Dishonesty the Nation's Peril.

Anybody who has been but a casual observer of events in this country must have been forcibly impressed with the recent growing tendency to dishonesty and down-right villainy in politics, official life, corresponsibility and private business tions. There may be as many honany period of the country's history, but it ooks as if there were certainly an ang-

menting number of rank rascals.

This is seen first in the almost entir lack of honesty, honorand patriotism among politicians, the men who run the political ions to state and national conventions. Politics has become a word to which noody but an ignoramus or a sophisticate office seeker attributes any element but that of dishonesty and fraud. It means a scheme of designing men to get the offices rob the people. In the elder days of the and were accorded some degree of honor and sense of responsibility to their constituencies. They were to a large degree, at east, actuated by a patriotic desire to ac tizens, with a good name to preserve and hand down to posterity. Pro-bably that feeling and motive is somewhat it remains, it is neither conspicuous nor emphatic. Men now seek office "for what gard to the good of their constituents They connive and combine to get the supty, because those elements represent the the victims of demagogy for the sake or votes, and the selfish partisans among the so-called better classes fall into line so as to be on the winning side. Officials thus elected cannot be expected to administer public affairs with much reference to anyhing but their own selfish interests. 1 cannot be expected that they will be much ter than their constituencies. The efprostitute legislation to partisan ends, which are usually those of compromise with cliques which conspire to rob the people and fatten the conspirators. It also enables a lot of mediocre or low grade, uncipled men to get into office, and thus the body politic is permeated with dishon esty and what is almost as bad, prainless,

"THP best thing I remember connecte from Yale, I thought I would lead a life of social ease. I thought I would read and write a little, take it easy and have a good time. I had a hard-hearted old father of sturdy Holland Dutch ancestry He had money enough to take care of me, and I knew it; and when he discovered that I get a dollar from me except through my will. From this time forth you have got to make your own way.' Well, I found I one-and the old gentleman stood by and let me fight it out. I bless him to-night that. If he had taken the other course been up in Peekskill to-night nursing a stove, cursing the men who have succeed ed in the world, and wondering by wha exceptional luck they had got on. But having to dig my way along, I got beyond was done by 14 to 16 or 18 hour's work a day, if necessary. It was done by temperance, by economy. When you make collar, spend 75 cents and put 25 by.

A male child eight inches long, and perfectly formed, was found; mb doed in the tissues. This was removed and hopes were entertained that Nevins' fine physical condition would come to his aid and help him to recover.

The doctors believe that for 34 years Nevins sustained the life of his imprisoned brother. Then, in some way, the connecting ligaments were broken and the death of the baby ensued. The suffering of Neyins arose from the presence of this foreign substance. At last this suffering became so poignant that an operation was came so poignant that an operation wa

Have the largest stock of Vehicles, Harness and Farm Machinery of any house in the county. We defy any firm to show a better line of goods for less money. Our stock was selected to suit this trade. Our prices are as low as the lowest, quality considered. Our profits are small and our reputation at stake, so you can rest assured we will not misrepresent. We add a percentage on our goods and sell them according to what they cost us. We serve all alike. We do not make one man pay for what we lose on another. When we guarantee goods we make good our guarantee. We protect our customers, and not the manufacturers. Why? Because the manufacturers are of no use to us without the customers. If you want a Buggy, ourry, Phæton, Business, Pleasure or Team Wagon, Hand or Machine Sewed Harness, or anything in the Harness line, Blankets, Robes, Dusters, Nets, Turf Goods, Currying Tools, Whips, Saddles, Trunks, Valises, Satchels, &c., we have them in large quantities and at low prices. And for Farm Machinery, we can furnish anything needed, from the plow to the separator. We guarantee our machinery to be as good as the best and second to none. If in need of anything in our line, write us. We will answer all inquiry, either by mail or in person. Shoes for the Young Folks, Boys, Youths, Misses and Children.

We aim to have Style and Service combined in our stock of shoes for Young Folks. The time was when children's shoes looked as if they had been made by the mile and cut off in chunks. But in hese days of advanced shoe making, shoes for the little folks, like hose of their parents, are made to fit the feet neatly and comfortably. Three things are requisite in a well-run business; Knowledge of Markets, Money to Pay Quickly and Willingness to take Small Profits. That these requisites are combined in the management of our children's departments is proven by the fact that they will out-wear any other shoes sold for the price. Have your children try them and be
