Forty members of the County Committee attended the meeting of last Saturday atternoon to fix the time for holding the the primaries this year. A motion was made fixing the time for Saturday, March 21, which was amended to the 28th, and the amendment carried.

The following resolution governing the primaries was offered by Hon. Josiah M. Thompson, and after being fully discussed was unanimously adopted;

Resolved, That none but known Republicans be allowd to vote at a Republican primary election in this county, and if not known as such by the election board, the person offering to vote must state under oath that the will support the Republican nominees at the following November election, if he votes at all, provided that this rule shall not conflict with the rule now in force allowing one to vote at a primary election who has not attained his twenty-one years of age at the succeeding. November election.

matter was reconsidered and the resolutions defeated by a two to one vote.

Most of the candidates present saw no
objections to all the names being printed
on the ticket used; but they could not
agree to relying on one man in each district for having those tickets at the polls;
and again that method would do away
with all priyacy in marking your ticket, with all privacy in marking your ticket, at many, perhaps all, the polling places in the county.

From the mixed character of the Uni. ted States Senate it looks as though it would not be of much assistance in legislation this session. There are twenty-five sound money Republicans and seventeen silver Republicans, thirteen sound money Democrats and thirty-four silver Democrats. The Populists are, of course, all silverites. With this incongruity and obliteration of party lines it s impossible to expect concerted or organized efforts in behalf of good legislation, and the session promises meagre and mediocre results.

But every consideation of party lines are still in promound that these men—nominally Republicans—shall not interpose their pet fad at this junture to prevent the passage of a bill which is impossible to expect concerted or organized efforts in behalf of good legislation, and the session promises meagre and mediocre results.

But every consideation of party lines in the music line.

The protracted meetings are still in progress at the M. E. Church, and there is good being done. There is much material for a big regival in this town. The features of the Sunday gervices were the splended semon by the pastor, S. M. Nickle, and the music under the direction of the new chorister. The quartette with brass solo in the evening was exceptionally fine and great credit is due the music committee for their recent arrangements. This choir has been in back ground for some years,

### McCAN DLESS' HEAVE CURE

I have a Heave Cure that will cure any case of heaves in horses in forty days, used according to directions. and if it does ot do what I claim for it, I will refund he amount paid and no charges will be made for the treatment. The following esti monials are the strongest proof of th medicines power to cure:
