For Pure Soft Drink.

Secretary Fdge, of the department of agriculture, has announced that the term 'food' as is expressed in the pure food law, includes all articles used for soft law, includes all articles used for soft drinks as well. He says he will give special attention to the adulteration of soda water, milk, mineral water and other drinks of like character.

He urges that druggists and others in ordering their supply of syrups and other

There's sad truth, not to the credit of human nature, in the remark of an un-known exchange that men are like hogs in many respects. When a hog gets an ear of corn, every other hog will trot along behind him and squeal and whine and beg and toady for a bite, but let the and beg and toady for a bite, but let the front hog get in a tight place with his head fast in a crack, and every son of a sow will jump on him and tear him to pieces. Just so with men. As long as a man is prosperous and has money, he can't keep friends off with a base-ball bat. The moment he is unfortunate he is snubbed. When he goes up-grade, the world falls in behind and pushes. When he starts down grade, the world steps to one side and greases the track.

Be patient with the little ones, they are like tender plants; a harsh word or cruel blow leaves its impress, while a whipping has ruined for life many a bright but nervous child. Harshness begets rebellion and antagonism. Only buntiring patience and unvarying gentleness can the most and best be brought out of a child, and, in all discipline, then dought should be the highest development. The marble worker brings hammer and chisel to his hard and unresponsive work, but she who has for her task the development of a thinking soul should bring only sweet and gentle influences, lest it be marred in its unfolding.

The New Castle Courant of last week contained the following:

Considerable conjecture has been caused among local railroad men by the operations of an engineering corps which has been operating near New Oastle Junction and this city for a week past. Last Tuesday the corps appeared at the Junction and began to run a line up the Shenangh and began to run a line up the Shenangh and began to run a line up the Shenangh and began to run a line up the Shenangh and began to run a line up the Shenangh and the corps appeared at the Junction as the "fan-tail." At this point the line crosses the tracks of the Pittsburg & Western and shoots off to the northeast. From this point the tracks keep right on toward Butler. The members of the corps are treient as to their actions, but one of them is known to have remarked that the line would run through Battler. From where the stakes start from the Pittsburg & Western tracks at New Castle Junction to the point from which it approaches these tracks there is a break, and it can not be told from what direction the line is to approach the Junction.
