

# State Librarian THE BUTLER HERALD

BUTLER, PA., FRIDAY, JANUARY 15, 1892.

NO. 11

VOL. XXIX.

## PROFESSIONAL CARDS.

**JOSEPH W. MILLER, M. D.**  
Physician and Surgeon.  
Office and residence at 209 S. Main St. Butler, Pa.

**Dr. N. M. HOOPER,**  
187 E. Wayne St., office hours, 10 to 12 M. and 1 to 3 P. M.

**L. M. REINSEL, M. D.**  
Physician and Surgeon.  
Office and residence at 127 E. Cunningham St.

**L. BLACK,**  
Physician and Surgeon.  
New Troutman Building, Butler, Pa.

**E. N. LEAKE, M. D.**  
Physician and Surgeon.  
Office at No. 44 S. Main street, over Frank & Co's Drug Store, Butler, Pa.

**DRS. LEAKE & MANN,**  
Butler, Pa.

**G. M. ZIMMERMAN,**  
Physician and Surgeon.  
Office at No. 44 S. Main street, over Frank & Co's Drug Store, Butler, Pa.

**SAMUEL M. BIPPUS,**  
Physician and Surgeon.  
No. 22 East Jefferson St., Butler, Pa.

**V. McALLPINE,**  
Dentist.  
Is now permanently located at 120 South Main Street, Butler, Pa., in rooms formerly occupied by Dr. Waldron.

**DR. S. A. JOHNSTON,**  
DENTIST, - - BUTLER, PA.  
Gold Filling, Painless Extraction of Teeth and all Dental Work without Pain. A specialty. Nitrous Oxide or Violated Air of Local Anesthesia used. Office over Millers grocery east of Lowry Hardware Store, Butler, Pa. Office closed Wednesday and Thursday.

**J. J. DONALDSON, Dentist.**  
Butler, Penn'a.  
Artificial Teeth inserted on the latest improved plan. Gold Filling a specialty. Office over Schultz's Clothing Store.

**C. F. L. McQUISTION,**  
ENGINEER AND SURVEYOR.  
OFFICE NEAR DIAMOND, BUTLER, PA.

**A. B. C. McFARLAND,**  
ATTY AT LAW AND Notary Public, on S. Diamond St., opposite the Court House—second door.

**H. Q. WALKER,**  
Attorney-at-Law—Office in Diamond Block, Butler, Pa.

**J. M. PAINTER,**  
Attorney-at-Law.  
Office—Between Postoffice and Diamond, Butler, Pa.

**A. T. SCOTT,**  
ATTORNEY-AT-LAW.  
Office at No. 8, South Diamond, Butler, Pa.

**A. M. CHRISTLEY,**  
ATTORNEY AT LAW.  
Office second door, Anderson Bk. Main St., near Court House, Butler, Pa.

**J. W. HUTCHISON,**  
ATTORNEY AT LAW.  
Office on second floor of the Hamilton block, Diamond, Butler, Pa., Room No. 1.

**IRA McJUNKIN,**  
Attorney at Law, Office at No. 17, East Jefferson St., Butler, Pa.

**FOR SALE.**  
LOTS. I will offer for sale a number of lots situated on the high ground adjacent to H. H. Goucher, Esq., and the Ophelia Home. The land is laid out in squares of something like 100 feet front and 100 feet deep. These lots are offered at very reasonable prices, and on terms to suit purchasers. Those who wish to see the lots can be accommodated.  
Also—I will sell my farm in Summit township situated within one-half mile of the Butler and Erie roads, containing 100 acres of land, with a good house, barn, and other outbuildings. For further information in regard to either of these properties, call on J. C. Sullivan, 22 E. North Street, Butler, Pa.

## FURNITURE

Thanking you for last year's patronage, and wishing you a prosperous new year.

We intend trying to increase our trade for 1892 by greatly reducing prices on many goods. Save money by buying this month.

Yours Truly,

**Campbell & Templeton,**  
136 N. Main St., - - Butler, Pa.

## FREE!

A Handsome Three-quarter Life-size Crayon Portrait Free.

As a compliment to our many patrons, and the public generally, for a short time we are going to give to every purchaser of Ten dollars worth of goods a

**FINE THREE-QUARTER LIFE-SIZE CRAYON PORTRAIT.**

There is not a family but possesses some picture of Father, Mother, Brother or Sister which they would like to have reproduced in a life-like and durable manner. Call at once and see specimen at our store.

What more suitable for a present? And as our liberal offer will insure immediate orders in large numbers, your early visit is desired.

To secure one of these portraits, you first trade Ten Dollars worth with us, and then give us any picture of yourself or friends that you wish to have enlarged. The frame (samples of which you will see in our store) together with the glass and mounting will only cost you \$2.75.

These portraits are made by the celebrated Acme Copying Company, 203 and 204 West Van Buren Street, Chicago, Ill., which is a guarantee of quality of work we intend to give you.

