser, paid his friends here and Centerville a flying visit last week.

Local and General.

Last month was said to be the warmest September in twenty years.

A Harrisville company is drilling for gas on the Black farm, about a mile south of the town.

Our long dry spell was ended, Monday night, by a quiet and cooling rain, and there was some frost Tuesday night.

The lower floor of the Army building will be fitted up as an Opera House, and Mr. Root is organizing a company with the intention of rebuilding.

A false alarm of fire Wednesday afternoon called the people to the street, where they were entertained by a fierce fight between two big dogs.

A horned owl flew into an Oil City restaurant last evening. Night owls fall of horns are not unusual signs in autumn.

An exchange advises people who wish to escape the heat to go into the cellar and stay there, and makes no charge for the advice.

The Glads Anti-Tobacco and Temperance Society will hold its annual meeting, on Friday evening Oct. 16.

Don't get scared. A note made by a chimney swallow in a sheet-iron stove scared three Connecticut women—mother and daughters—to death a few nights ago.

Butler has no opera house at present, and yet "Romero and Juliet" is presented to admiring audiences, every day and evening, in the show window of L. Stein & Son.

Our fellow citizens of Main street have done remarkably well as to relating their sidewalks and changing them to grade, but there are yet a few humps and hollows in the street that make the walking unenjoyable and will make it dangerous during the icy days of midwinter.

The County Commissioners of the State held their fifth annual convention in Lancaster on Tuesday and Wednesday of this week. The sessions were devoted to the discussion of subjects relative to county government and taxation.

Mr. Root lost the property which, we understand, was his for the sum of \$2,000, also his household furniture, clothing, etc., and he estimates his entire loss at about \$10,000, with no insurance whatever, he having allowed that to expire a year ago.

A slight current of air from the south carried the heat and sparks across the street to the old Miller furniture factory and the stable back of it. The stable was entirely consumed, and the furniture factory partially. The firemen did remarkably good work here, and the Miller family are under great obligations to them.

The residence of Mr. Jos. Dalph on the south side of the building, and but a few feet from it, was saved by the liberal use of water, and by the air current, that carried the heat in the opposite direction.

A strong wind that night would have carried destruction with it, and that whole neighborhood can feel thankful that it did not exist.

All the fire companies and also the Hook and Ladder Co. were promptly on hand, and some of the boys stayed on guard all night. There was plenty of water, and no delay was experienced during the progress of the fire excepting in coupling the hose.

The walls of the old church building, excepting the rear wall, which was torn down when it was changed into an Opera House, are yet standing.

A citizen of the town furnishes us with the following history of the old church.

An Episode.

On Tuesday evening of this week three Pittsburg business men—a wholesale liquor man, a wholesale clothing man and a wholesale grocer—arrived in Butler by the last train. They were in a jolly good humor, and they wandered their way up street, grippacks in hand, joking and laughing, to the hall of a certain business building and started in to be aroused and asked to stand in the doorway, and he asked them if they had not made a mistake, but they guessed not and went on, and he, having heard some complaints regarding the doings in one of his rooms, which had been rented to a dressmaker, loved them and saw them enter the room. Then he called the Chief of Police, and told him to go to that room and arrest everybody in it, and the Chief did so, and a few minutes after the whole crowd—three men and two women—were in the Justice's office, and an information was made against the dressmaker, who gives her name as R. N. Thompson, for disorderly conduct and she was fined \$13. The women promised to vacate the premises. The name of the other woman who was arrested is McDowell, but no charge was made against her.

A third woman arrived on the scene just too late to be arrested and stood outside the Justice's office during the hearing, and the grocer said he could not see why he should have been arrested when his girl had not come yet.

By the way, Mr. McAbey had an unusually busy day, Tuesday—Early in the morning a married woman of Butler made information against her husband for desertion, and a warrant was issued for him; next a young widow of the west end, named Graham, swore a new baby on a young man of the town and he was arrested and held for court; then came the wedding of an Allegheny county couple; then two hearings in collection cases; then a charge of embezzlement preferred by a Southside butcher named Decker against his partner named Weisop and the partner had a hearing and was committed to jail, and winding up that evening with the hearing in the case noted above.
