piping gas, the natural product of our county, into town, and furnishing it to the town for light and fuel at exhorbitant rates. This mercenary corporation which has fastened its deadly fangs on the vitals of the financial interests of our town established itself among us by donating a share of stock each to two of our citizens and engaging in its employ such persons as would best serve its interests in drawing to itself patronage for the purpose of extracting from the people high prices for gas, and transmitting to the city of Buffalo some \$60,000 annually, to fill the maw of their foreign mercenary master. To-day this same foreign power which so lately exercised autocratic independence, is, through its paid emmisaries, carrying missions of its magnannity to the doors of its victims.

The determination of a few of our local citizens who compose the Citizens Gas

The determination of a few of our local The determination of a few of our local citizens who compose the Citizens Gas Company to relieve the people from the necessity of paying tribute to foreign capitalists, pursuaded this warm hearted Buffalo corporation that it would be policy to furnish the people of Butlet with cheap gas to warm themselves by during the summer? Such a selfish piece of generosity on the part of a foreign mercenary power which forced from the people exhorbitant rates for gas during the long winter months should be regarded with suspicion and deserves the contempt of every good the article was nicked or ticked off the list. The open air entertainment thus be came known as "pick and nick." The cus tom is said to have dated from 1802, so that the picnic is wholly an institution -The Citizens Natural Gas Company ha recently secured territory about one mile fourths of a mile in width, along the Fifth and deserves the contempt of every go sitizen of our town. The men connect citizen of our town. The men connected with this corporation knowing its highly deserved unpopularity with the people, have drawn to its aid a local ally in its attempt to drive the Citizens Gas. Company from the field in order that it may regain its former prestige. The Citizens Gas Comgany has established reasonable rates which it guarantees it will not exceed for a period of ten years, thus giving the people the assurance of low rates of gas. Neither of the old companies give any assurance that their present low rates will even continue for a month. The people, now as never before; have an opportunity not only of proving their loyalty to home enterprize and capital, but securing for themselves Sand Gas Belt in Summit twp., northeas by north, from Herman Station This stretch of land lies on a line between the Fisher Fifth Sander, on the Eichenland

discovery in the history of the Natural gas business in Butler county. The wells referred to are comparatively light in volume; but it is only a question of open, porous sand, and wells will be struck of of proving their loyalty to home enterprize in and capital, but securing for themselves reasonable rates for gas in the future, and by so doing keeping their capital at home. The drain of foreign corporations upon this town is enormous.

It is to the interest of every citizen to keep as much of his money at home as possible, to aid in the building up of the town, and sustaining home interprize and ed within the limits of the county. The Herold well has a pressure of 860 lbs. Let that vicinity, and the result will be instantaneous rock-pressure, or a volume of 860 lbs as quickly as the gate can be closed. ly double in volume of that of the largest well ever struck in the county; and that is

possible, to aid in the building up of the town, and sustaining home interprize and industries. The Citizens Gas Company is assured of an abundant supply of gas. It is the purpose of the Company to pipe the entire town and give every citizen an opportunity of making a choice of whether he will support the Company that has been the means of reducing the price of gas and secure continued reduction or by paying their money to a foreign corporation, they will again subject them selves to toreign capitalists and take their chances of paying high rates again in the future. This is a question the people will be called on to decide. With the decision and financial support of the people in its favor the Citizens Gas Company will be an assured and permanent success. Will your continue to send your money of to Buffalo ust what is going to happen some day in naracteristic push in securing the farms

ANEXPLANATION.

The price of wheat at the time we began to advertise our new departure (Get "ACARD") was just about as it is now. At any rate, no decline has taken place. How does it come, reader, that dealers are offering Flour so much lower now than several weeks ago and are rushing into print to tell everybody? That's easy, you answer, because Klinglers have initiated a revolution in the Flour business in Butler, and have brought down the price so low that an have brought down the price so low that have brought down the price anget near it. Why, we will sell you flour and Feed and everything we handle at the price the dealer pays. Do you understand now why no dealer can sell you the same grade of Flour, or anything else, as low as we can't Klingler's are first hands. The dealers are second hands.

JUST GET "A CARD" AND SEE FOR YOUR SELF.

We are sorly to make anyone procond

s properly sworn to:
"This is to certify that I have made an This is to certify that. I have made an analysis of — Flour, submitted by Mr. Klingler. The ingredients with which I found the above — Flour adulturated are as follows: Sulphuric acid, alumina, copper, (iron.) I consider all of the above chemicals (except perhaps iron) injurious to the human system if on taken occasionly, and if used regularly will bring about serious disorders of the stomach. The adulterations may be added to the flour, to give the bread abetter appearance, deceiving the consum er.

Avoid the heat and dust by traveling on the Floating Palaces of the Detroit & Cleveland Steam Navigation Company. Two new steel passenger steamers have just been built for this Upper Lake route, costing \$300,000 each, and are guaranteed to be the grandest, largest, safest and fastest steamers on the Lakes; speed 20 miles per hour, running time between Cleveland, Toledo and Chicago less than 50 hours. Four trips per week between Toledo, Detroit, Alpena, Mackinac, Petoskey and Chicago. Dally trips between Detroit and Cleveland; during July and August double daily service will be maintained, giving a daylight ride across Lake Erie. Daily service between Cleveland and Put-in-Bay. First-class stateroom accommodations and menu, and exceedingly low Round Trip Rates. The palatial equipment, the luxury of the appointments makes traveling on these steamers thoroughly enjoyable. Send for illustrated pamphlet. Address A. A. Schantz, G.P. A., Detroit & Cleveland Steam Nav. Co., Detroit, Mich.
