xplored, which made them feel that they nimself in the bunker of anthracite coalsese resources are well nigh exhausted The winds as a propelling power have become obsolete, have taken their place nong the genii, the myths, the supesti tions of the past. Steam is striking its tents and will soon fall into iunocuous ressing that it can no longer supply them buring the next fifty years it will become reminiscence. The electric spark is to be the working energy of the twentieth century. It has just crossed our threshold with letters of introduction from students of cientific prestidigitations, and we have

The world is not loitering, it is takin ese strange things are happening, for to

But no less marvelous are the spiritus sarted that there never was an age of such religious fervor as this. We are not optimists, but impartial critics, when we say that the average man is more interested i finding out whether or not he has a soul and if so, what is to become of it, than ever before. The largest hall in New York can be readily filled if the subject discuss-The observer of current opinion is amazed at the attractive quality of these and similar topics, and is forced to the conclusion that the general appetite for information con cerning the future has become almos whetted. In some respects it is the most

reverently inquiritive age of which history bears record. Scepticism veils its face because it is impotent; ridicule sneers in pr vate, but seldom openly, sarcasm has discovered that the edge of its sword is dulled light or wrong, pleased with fables or not his teased and fretted world is looking enxiously for some light which the pulpits of Christendom do not as yet furnish. The greed for facts concerning to-morrow, and the solicitude with which men and women watch for them, are so pathetic that they

Accompanying this new phrase of life is an indifference to theology and to conven-tional worship Preachers are not apparplace in the public mind. They wender why their pews are not filled and attribute it to the indifference of the people to spiritual things. But when two tables are ther with food, that fails to do so, it is not surprising that the hungry go where nere blindness for the preacher to declare that no one is hungry because no one asks Frances Willard: Labor is the life of lite. for the food he provides. There is no love "Ease is the way to disease." "The highof theology, no reverence for creeds in this
est life of an organ lies in the fullest dis

opby and Christian ience and a score of other names is sin ply a cry for help. We may not acceptany one of the theories which are advocate ed, we may find fault with them all as be ing partly alluring and partly hideous that is a matter of small consequence Watch the patient crowds that attend meetings where such subjects are treated and you will soon discover that a great religious revolution is in silent progress.

That fact is one to which a thoughtful

man must give his attention, tor it consti tutes a sign of the times which no critic can afford to ignore. It is not prudent to be over hasty udgment. The wise man has no prejuturn out to be right, and charity will save him many a pang. This is a large world,

have no right to say, "Believe as I do," That is tyranny and folly. There are oth-If men are searching for truth in any d nnobling, and if they have taken the tiny of the soul let them gather whatever numbers they please. Ring the
