As many if not more different styles shown as any two houses in Butler.

This stock was selected with the greatest care from the best manufactures in this country, they are not bought with only one object in view, namely low price and shoddy goods, low prices and solid good goods. SOME LITTLE DEALERS

Seem to have only one object in view, that is to see how low priced shoddy stuff they can pick up of odds and ends, and then advertise it as all solid water resisters, etc. They should advertise them as specially adopted for riding in not walking.

Our Ladies', Misses' and Children's Shoes are marvels of beauty, the prices very low. Ladies' fine shoes 90c, \$1.00, \$1.25, \$1.50 and \$2.00. Misses fine shoes 90c, \$1.00 and \$1.25 sizes 12 to 2. Infants and children's 25c, 50, 75 and \$1.00.

Our Kip Calf, Oil and Glove Grain Shoes. These goods speak for themselves as thousands will testify too that have worn them all over Butler county. They have good body of stock otherwise they would not resist the cold and wet for the boys and girls that have a long road to school, families that use these goods don't have only

one pair to buy during the season, and NO DOCTORS BILLS TO PAY. Men's, Boys' and Youths' Boots and Shoes.

Men's, Boys' and Youths' Boots and Shoes.

See our men's heavy shoes at 70c and \$1.00. See our men's heavy grain 2 soles and tap at \$1.25 and \$1.50. See our Men's fine shoes tip or plain at \$1.00 to \$1.25, and a host of other finer line are beauties.

Mr. Levy is as wonderful a performer upon the cornet as ever. His solos tonight electrified the people. He seems to be one of the few men who can get sweetness and poetic feeling out of the cornet as well as martial clangor and stirring appeal. It is said that Miss Raymond who will appear at the exposition later on, in addition to being a remarkably fine figure of a woman, as the

Some idea of the range and character of these personally conducted world tours may be gleaned from the ittinerary which Mr. Cromwell announces. It includes visits to Paris, London, Chicago and the wild West, Rome, Berlin, Sweden and Norway, Italy, Jerusalem and the Holy Land, Ireland, Switzerland, and a host of other interesting cities and lands. All these places are brought before the audicince through the medium of immense photo graphic views. Professor Cromwell's stereopticon is a superb instrument and the pictures he produces with it are realistic to a degree. Nor does he deal with cold bricks and mortar, or in animate nature exclusively; when he takes you into England he shows you the home-life of its people, and his lectures of Paris include such interesting excursions from the beaten track as glimpses of the great World's Fair held there recently, which it is Chicago's ambition to eclipse.
