KLINGLERS BREAK THE RECORD.

Who Can Beat It? Farmers, a Word to You!

A Butler lady bakes two dollars and sixty cents worth of bread out of one sack of Sxow Drift Flour. This was no test case either, and was reported to us only yesterday. We have always contended that there was no Flour like Sxow Drift for the price. You can easily satisfy yourself. Buy every socalled cheap Flour that is offered or advertised, and then try a sack of Sxow Drift. We know of scores of people who have been thoroughly convinced in this manner. Do not lorget that we are selling Sxow Drift below its retail value. Some anxious folks say we can and will not continue to do so, and that when the year is up on the "card" plan, we will not issue any more "feards." Just read the following which explains itself:

SILVER FOAM was all we claimed for it. All the ladnes who have since baked SILVER FOAM for themselves have found it the
best flour they ever used. It is positively
the highest grade of Flour manufactured,
and is not only extremely white, but contains all the constituent elements of a palatable and wholesome bread.

The product of our mills bring us the
most flattering testimonials. We just received a letter from Ex-Governor McGill,
of Minnespolis, Minnesota, in which he

"FLOUR RECEIVED AND PARS OUT BEAUTI FULLY."

We ship to the finest trade in the United States. Yes, even dealers buy our flour for their own use, while they sell the so-called "cheap makes" of other mills to their customers. By the way some of these dealers live in Butler.

Now to all the good words about our Flour, must be added the better sentiment that the price as others say, is "midiculous."

that the price as others say, is "ridiculous ly low." The "card" explains the cost The times are hard. Then why delay! A WORD TO FARMERS.
