WITHOUT THE

Non-pull-out

BOW (RING)

it is easy to steal or ring watches from the pocket. The thief gets the watch in one hand, the chain in the other and gives a short, quick jerk—the ring slips off the watch stem, and away goes the watch, leaving the victim only the chain.

This idea stopped that little game:

The bow has a groove on each end. A collar runs down inside the pendant (stem) and fits into the grooves, firmly locking the bow to the pendant, so that it cannot be pulled or twisted off.

THE CITIZEN

A New Money.

Then up rose Mr. Peffer,
From that flat and windy State,
And wanted to inject himself
Into the great debate.

"I move," he said, "a motion
That will settle this dispute,
And give the country money
Which is warranted to suit.

"I've tried to have established
A mint for coining hay,
Or oats or wheat or taters,
In promises to pay.

"But somehow all my efforts
Have thus far been in vain;
And now I come as final
With one that gives me pain.

"But we are patriotic,
And make a sacrifice.
If the people who demand it
Desire to pay the price.

"Therefore, I move a motion
To-wit, thereby, herein,
Resolved we coin as money
The whiskers on my chin!"
[Great applause.]

Fun With Rattlers.

Close to the Delaware river skirting the edge of Wayne county at certain seasons hundreds of rattlesnakes may be seen swimming the stream, seemingly making for the New York state side of the river, and good marksmen here find fine sport popping the reptiles over in midstream. The reason for these snakes coming to the Pennsylvania side of the river for the purpose of rearing their young has never been discovered but the truth is nevertheless evident as it has been noticed by all old hunters and dwellers along the Delaware that these much dreaded snakes pull for the New York shore when the leaves begin to fall in October. It is not an uncommon spectacle at this season to witness young urchins heading off the snakes on the shore as they make for a landing, pelting them with sticks and stones and in nearly all cases getting the better of them owing to their tired condition after so long a swim.

Not far from her habitation Mrs. Fannie Abams of Manchester, near the Delaware, accidently ran upon a huge rock in the woods and to her surprise and horror saw curled in a knot on the top of the flat surface of the rock a mass of rattlesnakes, all lying still in the sun. Arming herself with a club she determined to kill the entire coil of reptiles. At them she went with all her might, putting all her strength to the task. Her bravery was rewarded by the killing of no less than twelve poisonous rattlers. This record of snake killing has not been equalled by any one along the Delaware and the story is told by the woman's family and corroborated by exhibiting the skins of the snakes.

Remedial Use of Apples.

Chemically the apple is composed of vegetable fiber, albumen, sugar, gum chlorophyl, malic acid, gallic acid, lime, and much water. Furthermore, the German analysts say that the apple contains a larger percentage of phosphorus than any other fruit or vegetable. The phosphorus is admirably adopted for renewing the essential nervous matter—lecithin—of the brain and spinal cord. It is, perhaps, for the same reason, rudely understood, that old Scandinavian traditions represent the apple as the food of the gods, who, when they felt themselves to be growing feeble and infirm, resorted to this fruit, for renewing their powers of mind and body. Also, the acids of the apple are of singular use for men of sedentary habits, whose livers are sluggish in action, those acids serving to eliminate from the body noxious matters, which, if retained, would make the brain heavy and dull, or bring about jaundice or skin eruptions and other allied troubles. Some such experience must have have led to the custom of taking apple sauce with roast pork, rich goose, and like dishes. The malic acid of ripe apples, either raw or cooked, will neutralize any excess of chalky matter engendered by eating too much meat. It is also the fact that such ripe fruits as the apple, the pear, and the plum, when taken ripe and without sugar, diminish acidity in the stomach, rather than provoke it. Their vegetable sauces and juices are converted into alkaline carbonates, which tend to counteract acidity.

Drunkenness, the Liquor Habit, Positively Cured by administering Dr. Haines "Golden Specific."

It is manufactured as a powder, which can be given in a glass of beer, a cup of coffee or tea, or in food, without the knowledge of the patient. It is absolutely harmless, and will affect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. It has been given in thousands of cases, and in every instance a perfect cure has followed. It never fails. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. Cures guaranteed. 48 page book of particulars free. Address, Golden Specific Co., 185 Race St., Cincinnati O.

