HOW IC CURE YOURSELF WHILE USING IT. USING IT.

The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is too severe a shock to the system, as tobacco to an inveterate user becomes a stimulant that his system continually craves. "Baco Curo" is a scientific cure for the tobacco habit, in all its forms, carrently compounded after the formula of an emineut Berlin physician who has used it in his private practice since land without end perfectly harmless. You can use all the tobacco you want while taking "Baco-Curo" It will notify you when to stop. We give a written guarantee to cure permanently any case with three boxes, or refund the money with 10 per cent interest. "Baco-Curo" is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvience. It leaves the system as pure and free from netotine as the day you took your first chew or smoke.

Eureka Chemicals Mig. Co., La Crosse, Wis.—Gentlemen: For forty years I used tobacco in all its forms. For twenty-five years of that time I was a great sufferer from general debility and heart disease. For fitteen years I tried to quit, but couldn't. I took various remedies, among others 'No-To-Bac," "The Indian To-bacco Antidote." ""ouble Chloride of Gold," etc., etc., but none of them did me the least bit of good. Finally, however, I purchased a box of your "Baco-Curo" and it has entirely cured me of the habit in all its forms, and I have increased thirty pounds in weight and am relieved from all the numerous aches and pains of body and mind. I could write a quire of paper upon my changed feelings and condition.

And a man may without dishonor earn his bread by the sweat of his jaw if the manner and matter of his speaking are wholesome. But whenever Mr. Bryan can got a crowd of American workingment to listen to him he harangues about the "struggling masses," the "greatness of the common people," and he tells the farmer that he is the equal of the banker, the workingman that he is as goed as the railroad president. This is the talk of a boot reached him and drew mining in about fifteen feet of water when cramps suddenly seized him and he sank. FRE GREAT PITTSBUEGH EXPOSITION.

All the friends and well-wishers of the Pittsburgh Exposition were more than gratified at the result of the opening on Wednesday evening, September 9. The great buildings, lighted by thousands of incandescent lamps and hundreds of the big are lights, presented a brilliant spectacle, in which the superb scheme of decoration, more complete than ever attempted, was set off to the greatest advantage. Never before in the history of the Exposition have exhibitors made so fine a showing on opening night. It was practically a complete exhibition.

The great crowd enjoyed to the utmost the splendid band concerts given by the Chicago Marine Band. under the direction of Thomas P. Brooks. This was the building of the process of the splendid band concert given by the Chicago Marine Band. under the direction of Thomas P. Brooks. This was the ship of the splendid band concert with the splendid band concert with the splendid band concert with the splendid band concert was the singing of the splendid band concert with the splendid band concert was the singing of Miss Sibyl Sammis, mezzo-aprano. Her volce is of fine quality, and she won hosts of admirers. The band and its assisting singer, will give four concerts align until September 19, and it behooves all music lovers in this section to hear her.

Among the countless exhibits of industry and manufactures in the two great buildings it is difficult to distinguish, so appropriate, attractive and timely is the entire showing. A look through Mechanical Hall demonstrates

the room, was perhaps the main object of interest.

All the auxiliary amusements were in fine working order, the gravity railroad, with its extended ride along the margin of the interest of borses, being the most popular. Surely the Eighth Exposition bids fair to excel in interest and popularity any in the series. Excursions on all railroads are now being arranged, and he will indeed miss a liberal education who falls to go with his family at least once to the greatest Exposition ever held a this part of the country.
