THE CITIZEN.
They Missed Each Other.

A well-dressed woman walked into the crooked building yesterday afternoon and took an elevator. Her husband saw her from across the street, and hurrying over took the next elevator. He went to the office where he knew his wife had business, and found that she had stepped in and out again and went down in the next elevator.

As he mentioned his wife had gone down, and the elevator dispatcher said: "Your husband just went up in the elevator. I think he is looking for you."

The lady took the next elevator up. Just then her husband came down. He looked all around, and then inquired of the elevator man: "Have you seen my wife here?"

"Yes, she just went up this minute."

The man took the next elevator, and he was no more than out of sight till his wife came down again.

"Your husband has just gone up again," said the elevator man.

"I guess he'll wait for me this time, so I'll go up," and she went.

Down came her husband a second time.

"Did my wife come down again?" he inquired.

"Yes, and just went up again. She thought you would wait for her."

"Well, I'll wait here."

He waited for five minutes and then, growing impatient, took an elevator upstairs. She had been waiting for him and came down again just as he appeared.

"Well, I will wait for and catch him this time," she said.

After standing in the corridor several minutes she decided to go up stairs and find him. As she whirled out of sight he stopped out of another elevator.

"Your wife has just gone up," said the elevator man.

The husband swore a little under his breath and started to leave the building. At the door he hesitated, changed his mind and took the next elevator up. Down came his wife at the same moment.

"He's just gone up again," said the elevator man's answer to her weary look of inquiry, "and he's mad as a hornet."

"Then I had better go right up and catch him," she said.

Up she went and down he came.

"Just went up," remarked the elevator man.

"I'm blanked if I'm going up again," said he. "I'll wait right here," and he sat down on the stairs. Half an hour later he was still sitting there, and his wife, equally determined, was waiting for him up stairs.

"I hope they'll meet in heaven," remarked the elevator man.—*San Francisco Post.*

Foul breath is a disgraceful affliction. There are more reasons than one for this. Foul breath is always an indication of poor health. It is caused by indigestion. To bad digestion is traceable almost to all human life. It is the starting point of many very serious maladies. Upon the healthy action of the digestive organs, the blood depends for its richness and purity. If digestion stops, poisonous matter accumulates and is forced into the blood—there is no place else for it to go. Before the fermented, putrid matter has indicated its presence by making the breath foul, the common cold, headache and many of the eyes and all the head heavy. By and by, the germ infected poisonous matter in the blood causes various inflammations in some part of the body. Then comes rheumatism, sciatica, consumption, liver complaint, kidney trouble and a half a hundred other ills.

The bad breath is a danger signal. Look out for it. Before you have any other symptom of indigestion, take a bottle or two of Dr. Pierce's Golden Medical Discovery. It will straighten out the trouble, make your blood pure and healthy and full of vigor for the tissues. It is a strong statement, but a true one that the "Golden Medical Discovery" will cure 99 per cent of all cases of consumption if it is taken in the early stages. It will relieve even the most obstinate cases of long standing.

Send this notice and six cents to cover postage and you will receive from the World's Dispensary, Medical Association, No. 661 Main Street, Buffalo, N. Y., a large book of 160 pages, telling all about the "Golden Medical Discovery" and containing portraits, testimonials and addresses of hundreds of those cured by it.
