McCANDLESS' HEAVE CURE

I have a Heave Cure that will cure any

I have a Heave Cure that will cure any case of heaves in borses in forty days, used according to directions, and if it does ot do what I claim for it, I will refund he amount paid and no charges will be ade for the treatment. The following estimonials are the strongest proof of the edic.nes power to cure:

A. J. McCandless,
Buder, Pa., 1893.

MR. A. J. McCandless:

On the 2nd day of April, 1892, I commenced to use your new cure for one of my borses that had the heaves very bad, and continued to use the medicine for about or the strongest proof them. It is now about a year since I quit givin the medicine and the horse has never sowed and reins of heaves, and I feel stissic that he is properly cured.

Butler, Pa.,

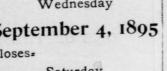

April 3, 1893.

A. J. McCandless:

April 3, 1873

A. J. McCanoless:

I have used your Heave Cure and focult will do the work if used according to disting. Yours truly,

and distress. It is a periectly hearty health goes through her time of trial with comparative ease. The same are troubled more of them sould be tortured when doing the one thing which makes them wholly womanly. The perversion of nature's laws has brought this suffering about, and a return to right living will stop it.

Nine out of ten women are troubled more or less by weakness and diseases peculiar to their sex. It is so because they do not take proper care of themselves—because they neglect little ills and little precautions. A woman in perfectly hearty health goes through her time of trial with comparative ease. The thing to do then, is to make all expectant mothers healthy— to strengthen them generally and locally. The medicine and tonic to do it with is Doctor Pierce's Favorite Prescription.

may. There is no reason why lbirth should be

Pierce's Favorite Prescription.

It is a powerful invigorant and nervine.

It soothes and strengthens the nerves and acts directly on the feminine organism in a way which fits it for the proper and regular performance of all its functions Taken during gestation it robs child-birth of its dangers to both mother and child, by preparing the system for de-livery thereby shortening labor, lessen-ing pain and abbreviating the period of configuration.

THE CITIZEN.

A 27x19 Foot Squash.

(The following was written by a sub-Last spring our worthy townsman Mr.

Last spring our worthy townsman Mr.

an organization for the purpose of mutual H. planted a hill of California mammoth improvement. H. J. Klinger of this place squashes, close to a pile of manure on his was elected president, and D. G. Shryock, stable lot, and the squashes came up in due of Meadville, secretary and treasurer. time and were hoed once by Mr. H. On his next visit to the vines he found that the bugs had eaten ail the vines except one stalk, this one he dressed up in the squash for seed as the variety was a rare eleven tens for a \$10 0bill.

one. To protect the vine from the further

"The new woman" sa ravages of the bugs he raked some loose nanure over it, leaving the vine covered. Being called away from home for some time he forgot all about the squash vine, and as he kept a horse and a cow, he continued to throw the manure on the pile. the gate with a kiss and a smile like the Several times during the summer he remarked to his wife that the manure pile door in a dingy old calico wrapper and was increasing very rapidly, but he thought nothing of the matter until it began to attract the attention of the neigh- to need oiling inquires, 'did you bring that bors. By this time he began to think he batter.' was throwing out too much bedding straw and he would use a little more economy but to no avail, the pile kept getting big-ger and bigger. Mr. H. called to his aid ___No r Prof. M. with the view of having the matter scientifically investigated and after Mr. H. had told the Prof. what he knew of the situation, he (the Prof) became somewhat mysterious, and said I have come to the conclusion that the increase in the size of the manure pile is due solely taken steps to organize and build to a fungi-mush-room growth. Prof. M. gave | church. a fine description of the fungi and its growth techincally and scientifically explain ing and showing that by reason of the hot dry summer, the great heat caused spon tanious warmth, thereby producing the fungi, and advising Mr. H. however, to

not disturb the pile until Fall, letting the fungi increase, as it was of the kind that made good fertilizer, and this Mr. H. agreed to do. The Prof. was mistaken as the first to find it out will be those who the sequel will show. List week Mr. H. live nearest to him. began to haul out the manure and had taken only a fork full or two of it off the that he begins to wrap the small bills on pile when his fork came in contact with the outside of his roll. a hard smooth surface, that seemed quite solid. Remembering what the Prof, had told him in regard to the fungi and not blame if he gets soaked. knowing exactly what this thing meant he came to the conclusion that it alluded some kind of an amphibious animal or monster ready to spring upon him with-out a moments notice. This thought —If some men would aused him to give a yell that would put a shame on an alchohol drinking Indian Squaw-man. This brought his neighbors flocking around to see what the trouble was. A few words of explanation told the story, and feeling their number sufficient to stand against any odds, even old Nick himself, they proceeded to help Mr. H. to clear up the mystery, and in a short time there was brought to view a squash of prodigious dimensions and of the California Mammoth variety. A more astonished lot of people could not be ound, and after the excitement had passed off, some one got a tape line and the quash was measured and found to be 19 eet in diameter and 27 feet long. Large numbers are flocking to Mr. H's, to see this phenomenal squash and he has been offer ed a large sum for it by parties who want to take it to Pittsburg and place it on exnibition in the Exposition. This abn mal growth can only be accounted for by the fact that the vine grew under the nanure. This may cause a new era in quash culture, and new wonders may be liscovered when the squash is opened

What may be brought to light at that time what the price of the squash seed will

be will begiven in this paper. W. Easily Cured.
