Among the recent schemes to transmit large amounts of power by electricit, are two very ambitions ones to supply the cities of Chicago and Baltimore, The promoters of the Chicago scheme claim the fall of the drainage canal at Lockport, 20 miles west of the city, will be sufficient to furnish between 20,000 and 40, ooo horse-power to be wired to the city, while at Baltimore it is proposed to put up an enormous plant, 40 miles north on the Susquehanna river, where two falls are calculated to afford from 25,000 to ate and responsible duties. 40,000 horse-power each. Cnicago's city electrician, however, is quoted as saying that the experience at Niagara in transferring power to Buffalo is not proving a paying investment.

IT was an affecting thing to see the lit. tle children gather around the old bell on Pennsylvania Day at Atlanta, said a visitor. wounds received in battle. WASHINGTON is said to be unusally quiet, though Congress meets next week. In the years when a new Congress assembles Washington is usually in a turmoil for several weeks before Congress meets, owing to the campaign for the nomina tion of Speaker of the House. This year there is no Speakership campaign. It was settled when the votes cast at the Congressional election, last November, were counted that Hon. Thomas B. Reed, of Maine, should again be Speaker of the House. There remains only the minor offices of the House to be determined upon, and although the friends of the several gentlemen who are candidates for each of those offices are greatly interestthe good-natured contest they are waging. So it is easy to understand why so few members of the House are in Washington and why everything is so quiet.

Ex-Representative Wade, of Missouri, may be a candidate either for Doorkeeper or for Postmaster; Ohio is said to have a candidate, not yet named, for Postmaster, and Captain Sher wood, of Michigan, ex-Postmaster of the House and of Washington, is also a candidate for the same place. Ex-Representative Henderson, of Illinois, is a can didate for the Clerkship of the House, and he is said to have declined entering a combination as a candidate for Sergeant-at-arms, a position for which Mr. Russell, the present Speaker of the Missouri House of Representatives, is a candidate. There are half a dozen candidates for Chaplain of the House, but the friends of Rev. H. D. Fisher, of Kansas, says he is certain to get it.

QUALITY and QUANTITY.

How Goed! That is one of the questions ever confronting the buyers of Dry Goods. The other is, How Much? Some dealers continually harp upon the quality of their goods and try to give them a ficititious raine by asking an extraordinary price. Others talk quantity only and sacrifice worth to bulk. Our plan is to give the best quality in the largest quantity. More goods and better goods for a dollar than any store in town. As for example:

The following letter has been received in Boston from a reliable correspondent y at a rate of interest not exceeding in Constautinople:

ey at a rate of interest not exceeding six per centum, and issue bonds there-for: Provided, That the total indebted-ness incurred by any township, under this act, shall not exceed one-half of one per centum of the assessed value of real estate of such township;" and for the purpose of paying the indebtedness thus created "to collect annually, in cash, a tax not exceeding fifty per centum of the rate of assessment, respectively, laid in each year for road purposes." "The Turks have induced some of the subsidized European papers to speak of these crimes as Armenian outbreaks, etc,; but the ambassadors have full reports. which they ought to publish. that refute all this, and show conclusively that the Sultan, within a day or two after he signed the reform scheme, ordered the Armenians to be massacre in order that there should be no question of an Armenian majority in any of the provinces. The people sought the spoils obtainable and so did not execute th Sultan's wish to the fullest extent. But the loss of life has been awful. Moreover, there seem, to be no way of pre

venting more of the same sort. "It is the most awful crime of the century, because it is so persistently falsified by its authors.

"Everywhere the story is the same-a deliberate preparation, and then a story sent to Europe that the Armenians attacked the inoffensive Turk, and were reduced to order after a few had been killed.

"Worse times are in store for us. Europe is divided in counsel, and the Turks, finding that nothing is done for this crime, will go on to extremities. The highest Moslem court has declared that the sultan cannot lawfully be restrained in the exercise of his will, since he is the representative of God for the whole earth.

"From 15,000 to 20,000 people have been slaughtered during the last month, and in consequence no less than 100,000 persons heretofore dependent on them for their daily food, are now in want. The coming winter will witness a vast amount of suffering. It is not alone at Sassoun, but all over the land where these occurrences have taken place.

A dispatch to the London Daily News from Constantinople, giving a general resume of the situation, declares that the recent massacres put the earlier out-rages of Sassoun and Moush entirely in the background. If either England, France or Russia should publish the stories reported officially by their cool, headed emanis all Europe would stand aghast at the proof, surprised to think such things possible.
