Early Fall

A NNOUNCEMENT.

Never in the history of this country was clothing so cheap as now. The hard times of the past year were the means of bringing the cost of raw wool down to a level with raw cotton. Labor suffered correspondingly. The manufacturers were anxious to unload their big stocks on hand, and consequently we had opportunities enough to buy our fall stock at our own prices. We bought lots of them and bought them cheap. We intend to sell lots of them and sell them cheap. Everything is quoted at astonishingly low prices. Call on us when in town.
