The selection of a United States Senator is conducted as follows in this State:

Each house votes separately on the third Tuesday of January at 3 P. M. On the day following at noon the two houses meet in joint convention, and the journals of the two houses are then read and certificates signed. If, however the same candidate shall not have received a majority of the votes in each house, or if either house shall have failed to take proceedings as required by law, the joint assembly shall then proceede to chose, by a viva voce vote of each member present, a person for the office, and the person having a majority of all the members elected to both houses being present and voting—shall be declared elected. In case of no election on the first day, the joint assembly shall meet at noon of each succeeding day during the session of the legislature and take at least one vote until a Senator shall be elected. Nominations must be made at least two days prior to the joint meeting and the names of the persons so app inted and nominated be commur cated by one house to the other.

and the roof is new, especially the atmosphere.

Did John Wanamaker take down tte old sign and put up a new one and wrap himself up in the comforting assurance that everybody would in time find out he was there and business would make itself. No, John Wanamaker, being a great business man, begins business in New York on business principles which he has proved to be good in Phi adelphia. He has lots of John Wanamaker in the newspapers. He knows that if the newspapers print readable things about his business the people will come in to see and will buy. Printer's ink costs money in New York, but John Wanamaker knows what printers ink has done for him in Philadelphia, and he knows that he could not get along without it in New York.

### NEIGHBOREGOD NOTES.

Louis Kramer, of Natrona, was commi ted to jail in Pittsburg, last Saturday by Judge Magee without bail. He had been arrested on a bench warrant on petition of creditors, who had charged him with fraud. Kramers arrest was the result of a detec-tive's investigation after his failure in busi-

by an accumulation of natural gas in the ceilar, caused by plumbers working in the house leaving the service pipe cock open. The first reson to arrive after the explosion found Mrs. Weaver sitting on the ground in the front yard with her baby in her arms and the bey beside her. Mrs. Weaver's ankle was sprained, and the boy has a small cut on his head, the baby being unburt. The servant girl was blown out of the door and across the lot, but she suffered little injury. A plumber working n the house also escaped

## Balancing the State's Books.

Last Monday was the last day of the Last Monday was the last day of the present fiscal year, and the books of the State treasury were closed that afternoon. A summary shows the recipts of the general fund from all sources to have been \$12,265,756 and the payments \$11,004,517, leaving a balance of \$1,261,288 for the year. But there was a balance of \$2,260,000 for the year and advanced by \$1,000 for the year and \$1,000 for \$1,000 989,018 on the last day of November 1895 which makes the total balance at this date \$4,250,257,

The farmer grandon W S. Connequenessing twp, is grandon W S. Connequenessing twp, is question was settled to the honor of the Nation; and we are ready for more Reform. If we look at our country roads we will find that they need attention. The farmer who is helping to pay for road machines and is willing to hitch bis team into it to build a good summer drive-way, shows that he is willing to do his part, and don't want to stay behind times, but be right up to it. But there should be legislation for building core substantial roads, and then there should be more care taken in the selection of Supervisors. In a great many cases there are many men trusted with that office who are unfit. I know of men voting for men and afterward were afraid to trust the supervisor with the cash tax for fear it would stay in his pocket. This should not be, and as the season has come when farmers get time to read in the evening I sek the kindness of our county papers to urge up the tax payer for a debate on this matter by giving the public a column free for good sound arguments on this matter. Certainly this will not build the roads, but we should understand what we are going to do before we act