For the Lawyers.

In the incident related below, a boy twelve years old conquered a smart and shrewd lawyer fighting for a bad cause.

Walter was the important witness, and one of the lawyers, after cross-questioning him severely said:

"Your father has been talking to you and telling you how to testify, hasn't he?

"Yes," said the boy.

"Now," said the lawyer, "just tell us how your father told you to testify."

"Well," said the boy, modestly, "father told me that the lawyers would try and tangle me, but if I would just be careful and tell the truth I could tell the same thing every time."

The lawyer didn't try to tangle up that boy any more.

—A young man down east hung himself because some people found fault with him. If that practice would become general the trees would be full of preachers, school teachers and country editors.

—A woman says that a man can be a senior wrangler and acquire fame as an authority on the most abstruse subjects, but he cannot answer the questions of a three-year-old child without revealing his ignorance.

—Your true friend will tell you of your faults and endeavor to have you mend them. The fellow who wants to use you will scout the idea of your having faults until his purposes are gained, then he will say you are a fool. Truth is a plain, blunt sort of a chap who makes few friends, but flattery is an excellent fellow, who makes a friend of everybody.

—A large and fine specimen of the orang-outang has been added to the excellent zoological collection at Philadelphia. He has long whiskers, will drink nothing but the finest flavored coffee, and might easily be mistaken for a ward politician.

—Edwin Booth considered no man happy until he could enjoy the success of his enemies. That is equivalent to saying there are mighty few of us happy.

—The total mileage of the Pennsylvania system, according to the Chief Engineer Brown is 9,000 miles.

—Tramps have become such a nuisance on coal and freight trains between Reading and Phoenixville that the train crews are arming for protection, both of themselves and their employers' property.

—The settlers and ranchmen in the vicinity of Owen, Wy., complain that stock is killed in great numbers by bears. Hunters are not after these animals, as there is no bounty for them.

—The power of the guns of the Columbia may be appreciated when it is stated that she could when ten miles distant bombard a city.

The Physical Strain Involved in High Speeds.

The exaction that modern railroad speed makes on the physical stamina of railroad men is demonstrated in the fact that seven engineers are required to take the Chicago flyer out and seven back, says the Boston *Transcript*. The running time between New York and Chicago is twenty hours and the average speed is forty-eight miles an hour. Each engineer and engine runs three hours. Machine and man return with a slow train to their starting point to relieve the strain on both. Then the engineer is given forty hours' rest before he goes on the flyer again. The rest is absolute, no work of any kind being required of the engineer. Though the average speed is forty-eight miles an hour, the locomotive must at some points be driven at sixty or more. The physical strain on the men in the cab at those bursts of speed must be something terrible. The engineer has fifty things to look out for, and being shaken and swayed all the time. The fireman is constantly feeding the insatiate furnace. On the run of the Empire State express three tons of coal are shoveled from the tender into the furnace between New York and Albany. It is not wonderful that the engineers of this train are given alternate days for rest and recuperation. Fast travel not only wears out rails and machines, but human creatures' lives.

Consumption Surely Cured.

To THE EDITOR:—Please inform your readers that I have a positive remedy for the above-named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their Express and P. O. address. Respectfully, T. A. SLOCUM, M. C., 181 Pearl St., N. Y.

The Frost on the Pumpkin.

The young man was prematurely gray, and was not a little proud of it. "Looks quite poetic, don't you think?" he could not forbear asking of the young woman he was calling on.

"It does remind me of a certain poem, I must admit," said she.

"And what poem is that?"

"When the frost is on the pumpkin."

And his hair went on whitening at a more rapid rate than ever.

NOVEMBER DAYS.

November is a month of rainy, disagreeable days. The damp, cold air penetrates everywhere and chills the blood, laying the system open to the danger of colds, pneumonia and kindred complaints. There is but one remedy that stimulates the system and fortifies it against such attacks, and that is whiskey. Not such a whiskey as is generally palmed off on the public, but a whiskey of known purity and quality. Such a whiskey is Klein's Silver Age, Duquesne or Bear Creek Ryes. These whiskies have been before the public for many years and find favor wherever purity is required. Physicians prescribe them; hospitals use them, and every reputable dealer sells them.

