There is no mystery whatever about the heavy shipments of gold to Europe, the ntiqued depletion of the Treasury reserve and the consequent necessity of another national debt. The shameful inadequacy of the Democratic tariff is the primary cause of the whole difficulty. The total exports of American products from Jan. 1, 1895. 10 Sept. 15 Yere 201 514 600 1. 1895, to Sept. 15 were \$21,514,693 less than they were for the corresponding period of last year. The total imports of foreign products from Jan. 1, to Sept. 15 was \$61,-529,800 more than they were for the same months of 1894. The direct loss to this and in the increase of the amount it has Pittsburg was amongst cus paid for foreign goods in the past eight

Of course, under a tariff which cuts down our sales abroad and swells our purchases abroad at the combined rate of ten millions a month, we must ship great quantities of gold to flurope. European merchants and manufacturers demand bard cash for their had better take a timely warning. products. If we boy of them under the Democratic tariff, instead of buying of our own countrymen, as we did under the Mc-Kinley law, we necessarily set in operation an endless drain of gold from these shores. This fact has been repeatedly pointed out by protectionists. Free traders have sneeringly declared that it was not a fact but a fallacy, since under a lower tariff we were certain to increase our exports until we had conquered 'the markets of the world.' We have the lower tariff, but we are selling fer less of our products abroad than we did under Republican protection. In other words, we are robbing ourselves, injuring our own manufacturers and emptyour National Treasury in order to benefit Europe.

## Political Notes.

The Syracuse, New York, convention opened with prayer. "It was the first time in years," says an old attendant, that prayer was said in a Democratic state convention. As a sign of awakening to the wickedness of the party all good citizens will commend the manifestation. The expressions of some of the Republic

can newspapers in the Huntingdon-Mifflin judicial district indicate that there will be two Republican candidates foru Jdge there, both Judge Willismson, of Huntingdon and H. J. Culbertson, of Mifflin, running. Such a result, if that is what it is to be, must be charged to the conferree system under which it is a good deal easier not to make a nomination than it is to make one time with typhoid fever, but his sufferings were ended on Friday evening and taken some seventy ballots, each candidate receiving three votes. Notwithstanding the fact that there are 4,000 Republican votes in Huntingdon county and only 2200 in Millin, the latter county has anly 2200 in Millio, the latter county has

"THERE was a Government in existence within the limits of my State during the late war that I find no mention of in the histories," says Mr. F, M. Holden, of Mississippi. "In the early days of secession the County of Jones, through its leading citizens, withdrew from the Confederacy, declared themselves a free and independent people, organized a Government, adopted a constitution modeled after tla the United States, called this new Government "the Republic of Jones," elected a president and a full quota of officials, and retused to furnish men or money to the Bouthern cause. On the approach of Confederate troops they would retreat to the swamps and other inaccessable places, and remain in hiding till the danger had sed. They kept up this queer attitude of hostility to their own brethern, so far as am informed, to the close of the war; but the Republic of Jones passel out of the memory of men with event at Ap-
