JUST A WORD OR TWO.

We want to talk with you a few minutes—You know us but do you know there are hundreds of people in Butler, Co. who do not know we are in Butler, it they did we would have enlarged our store to let the crowd in. Why what do you think. Nearly one-half the people who come into our store didn't know we made harness, while we have been running that part of our business for two years with a capacity of 10 sets per day, but we are glad to know they are pleased to find it out as it saves them money and will save you money if you mind it. However we did not intend talking about harness more than to say that we make all kinds of harness and parts of harness at less than factory price. It was surries and buggies we wanted to tell you about. We have a larger stock than we have had at any time for fifteen years. We have a last year surry in the house. Don't buy old stock, they are old style, and every year grow more so. Buy the latest design and be in fashion especially when you can buy them for less money than others charge for old style work, as for the price, whoever heard of anyone paying too much for anything bought here. We have in our employe a salesman with whom we would be afraid to send \$10,000 to Europe, when you deal here you know you are dealing with a reliable firm and you know just what you are getting, and also know the price is lower than you could get any where. Come and see us and have the satisfaction of knowing you have been in the largest store of the kind in the state.

BUTLER COUNTY

We take pleasure in presenting to the patrons of THE BUTLER CRITIC a business directory containing a classified index embracing a large portion of our business houses and manufacturers. We recommend each and every firm to the public, as a reliable business-house, worthy of the public confidence and patronage. We make a special request of our business men, that they retain this impression and put it in a conspicuous place in their office or place of business, as it will prove of inestimable value as a ready reference sheet, being alphabetically arranged, each line of business under its letters and headings, proper. Being carefully compiled, convenient in form and comprehensive in character, to the general reader, this directory will not be without interest, affording, as it does, an indication of the general expansion of the business of Butler County during the past few years, and supplying them with a means of reference, which by the way, the public can easily locate any business house with which they may have business to transact.
