Admirsion, 25C. "The Place for the People," The Restaurant will be under the management of W. --lass in every particular and popular prices charged.

IN order to make room for rhe immense stock of fall and win ter goods that we have bought, we will make up our summer and medium weight goods at prices much below their real value, Now is the time for you to get a suit, or pair of trousers for less than you cin buy them elsewhere. We guarantee a perfect fit and satisfactios in each and every particular. This offer holds good until 1st of

should take care to be healthy. One very strong reason is that beauty and illness are very seldom found together. Illness—and especially the kind peculiar to women—makes the complexion bad, the eyes dull and sunken, the manner listless and the intellect dull. No woman in this condition can be at-tractive to her friends. Personal ap-pearance counts for much, but comfort amounts to even more. What's the good of living if one cannot enjoy anything? If headaches and backaches and drag-ging weariness and pain accompany even slight fatigue? If the system is constantly subjected to a debilitating drain, where is the If the system is constantly subjected to a debilitating drain, where is the energy to come from to make enjoyment possible? Personal comfort and a consideration for the feelings of others are two of the incentives to an effort to secure health

that drape the neck like delicate lace the seal of years of slow mellowing, that If the illness is in any way connected with the purely feminine organism (and the chances are ten to one that it is) Dr. Pierce's Favorite Prescription will s a different matter. The walls of Mr rantaire's spider house are covered with vire squares from six inches to a foot cross, and behind these screens the wall re covered with rough planking. There

Dr. Pierce's pavorite Prescription win Dr. Pierce has used the "Prescription" in his practice for thirty years with un-broken success. A large book written by him entitled "Woman and Her Dis-eases" will be sent (securely scaled, in plain envelope) to those who will send this notice and ten cents to part pay postage, to WORLD'S DISPERSARY MEDI-CAL ASSOCIATION, No. 663 Main Street. Buffalo, N. Y. are cracks between the boards apparently eft with design, and their weatherbeater urfaces are dotted with knot holes and plintered crevices. Long tables running he length of the room are covered with small wire frames, wooden boxes an glass jars. All of these wires in the room

HUMPHREYS are covered with patterns of lace drapery, n the geometrical outlines fashioned b phreys' Specifics are scientifically and prepased Remedies, used for years in he spider artists. The sunlight stream ing through the door shows the room hung with cartains of elfin-woven lacework.

It is not all kinds of spiders that make

THE CITIZEN. Bacteria in Eggs.

Spider Farming

It has been reserved for Dr. McClintock, of the University of Michigan, to point ou that not even that dainty adjunct to the breakfast table-the egg-is free from the Although entomologists have often raisravages of the "ubiquitous microbe." d spiders for purposes of scientific obser-Hitherto this article has been consumed in vation and investigation, spider raising as a money making industry is something happy ignorance, but the result of Dr, Me-Clintock's investigation will be to seriousrather novel. One has only to go four miles from Philadelphia, on the old Lanly interfere with the peace of mind of many. In an evil moment the doctor caster pike, says a Phila. paper, and ask took up the task of ascertaining whether for the farm of Pierre Grantaire to see what can be found nowhere else in this eggs were infected with bacteria, and if so whether before they were laid or not. country, and abroad only in a little French healthy laying hea was obtained, and rillage in the Departm ut of the Loire. Pierre Grantaire furnishes spiders at se after repeated washings in a sublimate solution, she was placed in a sterilized nuch per hundred for distribution in the cage. The hen laid regularly every other wine vaults of the merchants and the nouveaux riches. His trade is chiefly day, and the eggs were obtained as soo as possible after being laid and some with the whole sale merchant. who is able them wrapped in sterilized cotton and to stock a cellar with new, shining, freshplaced in an incubator. All these egg ly labeled bottles, and in three months became decomposed and swarmed with see them veiled with filmy cobwebs, so bacteria. Other eggs taken from the her that the effect of 20 years of storage as soon as laid were broken and culture secured at a small cost. The effect made from their contents. Some of thes apon a customer can be imagined, and is culture tubes developed; others remaine hardly to be measured in dollars and sterile. Some day - atter the Len was kil cents. It is a triffing matter to cover ed, and with due precautions, culture the bins with dust, but to cover them tubes were inoculated from various po with cobwebs spun from cork to cork, and tions of the oviduct. Most of these tube

developed. The evidence here seems to point to th fact that the egg was inoculated during it passage down the oviduct before the shell was formed. It does not, of course, follow that all eggs contain microbes, nor doe it follow that even where bacteria are present they are in any way harmful. I s a matter of common knowledge that eggs kept excluded from the air will keep indefinitely. It is, moreove difficult to understand how the experime ter succeeded in completely sterilizing hi

hen and her cage, and, it he succeeded in that temporarily, in keeping her steril The feathers of the bird, especially whe shut up, would offer the more favorable medium for propagating bacteria, and s quite possible that hence came th

microbes. Bnt. after all is sa'd, what we want to know is the utility of information

Sailor Hats Mourning Goods a Specialty. Sailor Hats Only 10c.

Special Fall Announcement For the Season of 1895.

Amazing Bargains, cur purpose to sell low, our purpose to sell much, our purpose to sell now -that's the secret.

We get it from all sides—"You're doing a phenomenal business." It's not ac ci dent. We're meeting the wants of the people by putting prices down and keeping them down. It takes courage, but brings business. We offer for your selection this fall one of the largest, most elegant stock of dress goods, ladies', children's and Misses' wraps ever brought to Bulter. It is only necessary to mention that they are the celebrated Rothchild garments, the only perfect fitting wrap ever shown in But-ler. Ladies in bygone days had to go to Pittsburg to get a genuine Rothchild wrap, but for the past two years we have the exclusive sale of Rothchild wraps in Butter. The public generally know what that name means. Perfect fitting, latest designs, best quality, at prices that will compete with any garment shown in the town of Butler. Our Millinery Department will still be under the able supervision of Mrs. Lou M. Ritter. This assures our patrons that we are in position now, as heretofore, to give them choice styles, new styles, exclusive styles, at our wellknown heretoiore, to give them choice styles, new styles, exclusive styles, at our wellknown popular prices. Ostrich feathers have been advancing right along. We bought our winter stock of ostrich feathers early in June, before the advance; also our velvets. This is to be a season for ostrich feathers and velvet. We can save you by our lucky early purchase 25 per cent on the dollar on all millinery goods. For dress goods I wish space would permit our telling you of the visions of beauty, style and elegance that our dress goods department is brim full of Beautiful Boucle cloths in black and colors. Fall crepons, crevanettes, heavy serges, fine serges, Henricitas and new Fall novelty dress goods, choice designs in novelty dress patterns. Our stock of blankets, flaunels, yarus, haps, hosiery, underwear, notions, triumings and domestics was never so complete or prices so reasonable. See our exhibit at Butler fair. Call at the popular store of
