SWAYNE'S OINTMENT OF

Every patriotic citizen should give his

personal effort and influence to increase the circulation of his home paper which teaches the American policy of Protection. It is his duty to aid in this respect in every way possible. After the home paper is taken care of, why not subscribe for the AMERICAN ECONOMIST, published by the American Protective Tariff League? One of its correspondents says: "No true American can get along without it. I consider it the reatest and truest political teacher in

the United States." Send postal card request for free