## RITTER & RALSTON WOOL BOOTS

AND  
Perfection Heel & Tap Overs  
\$2.00 TWO DOLLARS \$2.00  
PER PAIR

**FOR THE COMBINATION.**

We offer the Farmers of Butler Co., this season the greatest value for the money they have ever had.

The Boots are the heaviest and best made and are fitted with joint and back stay of leather. They are all wool and seamless, made mammoth size and then felled down to the proper dimensions. They combine Softness, Pliability and Durability and will keep your feet warm the coldest day.

**CANDEE BUCKLE OVERS.**

This well known brand of overs, which forms over one half of the great combination needs no comment as to their quality. Every one knows that they are one of the best makes of rubber goods on the market to day. Their style is that of a buckle ankle boot. The buckle is a patent clasp. They have solid Heels and Taps. The taps over extra thick at the ball where the most wear comes.

We will sell either pair of the combination separately for \$1.00 per pair. This will give those who have boots but no shoes a chance to buy the best shoes at low wholesale prices and vice versa.

A last word. Don't delay in buying. We have lots of these goods now but not telling how long they will last at these prices.

## A-L-R-U-F-F.

114 South Main Street, Butler, Pa

**FOR THE HOLIDAYS ONLY JEWELRY, SILVERWARE,**

Purchasers can save from 25 to 50 per cent by purchasing their watches, clocks and spectacles of

**J. R. GRIEB, The Jeweler,**  
No. 125 N. Main St., - Duffy Block.

Sign of Electric Bell and Clock.

Remember our Repairing Department—20 years Experience.

## MY DEAREST FOE.

OCTOBER, 1891.  
I can't say why, except that man, Adam, will do what he shouldn't. While others thought Miss D. so nice I couldn't.

It wasn't that she pinched or dyed; she didn't say more than I did. Nor did she smoke, or wear skirts divided.

Nor were, so far as I could see, her stockings blue, nor red her tresses. Nor did she have a red nose in dress.

Nor was it that I ever found her fringe in curl the least bit lacking. Or chanced to note her shoes in need of lacing.

She'd none of these faults; yet dislike grew into hate. I couldn't stop it. Nor can I tell the reason now. Or better.

That she was handsome, I'll admit. And looked at times a very good girl. Nay, more, a Venus plus a saint. And bodice.

Her lips were like Diana's bow. Her dark eyes were like a Juno. She walked like I forget her name—But you know.

And I must faint admit, although I couldn't help it, that I was a little bit in love with her. She was a clever girl, and sang Divine.

And I was rubicund and plain. As a snake when out of situations. And envied those who could achieve Furtiveness.

Yet when by some ill-chance we met My ready pulse declined to flutter. And I'd no other wish than to meet To cut her.

While she delighted to invent Some horrible nickname to dub me. And ended with a smile every chance To snub me.

I had no reason in the world To hate Miss Stubbs. And she had no reason as much As I had.

But this I know, though fourteen years Should be our lot, I still feel friends. Miss D. and I will never be friends. That's certain.

Dear reader—if so long you've waited—There's only one line more to add. We're married.

—Pall Mall Gazette.

HAT I was considerably surprised when I heard of Joe's marriage, I said I didn't know. I didn't know he had a wife. I didn't know he had a child. I didn't know he had a house.

There is not a family but possesses some picture of Father, Mother, Brother or Sister which they would like to have reproduced in a life-like and durable manner. Call at once and see specimen at our store.

What more suitable for a present? And as our liberal offer will insure immediate orders in large numbers, your early visit is desired.

To secure one of these portraits, you first trade Ten Dollars worth with us, and then give us any picture of yourself or friends that you wish to have enlarged. The frame (samples of which you will see in our store) together with the glass and mounting will only cost you \$2.75.

## FOR COAST DEFENSE.

The Monterey Nearing Completion at San Francisco.

The Most Powerful Vessel of its Kind Ever Constructed in the United States—Whom the Great Britain—Other War Ships.

The new double-turreted, twin-screw, armored coast defense vessel here illustrated was launched in May last, at the Union Iron works, San Francisco, and is now fast nearing completion. She is designed to afford a floating defense of the highest character for the magnificent harbor of San Francisco, while also available for similar service anywhere on the coast, and would probably have been named after the principal city, had not this name been already given to a new cruiser. As it is, she takes the name of the coast town which was the capital of Upper California when the territory was taken possession of by the United States more than forty years ago.

The bids for the construction of this vessel were opened April 3, 1889, the Cramps, the Quintard Iron works and the San Francisco Union Iron works competing, the contract being awarded the latter firm on their bid of \$1,028,500, with the provision that \$100,000 be paid for every inch of armor power over the stipulated amount and \$100 deducted for every unit less than this.

The Monterey, says the Scientific American, is of the low freeboard type, presenting but little surface to receive the fire of an enemy's guns, and has a curved steel deck to give her further protection. She is constructed entirely of steel, and has a double bottom throughout, with 110 watertight compartments in her hull that can readily be filled with water, submerging the vessel until only about one foot of her sides shows above water. Her displacement is 4,000 tons, but in fighting trim it will be 4,400 tons. Her general dimensions are: Length over all, 391 feet; on load water, 326 feet; extreme breadth, 50 feet; mean breadth, 30 feet; draft, 18 feet. She has an armor belt which is 13 inches thick amidships, diminishing at the bow and stern, the maximum thickness extending over the steam machinery and the ammunition.

