COUNTY FOR CONGRESS JAMES J. DAVIDSON. FOR STATE SENATE, W. H. RITTER. FOR ASSEMBLY,

We renew and emphasize our allegiance to the policy of protection as the bulwark of American industrial independence and the foundation of American development and prosperity. This true American policy taxes foreign products and encourages home industry; it puts the burden of revenue on foreign goods; it secures the American market for the American producer; it upholds the American standard of wages for the American workingman; it puts the factory by the side of the farm and makes the American farmer less dependent on foreign demand and price, it diffuses general thrift, and founds the strength of all on the strength of each. In its reasonable application it is just, fair and impartial, equally opposed to foreign control and domestic monoply, to sectional discrimination and individual favoritism. JAMES N. ination and individual favoritism.

We denounce the present Democratic tariff as sectional, injurious to the public credit and destructive to business enterprise. We demand such an equitable tariff on foreign imports which come into competition with American products as will not only furnish adequate revenue for the necessary expenses of the government, but will protect American labor from degradation to the wage level of other lands. We are not pledged to any particular schedule. The question of rates is a practical question, to be governed by the conditions of the time and of production; the ruling and uncompromising principle is the protection and development of American labor and industry. The country demands a right settlement and then it wants rest. FOR CLERK OF COURTS, ISAAC MEALS. FOR TREASURER, CYRUS HARPER, FOR COUNTY COMMISSIONER, HARMON SEATON.

It becomes more likely every day that the free silverites will have a majority in the Chicago Convention. This will give them the power to make the platform: but when it comes to the nomination of candidates, they will be confronted by the two thirds rule, which is one of the cher ished conditions of their party. Therein lies the only hope of the sound money contingent in case it fails to secure a majority of the delegates. If it can muster over one-third of the strength of the Convention, and enforce the two-thirds rule, it can prevent the nomination of free silver candidates for President and Vice President, and compel the other side to put gold-standard cardidates on its platform, or make no nominations. This course is being urged by some of the Democratic sound money organs as an altercourse is being urged by some of the Democratic sound money organs as an alternative to be preferred to bolting. But the fact should not be overlooked that the success of such a plan involves the necessity of adherance to the two-thirds rule by both sides; and there is no assurance that the free silverites will consent to be beaten in that way when they can abrogate the two-thirds rule by their own votes, and make nominations according to the majority rule.
