—Peaches are said by an enthusiast and lever of the fruit to be a tonic, an aperient, a food and a drink combined; or, to put it briefly, they are meat and medicine. A good meal may be made on peaches, with sugar and cream, bread and butter. After a meal of this variety a person will feel more like attending to the duties of the afternoon than if he or she indulged in heavy foods. Peaches are good before breakfast or after dinner; they are good for the digestion, good for the blood and good for the complexion. Some people est them without cream or sugar and with good result. The fruit is so rich in sugar and soid that it preserves its flavor a long while, but to get the full benefit it should be esten as soon as it is cut. Redness of the nose, due to congestion, inflamed complexion, scrofulous and billious tendencies are said to be materially influenced by a liberal consumption of this lucious fruit. Half Rates and Fast Trains to Chlcago Fair via Pennsylvania Railroad.

Fair via Pennsylvania Railroad.

The popular excursions to Chicago which are being run by the Pennsylvania Railroad seem to furnish exactly what the people want. The first two trains were well patronized, and as the vacation season is now well advanced the remaining excursions will undoubtedly attract a much larger number of passengers.

A decided improvement in train schedule which accelerates it so as to deliver the passengers in Chicago at an early hour the following afternoon, places the special train almost on an equality in the matter of speed with the best express trains.

The special trains are composed of the standard coaches for which the Pennsylvania Railroad is famous. Only one night is passed on the road, and the arrival in Chicago is so timed as to give abundant opportunity for engaging quarters before nightfall.

The dates of the next excursions are August 23d, Sedtember 4th. 10th, 18th, 25th, The special train will leave Washington 10.15 a. m., Baltimore 11.10 a. m., stopping at York, Harrisburg, Lewistown Junction, and Tyrone, arriving in Chicago early the next alternoon. The excursion rate good only on the special train and valid for return within ten days, is \$17 from Washington and Baltimore, and proportionately low from other stations.

This arrangement also applies to all principal stations on the Baltimore and Potomac Railroad, and Northern Central-Railway between Baltimore and Elmira, Philadelphia and Erie Railroad between Williamsport and Renovo, and principal stations on the main line and branches between Harrisburg and Pittsburg.

No one should fail to visit the Fair with such facilities at hand. The dates of the next excursions are