The engines of the vessel are designed to give 5,400 indicated horse power, with forced draught, which will make a speed of fifteen or sixteen knots, and be able to carry sufficient coal to travel over 600 miles, at a rate of nine knots per hour being designed to allow her to cover a distance of about 2,700 miles. She has no sail power, her single sail being used only for observation and signaling, and to carry machine guns and a search light.

The propelling engines are triple expansion, the cylinders being 27, 41 and 65 inches diameter respectively, and the stroke 30 inches, there being two of these engines, each driving a screw. The twin screws at a speed of 100 revolutions per minute on a steam pressure of 160 pounds per square inch. There are two main steel boilers, 11 feet in diameter and 10 feet 7 inches long each, and four smaller tubular boilers. The fire room is under pressure to give the forced draught, which is required, and the ventilation throughout is effected by a large blower, doing away with all funnels. The hatches are closed by hydraulic cylinders. The electric light plant consists of three units, each unit embracing an engine, dynamo and combination belt plate, and several search lights.

The armament of the vessel is to be as follows: Two 12-inch breech-loading rifled guns, with 18-inch steel armor protection and 18-inch steel armor belt, each firing a projectile weighing 850 pounds, with a powder charge of 425 pounds; two 10-inch breech-loading rifles, mounted on 18-inch steel armor protection and 18-inch steel armor belt, each firing a projectile weighing 500 pounds, with a powder charge of 250 pounds. There are also to be six 6-pounder rapid-firing rifles, four 37-millimeter Hotchkiss revolving cannon, and two 1-pound rapid-firing rifles.

By far the deepest Lake known in the world is Lake Baikal, in Siberia. It is in every way comparable with some of the great lakes of America, for while its area is only one-half that of the largest of our five great lakes, and about the exact equal of Lake Erie, in superficial extent, its enormous depth, 4,000 to 5,000 feet, makes the total volume of its waters almost equal to those of Lake Superior. Its level is 1,500 feet above that of the Pacific ocean, but, notwithstanding, its bottom is more than 3,000 feet below it. There are many other deep lakes in the world, but no so far as the Lake Baikal is concerned, it is the deepest. Lake Baikal is 3,000 feet deep, Lake Como 2,000 and Lago di Garda, another Italian lake, nearly 1,500 feet in depth. Lake Constance averages about 1,000 feet, Lake Superior and Michigan about 800 feet.

The snail has the greatest number of teeth. It has been proved to possess 30,000 in its mouth, which without a glass looks very innocent.

The Point of View. "What a world of change this is!" sighed Mr. Billus, looking over an old newspaper.

"And how little I get hold of!" sighed Mr. Billus, looking over her old gown. —Chicago Tribune.

The Priest—This man is so tipsy he can hardly stand. I can't marry you to him. "What would you do if you were in my shoes?" asked the perplexed Chicago girl of her St. Louis friend.

"Change them for a smaller pair," was the concluding reply.—Detroit Free Press.

No Time for Delay. The Priest—This man is so tipsy he can hardly stand. I can't marry you to him. "What would you do if you were in my shoes?" asked the perplexed Chicago girl of her St. Louis friend.

"Change them for a smaller pair," was the concluding reply.—Detroit Free Press.

"DO YOU WANT ME TO STAY?"

side housekeeper" in the world. Mrs. Joe can do things I can't.

And Ellie took her place as queen of the little home kingdom.

"Never touch an electric wire that has fallen down across your way while you are standing on the ground, as your body will become a conductor for the electric current to the earth, unless you have rubber boots upon your feet. Line men are sometimes seen pulling these wires about, but they have insulating gloves on their hands, and are covered with like material upon their hands, and some people, supposing these covering to be only used for protection against the wet weather, have foolishly grasped the wires and received severe shocks in consequence. Don't employ a carpenter or ordinary laborer, nor do you yourself attempt to fix any electric apparatus of any power about your property, whether the current is turned on or not. Electric wires should be handled one at a time. If it is necessary to take hold of two wires at the same time don't do it. In handling or drawing any wire lying on the ground, be sure to take hold of one wire, especially such as convey currents for electric lighting, use a dry hand line for the purpose, or grasp the wire with insulated gloves, which when the wires are received severe shocks in consequence. Don't employ a carpenter or ordinary laborer, nor do you yourself attempt to fix any electric apparatus of any power about your property, whether the current is turned on or not. Don't employ a carpenter or ordinary laborer, nor do you yourself attempt to fix any electric apparatus of any power about your property, whether the current is turned on or not. Electric wires should be handled one at a time. If it is necessary to take hold of two wires at the same time don't do it. In handling or drawing any wire lying on the ground, be sure to take hold of one wire, especially such as convey currents for electric lighting, use a dry hand line for the purpose, or grasp the wire with insulated gloves, which when the wires are received severe shocks in consequence.