They are for sale at $1.50, $1.25 and $1.00 per quart respectively. Send for a complete catalogue and price list of all liquors mailed free. All goods neatly boxed and expressed anywhere. Address

MAX KLEIN,
82 Federal Street, Allegeny, Pa.

A Good Story.

Someone tells of a dude on a passenger train, who, seeing a young lady whom he thought to be impressed with his personal charms, crossed over and took a seat beside her and said:

"Havn't I met you somewhere before?"

To which she replied, in a voice heard by the other passengers:

"I am not quite sure, but I think you are the man that stole our spoons."

The passengers laughed and the dude left the car.

Remedy Against Epilepsy.

S. A. Siminoff (*Med. Obosr.*, xxxix., 1893, No. 4, pp. 391-2) details three cases of epilepsy cured by him by the administration of an infusion of common tansey. He has also used this decoction with good effect in cases of neurasthenia, where valerian had ceased to be effective. A glassful of the infusion of the herb (either fresh or dried) is given to the patient at night and in the morning.

UP TO A CERTAIN POINT in the progress of Consumption, Dr. Pierce's Golden Medical Discovery is a positive remedy. Even in the most advanced cases, it gives comfort and relief; and where other medicines only relieve, this will *cure*.

But delay is dangerous, with Consumption. In all the conditions that lead to it, the "Discovery" is the remedy. With severe, lingering Coughs or Weak Lungs, nothing acts so promptly. Every disease that can be reached through the blood yields to this medicine. The Scrofulous affection of the lungs that's called Consumption is one of them. For this, and for every other form of Scrofula, for all blood-taints and disorders, and all chronic Bronchial, Throat, and Lung affections, the "Discovery" is the only remedy so certain that it can be *guaranteed*. If it ever fails to benefit or cure, you have your money back.

Can anything else be "just as good" for you to buy? Don't believe it.

Dr. Sage's Remedy positively *cures* Catarrh.

FOOLING THE PEOPLE.

There is a clique of advertisers who are continually fooling the people. They have fooled them once too often with a pretense to give something for nothing. You may fool some of the people all the time—and all of the people some of the time, but you can't fool all the people all the time. In looking over the advertisements in the papers nowaday, I find I have lost my laurels. Now I will tell you the truth. You will see hundreds of such baits flung out for suckers to bite at, such as, "We can save you 25 per cent by trading with us," and some even go so far as to say 50 per cent. Men's fine suits worth $25.00 for only $9 99. Pants worth $8 00 only $3 99. Bankrupt Sales, Sheriff Sales, Assignees Sale, &c. Now we ask you candidly. Can these concerns doing business at fabulous expense, sacrifice profits as a great many advertise to do? Are they as liberal as they propose to be? We answer no. The enormous sums required to meet current expenses must be met by liberal and in most cases by heavy margins. Profits they must have and trade they must get or sink in the whirlpool they have created by their own hands. There is no alternative, get the profit and get the trade, but how? In no other way than working on the weak minds of the people by flaming advertisements. They boldly and shamelessly claim to actually give the dear people $3 00 in value for one invested. Such unprincipled actions are becoming not only tiresome, but positively dangerous to the welfare and interest of the buying public. On careful inspection you will find these $25 00 suits reduced to only $9 99 are dear at eight dollars. I saw an ad stating men's fine worsted suits reduced from $10 00 to $6 00. I called to see them and found our $3 75 cotton suit. When we offer you a suit for $10.00 that is all it is worth or ever was worth. We just give you one dollar's worth of goods for 100 cents.

You want to see our immense stock of overcoats and suits for men, boys and children. Hats and caps in endless variety, shirts, collars and cuffs, and ties, any and every style to suit even the most fastidious; underwear, hosiery, overalls, jackets, gloves, mittens, umbrellas, suspenders, in fact anything in the furnishing line; also a fine line of ladies and gents gold and silver watches, chains, charms, pins, rings, collar and cuff buttons, scarf pins, initial pins, all at the very lowest cash prices. All we ask is an inspection of our goods and prices before purchasing. We have always done you good and feel confident we can do so again. To those who have been trading with us, we tender our most heartfelt thanks, and to those who never have, we would say, try us once and you will never regret it.
