My countrymen, the most un-American of all appeals observable in this campaign s the one which seeks to array labor against capital, employe against employer. It is most unpatriotic and is fraught with the greatest peril to all concerned. We are all political equals here—equal in with the greatest peril to all concerned. We are all political equals here—equal in privilege and opportunity, dependent upon each other, and the prosperity of the one is the prosperity of the other. It is as Mr. Lincoln said to the committee from the Workingmen's Association of New York, in the campaign of 1864: "Prosperity is the fruit of labor; prosperity is desirable; it is a positive good in the world. That some should be rich shows that others may become rich and hence is just encouragement to industry and enterprise. Let no man who is homeless pull down the house of another, but let him work diligently and build one for himself, thus by example assuring that his own shall be safe from violence, when built."

"Why not?"

"You, il wake the baby."

What if we do wake the baby?" said the tall burglar.

"If the baby cries" groaned the unhappy victim, "it will sour the temper of my wife's pet dog and then there'll be hades to pay."

With a glance of deep commiseration the burglars stole away.—Cleveland Plain Dealer.

The silverite orators in sist that the col-lars we have now, which are maintained at parity with gold by the government, are too good for the people of the United States—that they are really two-dollar dollars. There is food for reflection in this contention. The wags earners, the

Better have the contract all drawn up and igned, then we will know just how much Republican.

> Prosperity Coming. There will be no prosperity until the in-terests of the people are again committed to the hands of the Republican party. And when that occurs, a permanent and glor ious reign of prosperity will begin, and man will no more desire a change merely for the sake of a change.—Beaver Springs

I have visited some of your beautiful villas along the Hudson. Some of the free silver advocates are claiming that silver is "the poor man's money." In this country there ought to be no such a thing as a poor man's or a rich man's money, but the people's money—as good in purchasing power and stability for the poor man as for the rich. In reality that is the kind of money we now have, every dollar's worth and kept by the people's government at 100 cents.
