UR annual clearance sale of Fall and Winter goods is now on.

YOUR OWN PRICE

THE prices of all leather goods 'also have come unnder the knife. You can now buy Children's School Shoes and Men and Women's Winter Goods for LESS THAN THEIR COST to us. The only way to tell anything about the justness of the price is to see the article and the price together. Money is said to talk and if it does its voice is louder and clearer in our place of business than elsewhere, because its purchasing power is so much greater. There is only one way to convince yourself, that way is now open to you.

We are approaching the days of all the year, the days when the air is freighted with the perfumery of flowers, and everything is symbolic of Peace and Good Will. In this respect these days remble our shoes. Their Good Will is shown by their willingness to stand by you, as long as you stand in them. Quality, not price is cheapness, and we believe our prices quality considered to be the lowest in Butler.

MOHICAN KING. Record 2.37‡ in a race on a half-mile track. Paints, and see what we have to offer. We can save you dollars on J. C. REDICK, Main St., next to Hotel Lowry.

Record 2.37‡ in a race on a half-mile track.

Sired by Mambrino King, the greatest livingsire of demonstrated race horses, and the handsomest horse in the world. Thirteen sons and
daughters of this great horse made records better than 2.30 last season, including the great
mare, Nightingale—2.10½ made In the fourth
heat of a race. They are bread winners. They
are the handsomest class of horses on earth.

"Mohican King's dam was sired by a son of
Hambletonian (10) called Mohican, who was the
sire of five great race horses, showing that the
blood lines which go to make up Mohican
King's remarkable pedigree have and will train
on, trot on and win on, besides being famous
for their beauty and fine finish.

I started Mohoan King in five races last fall
getting a piece of the money every time, and
won the largest purse and best race he started
in, which certainly ou ght to be a credit to any
horse for the first season. He is like his sire,
a beautiful dark chestnut, very handsome,
heavy boned, well muscled, and has greet tung
power. His colts are all stamped closely after
himself, speedy and fine looking.

This horse will make the season of 1836 in
Butler, Fa. Terms, 325 to insure. No accountability for accidents. Will be found in the
Scott Barn, in the alley north of the Wick
House Livery Barn.

9459. Record, 2:35 at 4 years. Sired by Lord Russel, full brother to Maud S, 2.08?. Record, 2:35 at 4 years. Sired by Lord Russel, full brother to Mand S, 2:08?.

STORM BIRD is half brother to the mighty Kremlin, 2:07?, king of trotting stallions. His dam has a trotting record of 2:26?, and his grand dams are the greatest brood mares that ever lived. Each are the dams of stallions having one hundred in the list. The two together have 614 of their descendants in the 30 list and hold 43 of the world's records. He is a grand individuel and a trotting-bred trotter, combining in his pedigree the two most fashionable and intense trotting families in the world. He is a rich cherry bay, 1b½ hands high, perfectly sound, strong and handsome.

He will be found at my barn, 3½ miles northeast of Prospect, the three first days of each week, and the last at the Butler Fair Grounds during the season of 1893, at the very low terms of \$35 to insure.

A Word Concerning Glanders.

Glanders is among the worst disease which can attack horses, being incurable, and certainly causing death sooner or lat-It also attacks men, with the same re sult. We notice several cases have developed in horses in Indiana county recently nd there has been one case in Brookville The first indication of the disease is usualy a watery discharge from the horse's left stril. Inside of three weeks cup-like ulcers will form in the nostril, followed by discharge of yellowish matter. The horse will have a cough, and usually a welling under the left jaw. He will probably eat as well as usual, and not fall way in flesh. At the very first indication of the approach of the disease the animal ould be seperated from all others, and veterinary surgeon be called to examine . No glandered horse should be permitted in a field where other horses are to be pastured, as the diseased matter will be left on the grass, to come in contact with the healthy animals. As soon as the disease is known to be glanders the animal should be killed without delay. This state allows a maximum price of \$20 to owners of glandered and killed. The disease started in London two years ago, last year reached New York, and is now spreading brough the country. Let every owner orses watch it closely. Too much care annot be taken. Don't get angry. Every burst of passion shortens life's span one inch.

Be moderate in all things and temperate in your habits. Remember, "sleep is nature's kind restorer," and if you would live long, sleep long.

Above all take care of yourself. If you are not feeling well there is something wrong and nature needs to be stimulated in her work.
